Overview

Project Location

Overview

Beyond Mobility Highlights

- This project replaces deteriorated pavement on Route 3 from Burlington to Tyngsborough supporting system **Reliability**
- Resurfacing will improve pavement serviceability and roadway conditions which supports **Safety** and **Travel Experience**.

Existing pavement conditions necessitate preservation action (longitudinal pavement cracking shown)

Existing guardrail systems need repair/replacement

Scope of Services

- Milling and Resurfacing the existing Route 3 mainline, the Exit 72B Southbound off-ramp, and bridges within the project limits (approximately 20 miles).

Additional Work:

- **Upgrade Safety Hardware:** Replacement of existing damaged or substandard guardrail.
- **Drainage System Cleaning and Repair:** Adjustment of existing drainage structures: installation of secured castings; cleaning of existing drainage structures and pipes.
- **Technology Improvements:** Upgrades to Intelligent Transportation System and Traffic Data Collection equipment.

Construction Management Approach

- The proposed schedule includes nighttime operations between 9:00 PM and 5:00 AM, Sunday evening through Friday morning for an 8-hour day, 5-day week.
- Lane shifting will have minor impacts to the overall traffic pattern with one lane of traffic maintained at all times in each direction.
- Construction will take approximately two construction seasons to complete.

Procurement and Budget

- Project Advertised March 15, 2025
- Engineer’s Estimate was \$21,007,095.00
- Bid Opening was May 13, 2025
