## **COVID-19** Vaccine Clinics

**Protect your kids this school year by getting them vaccinated against COVID-19.**

- Vaccines are available at local vaccine clinics for **FREE** for everyone 6 months and older.
- Some kids may still get **COVID** after getting the vaccine, but being vaccinated reduces their risk of becoming very sick, missing school or daycare, or needing a family member to miss work to care for them.
- Kids may have side effects like a sore arm, achy muscles, and tiredness that can last a day or two.
- Children who get the **COVID** vaccine are extremely unlikely to experience any serious problems.

Free, family-friendly clinics are available in your area.
