**Natural Resource Damages Assessment and Restoration Program**

**Grant Announcement and Application (GAA)**

**North River Restoration (Colrain)**

**Response to Questions**

1. The RFP says an applicant can apply for more than one project. Is it possible to bundle projects or is it preferable to submit separately?
  - a. Yes, projects can be bundled as long as the total monetary request does not exceed \$225,000. Based on MassDEP's review of the application, MassDEP may decide to only fund select projects included in a grant application that includes multiple projects. Ideally an application with multiple projects will include a cost breakout for each project to enable the funding of each project separately if all projects are not awarded.
