- Grant funds are drawn down on a reimbursement basis and the funding is available to be drawn based on our grant application in which the Trust estimates when the grant funding will be needed.
- The FFY 2022-2023 are mostly committed, we are waiting on reimbursements requests from specific projects to draw the funding down
- FFY 2024 grants have required tying specific projects to specific grants, slowing down the normal grants draw process. However, even with this change the Trust is well positioned to draw the funding within the required timeframe.
- 2024 Grants Awards have been received with the exception of the DW LSL Grant = \$50,095,000

Items #3 through #7 *Project Descriptions*

Project Descriptions for March 5, 2025

Board of Trustees Meeting

Asset Management Planning Agreements

Canton CWA-24-69

Asset Management Planning

The project will inventory the assets at each of the Town's six sewer substations and add the relevant asset information into their GIS and Cityworks Asset Management system. The Town will then assess condition of each of their substations to determine rehabilitation and/or replacement needs at each. Additionally, the Town intends to digitize the sewer lateral asset information that currently only exists in 'paper' tie-card form and digitally connect the lateral within the GIS database. The project will help build institutional capacity, incorporate all DPW workflows into a single system of record, and leverage the tools and strategies developed previously to inform capital planning and operational decision making.

Wrentham CWA-24-71

Stormwater System Asset Management Plan

The project is to complete an asset inventory of the Town's existing Stormwater Infrastructure to better understand the utility's existing condition, network connectivity, and maintenance needs with the goal of better management of the Town's infrastructure.

Community Septic Management Program Commitments

Kingston CW-25-02

Community Septic Betterment Loan

Community Septic Betterment loan to assist homeowners in making repairs to failed or failing septic systems.

Stoughton CW-25-01

Community Septic Management Program

To assist with homeowners in Stoughton that have septic problems.

Clean Water Commitment

Revere CW-24-90

Phase 15 Field Investigations

The Phase 15 Field Investigations will identify and assess wastewater/stormwater improvements, including execution of ongoing Private Inflow Removal Program, all in support of the City's Consent Decree. Additionally, this planning study will evaluate a potential third connection to the MWRA system and conveyance improvements on Eliot Road.

Community Septic Management Program Agreements

Kingston CWT-25-02

Community Septic Betterment Loan

Community Septic Betterment loan to assist homeowners in making repairs to failed or failing septic systems.

Stoughton CWT-25-01

Community Septic Management Program

To assist with homeowners in Stoughton that have septic problems.

Clean Water Agreements

Dennis CWP-24-79

Phase 1 - WRRF and Collection System

The project includes implementation of Phase 1 of Dennis's CWMP and includes construction of a Water Resource Recovery Facility and a recharge facility, construction of a sewer "spine" from the WRRF to the commercial planning district along Route 28, and sewerage in residential areas adjacent to Bass River and East-West Dennis (Route 134). The construction of the new WRRF and collection system in Phase 1 will begin to reduce nitrogen loading in the Bass River, Swan Pond, and Herring River watersheds which require a large reduction in nitrogen based on the TMDLs and MEP reports.

Phase 15 Field Investigations

The Phase 15 Field Investigations will identify and assess wastewater/stormwater improvements, including execution of ongoing Private Inflow Removal Program, all in support of the City's Consent Decree. Additionally, this planning study will evaluate a potential third connection to the MWRA system and conveyance improvements on Eliot Road.
