

Break the Silence of Abuse!

PREA

Prison Rape Elimination Act

The DOC has zero tolerance for sexually abusive behavior. We are committed to provide the best health care and mental health counseling for victims of sexual abuse. Medical and mental health staff want to hear from inmates and we treat every investigation of sexual abuse in a confidential and professional manner.

Any sexual contact increases the risk of exposure to a sexually transmitted disease (STD), including AIDS. Help us prevent the spread of disease in our prisons and our communities.

Break the Silence of Abuse. Report sexually abusive behavior immediately!
