(c) The grant or waiver of any one or more of such consents shall not render unnecessary any subsequent consent or consents, nor shall the grant of any such consent constitute a waiver of any other rights of the Town.

(a) Licensee shall make Cable Service available to every residential dwelling unit within the Town, unless legally prevented from doing so, where the minimum density is at least twenty (20) dwelling units per aerial mile and forty (40) dwelling units per underground mile providing however, that any plant extension is measured from the existing Trunk and Distribution System and Licensee is able to obtain from property owners any necessary easements and/or permits in accordance with Cable Act, subject only to the installation charges referenced herein and the provisions in Section 12.4 infra. Licensee shall make service available to multiple dwelling units (MDU) provided that Licensee is able to obtain from the property owners any necessary easements, permits and agreements to provide service to said MDU. Subject to the density requirement, Licensee shall make available Cable Service to all new homes or previously unserved homes located within two hundred feet (200') of Licensee's Distribution Cable. With respect to areas of the Town which are currently served by Licensee from a contiguous cable television system or currently unserved but could be served by abutting Town(s) served by Licensee, Licensee shall have the option to serve such areas from its cable television system in such abutting Town.

(b) Installation charges shall be non-discriminatory. A standard aerial installation charge shall be established by the Licensee which shall apply to any residence located not more than two hundred feet (200') from the existing aerial Trunk and Distribution System and additions thereto. The Licensee may charge residents located more than 200' from the existing aerial Trunk and Distribution System, and additions thereto, time and materials charges.
