5	\$129.00	5	\$135.00	5	\$155.00	5	N/A

Hourly prices are based on one (1) truck. Any additional trucks required will be charged at \$30 per hour. At the end of the month, rates may increase up to \$15 an hour. All charges are calculated by 15 minute increments with a 2 or 3 hour minimum. There are no additional charges for fuel. There is an additional charge for packing supplies.

The hourly charge is based on the following:

The clock starts from the moment we leave our dock located in Allston, Ma until the moment we get back. This charge is a combination of labor and travel time.

Labor time is calculated via the following:

Time is computed from the time the vehicle and movers report at the original point of loading until the completion of unloading the last load at final destination, less time spent for meals or vehicle breakdown.

Travel time is calculated via the following:

The time it takes to get to the pick-up address from our dock and then the time it takes to return to our dock from the destination address. This will be calculated using such programs as Yahoo Maps or MapQuest. There will be a 20% travel time cap on all moves.
