Subject: Submittal of SFY 2018 –2020 Capacity Development Triennial Report (SDWA Section 1420(c) (3))

Dear Ms. Traviglia:

The Massachusetts Department of Environmental Protection is the agency responsible for administering the provisions of the Safe Drinking Water Act, Section 42 U.S.C. § 300g-9 (c)(3). The Act requires the State agency (MassDEP) with primacy to prepare a triennial report, stating the progress the agency has made in adopting its Capacity Development Strategy, which is designed to improve the technical, financial and managerial capacity of public water systems in the State.

The attached report fulfills the requirements of the Act by demonstrating that MassDEP has successfully implemented its Capacity Development Strategy and that this initiative has had a direct and positive impact on the quality of drinking water in Massachusetts. A few short examples of the work that MassDEP has completed include:

- Registering and evaluating twenty-seven (27) new public watersystems.
- Evaluating one thousand and twenty-nine (1,029) public water systems via the sanitary surveys process.
- Evaluating, categorizing and providing technical assistance and outreach to address the four thousand four hundred and ninety-eight (4,498) technical, financial and managerial issues (Scheduled Actions) identified at public water systems during the sanitary surveys process.

If you have any questions concerning this submittal, please contact me at 617-292-5857.

Sincerely,

Yvette DePeiza  
Program Director  
BWR/Drinking Water Program  
Massachusetts Department of Environmental Protection

## EXECUTIVE SUMMARY

---

The Massachusetts Department of Environmental Protection (MassDEP) is the responsible agency for administering the provisions of the Public Health Service Act (Title XIV), also called the Safe Drinking Water Act (SDWA or the Act), Section 42 U.S.C.A. § 300g-9 (c)(3). The Act requires (Section 1420(c)(3)), the head of the State agency (MassDEP) with primacy, to submit to the Governor a triennial report, stating the progress the agency has made in adopting its capacity development strategy. The capacity strategy is designed to improve the technical, managerial and financial capacity of public water systems in the State. The report, which requires no action by the Governor, is attached, and will be made available to the public via MassDEP's web site and/or upon request.

The MassDEP through its Drinking Water Program (DWP) administers and enforces the requirements of the federal SDWA. From its headquarters in Boston and regional offices in Lakeville, Springfield, Wilmington, and Worcester, MassDEP is involved in every facet of ensuring that public water systems in Massachusetts provide and deliver drinking water that is safe and fit to everyone who lives in, works in, and visits our State. To further enhance its efforts to promote the public health and general welfare of the users of water, as well as to comply with the new federal Capacity Development requirements established by section 1420(c)(2) of the Act, the MassDEP developed and submitted to EPA in August 2000 a capacity development strategy. The capacity development strategy was designed to improve the technical, managerial, and financial (TMF) capabilities of public water systems so that they can achieve compliance with the requirements of the Act.

This report fulfills the requirements of section 1420(c)(3) of the Act by demonstrating that MassDEP has successfully implemented its Capacity Development Strategy and that this initiative has had a direct and positive impact on the quality of drinking water in Massachusetts.

---

## BACKGROUND INFORMATION

---

A public water system's capacity is determined by its ability to plan for, achieve, and maintain compliance with applicable federal and state drinking water standards now and in the foreseeable future. Based upon the research and technical assistance efforts of waterworks professionals and EPA guidance, capacity is known to have three components: technical, managerial, and financial. Adequate capability in all three areas is necessary for the successful operation of a public water system.

Capacity development is the process through which public water systems acquire and maintain adequate technical, managerial, and financial capabilities to assist them in complying with the Massachusetts regulations that implement the Act, published at 310CMR 22.00. The 1996 Amendments to the SDWA added capacity development provisions that provide a framework for States and public water systems to work together to help ensure that systems acquire and maintain these capabilities in order to meet current and future federal and state public health protection objectives. MassDEP's Capacity Development Strategy is the framework that MassDEP uses to improve the technical, managerial, and financial capacity of public water systems in Massachusetts.

### Massachusetts Drinking Water Systems

The Department of Environmental Protection regulates all public water systems in Massachusetts and enforces the SDWA through a primacy agreement with the USEPA. Public water systems are drinking water systems that serve at least 15 service connections or serve an average of at least 25 people daily at least 60 days per year.

There are 1,634 public water systems in the Commonwealth of Massachusetts, comprising the categories identified in Table A. Approximately 32% of all public water systems are classified as community water systems (residential population), 15 % are Non-Transient Non-Community systems (e.g. schools), and 53% are considered Transient Non-Community (e.g. campgrounds).

