Nora J. Mann, Esq.
Director, Determination of Need Program
Massachusetts Department of Public Health
250 Washington Street
Boston, Massachusetts 02108

Dear Ms. Mann,

Thank you for your letter dated November 14, 2017 informing the Boston University Henry M. Goldman School of Dental Medicine (GSDM) that we received approval from the Commissioner and the Public Health Council for our Determination of Need application (GSDM-17040515-RE) in connection with the substantial capital expenditure for the new construction of 13,717 square feet and the renovation of 19,767 square feet (for a total of 33,484 square feet) of space affecting our licensed dental clinic at 100 East Newton Street, Boston, MA 02118 (the "Approval Letter"). In accordance with 105 CMR 100.310(B) and 105 CMR 100.735(D)(1)(b), this letter shall serve as written notification of our acknowledgement of receipt of the Approval Letter and attestation to comply with the conditions set forth in the Approval Letter.

In addition to complying with other requirements, as required by the Department of Public Health in support of our Determination of Need, the Henry M. Goldman School of Dental Medicine will provide the following information on an annual basis following the completion of the project:

- (1) How implementation of the integrated care model has had an impact on health outcomes and quality of life for the patient panel; and
- (2) Documentation that clinician use of CBCT is in line with FDA and ADA recommendations.

And as part of our first annual report to the Department of Public Health, we will provide the number of CBCT scans provided in each of the last three years, the payer mix for reimbursement for the cost of the scan, and the service(s) for which it was provided. The Applicant commits, as a condition of this DoN, that (1) the volume of CBCT scans provided at the Pre-Doctoral Treatment Center will not appreciably increase except to the extent that the number of implant evaluations in the Pre-Doctoral Treatment Center increases or FDA and/or ADA recommendations are revised to support additional uses for CBCT scans and (2) the payer mix for CBCT scans provided at the Pre-Doctoral Treatment Center will not appreciably change year to year unless the overall payer mix of the Pre-Doctoral Treatment Center changes.

In accordance with 105 CMR 100.310(K), the Henry M. Goldman School of Dental Medicine also attests that it participates in MassHealth pursuant to 130 CMR 400.000 through 499.000.

Sincerely,

A handwritten signature in black ink that reads "J W Hutter".
