Success Highlight

"Participant D had been expelled from school after an altercation with another student. They were having challenges due to conflicts in the home and began running away and engaging in unsafe behaviors and streetrelated activities. Participant D worked with a case manager to get into therapy, obtained academic support for re-engagement in school, worked on relationships with their family, and rebuilt trust with their mom. They brought up their grades and took it upon themselves to take extra classes to graduate on time. As gang-involved activities decreased, participant D also began cheerleading and went to Nationals this year for competition.

They have been studying for their driver's permit test and working with their case manager on permanent employment. We are looking forward to what lies ahead for their bright future!"
