

**Attachment B
FY13 Budget
Veto Items: Outside Sections**

Gateway Cities Definition

Section 57

I am vetoing this section because it dilutes limited funding available for targeted communities.

Tax Settlement Revenue

Section 59

I am vetoing this section because it is likely to have the effect of reducing revenues necessary to support the operating budget.

Authorization to Transfer Tobacco Settlement Payments

Section 159

I am vetoing this section because it mistakenly directs all tobacco settlement proceeds to the General Fund, instead of sending 10 percent to the State Retiree Benefits Trust Fund, as I recommended and the Legislature apparently intended.

Private Special Education Tuition Rate Freeze

Section 169

I am vetoing this section because it is inconsistent with the reasonable budgetary expectations of private special education schools and with increased special education funding for public schools provided in this Act.

Department of Mental Health Inpatient Study

Section 186

I am vetoing this section consistent with my veto in item 5095-0015 of section 2, while recommending an alternative study by the Department of Mental Health in my supplemental budget proposal.