Table A: Massachusetts Water System Classifications

Year	Community	NTNC	TNC	Total # of PWS
2020	526	252	856	1,634

NTNC = Non-Transient Non-Community  
(e.g. – schools)

TNC = Transient-Non community  
(e.g. – campgrounds)

---

## **EFFICACY OF THE CAPACITY DEVELOPMENT STRATEGY**

---

The objective of the 1996 Safe Drinking Water Act Amendments is to ensure that public water systems provide safe drinking water to the public. The Amendments seek to prevent compliance problems and associated health risks by ensuring that public water systems have the capability to produce safe drinking water now and in the future.

MassDEP's Capacity Development Strategy focuses on improving the technical, financial, and managerial operations of public water systems in the Commonwealth. Section 1420 of the SDWA requires MassDEP to continuously implement its strategy. The effective implementation of the Capacity Development Strategy (as outlined below in Section I – Components of the Capacity Development Strategy), has resulted in an increase in the percentage of systems meeting all health based standards as well as an increase in the percentage of the population getting water from systems meeting all health based standards as described in Section II – Efficacy of the Capacity Development Strategy.

The following list of accomplishments (for the period July 1, 2017 – June 30, 2020) is indicative of the effectiveness of this program.

## I. Components of the Capacity Development Strategy

### A. New System Review for Community and Non-Transient Non-Community Systems (as required by SDWA Sec 1420 (c))

The MassDEP drinking water staff is responsible for evaluating (via a New System Business Plan and/or Sanitary Survey) the technical, financial and managerial capability of any new Community and Non-Transient Non-Community public water system. MassDEP staff also completes an evaluation on any new Transient Non-Community system. During the last three years the drinking water staff has completed the following number of evaluations (Figure 1);

Figure 1 MassDEP New Public Water System Reviews SFY 2018– SFY 2020				
Type of Public Water System	SFY 2018	SFY 2019	SFY 2020	Total # of Evaluations Completed
Community Systems	3	2	2	7
Non-Transient Non-Community Systems	1	1	2	4
Transient Non-Community System	7	4	5	16
Totals	11	7	9	27

***See Appendix A for a listing of the new PWS that registered between SFY 2018-2020.***

### B. Existing System Review (as required by SDWA Sec 1420 (c))

The MassDEP drinking water staff is responsible for evaluating (via a Sanitary Survey) the technical, financial and managerial capability of any Community, Non-Transient Non-Community and Transient Non-Community public water system. During the last three years the drinking water staff has completed one thousand and twenty nine (1,029) sanitary survey evaluations. Figure 2 provides a breakdown in the number and types of systems that had sanitary survey evaluations completed during FY 2018-2020.

Figure 2 MassDEP Existing Public Water Systems Reviews SFY 2018 – SFY 2020				
Type of Public Water System	SFY 2018	SFY 2019	SFY 2020	Total # of Surveys Completed
Community Systems	178	157	103	438
Non-Transient Non-Community Systems	81	58	64	203
Transient Non-Community System	185	181	22	388
Totals	444	396	189	1,029

A listing of the (1,029) Public Water Systems that had sanitary surveys completed on them between SFY 2018-2020 is available in Appendix B. They are organized by SFY.

C. Scheduled Actions (Technical, Financial and Managerial (TFM) deficiencies) identified during Sanitary Surveys.

During the course of conducting the 1,029 sanitary surveys to Community and Non-Community public water systems between SFY 2018 – 2020, MassDEP staff identified a total of 4,498 Scheduled Actions (TFM deficiencies). See Figure 3 below for a comparison of the number of scheduled actions identified during SFY 2018 – SFY 2020.

Figure 3 MassDEP Scheduled Actions (Technical, Financial & Managerial Deficiencies) SFY 2018 – SFY 2020				
Type of Public Water System	SFY 2018	SFY 2019	SFY 2020	Total # of Scheduled Actions
Community & Non-Community Systems	1,885	1,985	628	4,498

Further analysis of the 4,498 Scheduled Actions identified above in Figure 3 (SFY 2018- 2020) is captured below in Figure 4. The DWP staff analyze the Scheduled Actions annually (Figure 4) in an effort to identify what type of training and technical assistance is needed to address PWS deficiencies. The analysis is distributed to drinking water related training organizations and technical assistance providers including, but not limited to, Massachusetts Water Works Association, New England Water Works Association, Massachusetts Rural Water Association and RCAP Solutions. It is important to note that the “Issues” identified in Figure 4 reflect the age of a regulation, extreme weather changes, and survey cycle.

