**RE: Important Security Notification. Please read this entire letter.**

Dear Sample A. Sample,

We are writing to inform you about a recent data security incident that has occurred within our organization. The privacy and security of personal information is very important to us. We want to provide you with all the necessary details a security incident we recently experienced and the steps we are taking to address it.

**What Happened:** On May 23, 2023, our IT engineering team detected a ransomware attack on our systems. The attackers managed to infiltrate and encrypt several critical components, including file servers, accounting workstations, backups, and backup servers. Immediately upon detecting the intrusion, we launched our incident response protocols to contain and mitigate the situation. We engaged third-party cybersecurity experts on June 1 to conduct a comprehensive forensic investigation.

The primary objective was to assess the extent of the breach and determine whether any employee personal information was compromised. The forensic analysis, completed on June 16, revealed that the threat actors may have gained access to database files containing employee personal information.

On August 17, 2023, we determined that additional personal information may have been exposed. If you have received a notice of an incident from May 2023, this notice is for the same incident. Based on new information, we have expanded the group of individuals that we are notifying.

**What Information was Involved:** We have investigated the affected systems and identified the following categories of your personal information that may have been accessed by the threat actors:

- Full Name
- Social Security Number

For Current and Former Employees of SF Jazz:

- Driver's License or Government Identification Number
- Date of Birth

We understand that this may be concerning to you, and we apologize for any inconvenience this may have caused. We want to assure you that we are taking every possible step to safeguard your personal information and prevent any further incidents.

**What We are Doing to Protect Your Information:** We regret that this incident occurred. As a response to the incident, we have taken immediate and comprehensive remedial measures to enhance the security and protection of your data. We are hardening our systems by installing industry leading countermeasures, such as enhanced encryption, for all sensitive devices. We are also fully updating security controls on users and their data, while also implementing two-factor authentication across all of our systems and users. These added layers of security will help prevent unauthorized access to our systems in the future.
