Dear <<Name 1>>:

Valmarc Corporation (“Vi3”) respects the privacy of information entrusted to us, which is why we are writing to advise you of an incident that may have involved some of your personal information. **At this time, we have no reason to believe that your personal information has been misused for the purpose of committing fraud or identity theft.** Nonetheless, we want to make you aware of the incident and provide you with guidance on what you can do to protect yourself, should you feel it is appropriate to do so.

On May 24, 2023, we became aware of suspicious activity involving an email account belonging to a Vi3 employee. Upon learning of the situation, we promptly contained the incident by securing the account to prevent further access and began an initial internal investigation into the incident. We also hired a leading forensic security firm to further investigate the incident and confirm the security of our computer systems and network. Our forensic investigation confirmed that an unauthorized third party temporarily accessed one (1) Vi3 employee’s email account at various times beginning on May 17, 2023.

We do not believe that the unauthorized third party’s motivation was to access the personal information contained in the email account and we have no indication that any such information has been used for fraud or identity theft purposes. However, out of an abundance of caution, we searched the email account for any personal information. On September 11, 2023, we learned that some of your information was contained in the compromised email account. The type of information that could have been viewed varied for each individual, but could include your name, <<Consolidated data elements>>.

In addition to the actions described above, we are taking steps to reduce the risk of this type of incident occurring in the future, including reviewing our technical security measures. Again, although we are not aware of any instances of fraud or identity theft, we are offering a complimentary two-year membership of Experian IdentityWorksSM Credit 3B. This product helps detect possible misuse of your personal information and provides you with identity protection services focused on immediate identification and resolution of identity theft. The District of Columbia and Massachusetts law also allow consumers to place a security freeze on their credit reports. A security freeze can be placed without any charge. A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. To place a security freeze on your credit report, you must send a written request to each of the three major consumer reporting agencies by regular, certified or overnight mail at the addresses below or, if available, comply with the consumer reporting agencies' online security freeze request procedures:
