Dear Sample A. Sample:

Ryders Health Management provides skilled nursing and rehabilitation services at the following facilities: Lord Chamberlain Manor Nursing & Rehabilitation Center, Lord Chamberlain Nursing & Rehabilitation Center, Douglas Manor Nursing & Rehabilitation Center, Greentree Manor Nursing & Rehabilitation Center, Mystic Healthcare & Rehabilitation Center. I am writing to inform you that we, Ryders Health Management (“Ryders” or “we”) recently experienced a data incident (“Incident”) which potentially involved your personal information (“Information”) given you or a loved one received services at one of the listed locations. This letter provides you with information about this Incident, our response, steps you can take, and if necessary, information on where to direct your questions. Additionally, although we are unaware of any misuse of your Information or fraud in relation to the Incident, as a precaution we have also provided steps you can take to protect your Information.

What Happened?

On July 9, 2023, we detected unauthorized activity in our network, including the deployment of an encryption process and other indicators consistent with a ransomware incident. Ryders responded immediately, including by proactively taking certain systems offline, changing passwords, and launching an investigation. Ryders notified federal law enforcement of the incident and will continue to cooperate with their investigation into the party responsible. Our investigation determined that for a brief amount of time in July, an unauthorized actor obtained access to our systems and downloaded data, seemingly for the sole purpose of demanding a ransom. We then immediately began analyzing the records involved to confirm the identities of those potentially affected and notify them. There is currently no evidence that any Information has been misused for identity theft or fraud in connection with the Incident.

What Information Was Involved?

We determined that the following types of Information may have been impacted: name, address, date of birth, Social Security number, date(s) of service, medical record number and identification numbers, care plan, provider and facility name, medications and lab results, diagnostic and treatment information, health insurance information, and healthcare payment information. Note that this describes general categories of Information involved in this Incident, and it likely includes categories that are not relevant to you. If you would like to learn more about the specific types of Information related to you that were impacted, please call 833-549-2142 to inquire.

What We Are Doing.

Upon becoming aware of the Incident, we immediately implemented measures to further improve the security of our systems and practices. We worked with leading data privacy and security professionals to aid in our response and have reported this Incident to relevant government agencies and federal law enforcement. We also implemented additional security protocols designed to protect our network, email environment, and systems, and are currently assessing the entirety of our information security program.

Fraud Alert. You may place a fraud alert in your file by calling one of the three nationwide credit reporting agencies above. A fraud alert tells creditors to follow certain procedures, including contacting you before they open any new accounts or change your existing accounts. Security Freeze. You may obtain a security freeze on your credit report, free of charge, to protect your privacy and ensure that credit is not granted in your name without your knowledge. The security freeze will prohibit a consumer reporting agency from releasing any information in your credit report without your express authorization or approval. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. When you place a security freeze on your credit report, you will be provided with a personal identification number, password, or similar device to use if you choose to remove the freeze on your credit report or to temporarily authorize the release of your credit report to a specific party or parties or for a specific period of time after the freeze is in place.

To place a security freeze on your credit report, you may be able to use an online process, an automated telephone line, or a written request to any of the three credit reporting agencies listed above. The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, and display your name, current mailing address, and the date of issue.

You may submit a declaration of removal to remove information placed in your credit report as a result of being a victim of identity theft.
