Alex	Twist	Huge fan of continued investment and development of this multipurpose trail. I'd love to see, long term, a paved trail that is accessible not only to walkers and mountain bikers, but also to people in wheelchairs. Additionally, extending the greenway/trails to an area that is transit accessible is an important part of making our state parks accessible for all.	Boston	MA	02135
Miriam	Kurland	DCR must stop its commercial tree cutting projects in our state forests. There is no good reason for harming our forests for commercial logging. Biodiversity, the climate and the well being of all life suffers. Please halt the assault on our public lands now.	Williamsburg	MA	01096
Nilesh	Kumar	I visit on your website and follow all your blogs and I must say that your blog is very informative and meaningful which I have ever read.</a>	New york	NY	10034
Skyhawk	Kinetic	I visit on yore website and read your all which is amazing, very informative and meaningful for me</a>	New york	NY	10034
