Re: WARN Notice – Mass Layoff

Dear Mr. Jones:

Boston Electrometallurgical Corporation d/b/a Boston Metal (the “Company”) is providing you with this amended notice (the “Amended WARN Notice”) pursuant to Massachusetts General Laws Annotated Chapter 149 § 179B; Chapter 151A § 71B and the Federal Worker Adjustment and Retraining Notification Act, 29 USC §§ 2101, et seq. (“WARN”), as well as 20 C.F.R. § 639.10(a), in order to notify you that the Company has extended the date of the previously announced mass layoff that will impact employees currently working at its below-listed facilities in Woburn, MA. This Amended WARN Notice supersedes the WARN notice you received on February 20, 2026 (the “Original WARN Notice”).

As stated in the Original WARN Notice, an unforeseen industrial accident occurred at the Company’s manufacturing facility in Brazil on January 30, 2026, resulting in a critical equipment failure and an immediate halt to industrial operations. The Company had no prior indication that such an incident would occur, as its systems had been designed and operated to prevent such an occurrence, and no similar incident had previously taken place in the Company’s larger-scale production systems. The accident caused the Company to miss a key operational milestone that was a condition to the closing of a pending financing transaction. As a result of the accident and the inability to meet the operational milestone, the Company lost access to committed capital that was essential to sustaining operations at the Company’s Woburn, Massachusetts facilities. Under the Original WARN Notice, the mass layoff was expected to occur on March 14, 2026.

Since providing you with the Original WARN Notice, the Company has secured funds that allow it to extend the notice period to the full 60 days required under WARN. Accordingly, the Company is issuing this Amended WARN Notice to extend the date of the mass layoff to April 21, 2026. However, the secured funds do not offset the losses sustained as a result of the unforeseen industrial accident, and the Company’s decision to reduce its headcount remains necessary. Please see below.

- The Company will be conducting a mass layoff of employees based at the Company's facility located at the following addresses:

6A Gill Street
Woburn, MA, USA 01801
(Pilot Plant + R&D)

10 Sixth Road
Woburn, MA, USA 01801
(Main Office)

80 Commerce Way
Woburn, MA, USA 01801
(Warehouse)

- The Company provided affected employees with amended WARN notices on March 12, 2026, via First Class Mail and Email.
- **The mass layoff will now occur on April 21, 2026**, and all affected employees will be terminated that day.
- In total, 71 employees are expected to be impacted by the mass layoff.
- The layoff is expected to be permanent for all affected employees.
- None of the affected employees have "bumping" rights to other positions at the Company.
- The employees are not represented by a union.
- The Company official from whom further information may be obtained is:

Natalie Alarcon
VP of People, Culture and Diversity
6A Gill Street Woburn, MA 01801
603-686-1471
Natalie@bostonmetal.com

Enclosed please also find a list of the job titles of positions to be affected and the number of affected employees in each job classification, which has not changed from the list provided with the Original WARN Notice. Please note that a copy of this Amended WARN notice has been provided to the Chief Elected Official of Woburn (Mayor Michael Concannon) via e-mail and first class mail.

Sincerely,

Natalie Alarcon
VP of People, Culture and Diversity
Boston Metal

Encl.
