

am concerned about Cape Wind proposal currently under review by the Army Corps of Engineers for extensive wind energy facility on 24 square miles of public land in Nantucket Sound.

It is important that decisions regarding offshore development in Massachusetts be made to protect public interest. Under the current federal management of Nantucket Sound waters the future of Nantucket Sound and Massachusetts residents' & taxpayers interest are being compromised.

Our neighbors and friends in Osterville and friends in Hyannisport, Cotuit, join me in calling upon Gov. Romney & Ocean Management Task Force to request that the Army Corps of Engineers suspend its review of the Cape Wind project until they have put an Ocean Resource Management Act in effect.

Sincerely, Richard and Phyllis Campobello
Osterville, Mass.