<p>Figure 4</p> <p>MassDEP</p> <p>Summary of Capacity Issues</p> <p>Identified as Scheduled Actions</p> <p>During Sanitary Surveys</p> <p>SFY 2018 - 2020</p>			
Issues	Frequency SFY 2018	Frequency SFY 2019	Frequency SFY 2020
Submit Documentation	640	779	280
Public Notification	0	3	4
Planning	284	328	70
Collect Samples	23	62	2
Installation	156	133	62
Well / Source Issue	180	243	58
Emergency/ ERP	62	98	39
Treatment / Distribution	71	124	32
Meter	49	50	12
Staffing Plan	32	38	21
Maintenance Plan/ Program	38	35	3
Distribution Maps	33	20	21
Storage/Tanks	229	72	24
Totals Scheduled Actions	1,885	1,985	628

The PWS are required to address all identified deficiencies during an agreed upon time frame or face the possibility of penalties and progressive enforcement. The detailed capacity issues and compliance actions identified below demonstrates that MassDEP is taking an active role in improving the technical, financial and managerial health of public water systems.

MassDEP  
Detailed Capacity Issues  
Identified as Scheduled Actions  
During Sanitary Surveys  
SFY 2018 – 2020 MassDEP

- SUBMIT/ COMPLETE SEASONAL START UP PROCEDURES/FORMS
- SUBMIT STAFFING PLAN AND REVISE ANNUAL STATISTICAL REPORT (ASR)
- SUBMIT UPDATED OPERATOR NOTICE AND STAFFING PLAN
- SUBMIT FINDINGS OF INDEPTH STAFF ANALYSIS
- SUBMIT TREATMENT REPORTS
- CONDUCT INSPECTION OF PRESSURE STORAGE TANK
- SUBMIT COMPLETED COLIFORM SAMPLE PLAN
- BEGIN SAMPLING COLIFORM PRE-TANK EACH MONTH
- COLLECT POINT-OF-ENTRY (POE) BACTERIA SAMPLE
- SUBMIT CERTIFIED OPERATOR COMPLIANCE NOTICE
- CONDUCT LEVEL 1 ASSESSMENT
- INSTALL TREATMENT FOR MANGANESE
- SUBMIT CAPITAL IMPROVEMENT PLAN
- SUBMIT LOG OF ALL TREATMENT MAINTENANCE
- SUBMIT CHEMICAL ADDITON FORMS
- KEEP LOGBOOK AT EACH WELL FOR ALL MAINTENANCE AND WORK
- CREATE COLIFORM MONITORING PLAN
- SUBMIT PLAN/SCHEDULE TO REPLACE STORAGE TANKS
- SUBMIT PLAN/SCHEDULE TO REPLACE DISTRIBUTION PIPES
- REVISE EMERGENCY RESPONSE PLAN (ERP)
- PROVIDE NOTICE OF SAFETY DATA SHEETS FOR ALL CHEMICALS
- KEEP EMERGENCY RESPONSE PLAN (ERP) ON SITE
- UPDATE EMERGENCY RESPONSE PLAN WITH OPERATOR INFORMATION
- CONDUCT ANNUAL OPERATOR TRAINING ON ERP
- CREATE A CAPITAL IMPROVEMENT PLAN
- COMPLETE ASSET MANAGEMENT PLAN
- PROVIDE NOTICE OF SAFETY DATA SHEETS (SDS) FOR ALL CHEMICALS
- COMPLETE MASTER PLAN
- COMPLETE WRITTEN MAINTENANCE PLAN
- SUBMIT CONSERVATION PLAN

(continued)  
MassDEP  
Detailed Capacity Issues  
Identified as Scheduled Actions  
During Sanitary Surveys  
SFY 2018 – 2020 MassDEP

- REPAIR WELLHEAD
- CUT AND CAP ABANDONED WELLS
- SUBMIT ACTION PLAN TO PREVENT OVER PUMPING
- CAMERA INSPECTION ON WELL
- OVERFLOW TERMINATION 12"+ ABOVE GRADE
- RE-DIRECT AC DISCHARGE AWAY FROM WELLHEAD
- RAISE WELL OUT OF PIT AND INSTALL VENT
- INVESTIGATE DISCHARGE OF CATCH BASIN AND FLOOR DRAIN
- MAINTAIN SILICONE ON BOLTS IN WELL CASING
- REGISTER DRYWELLS WITH UNDERGROUND INJECTION CONTROL (UIC) PROGRAM
- EVALUATE & REPAIR/REPLACE RADON
- UNPROTECTED OPENING IN THE WELL HEAD
- PLUG ELECTRICAL OPENING IN WELL CAP
- ELIMINATE RODENT ACTIVITY FROM PUMP HOUSE
- FILL IN THE AREA AROUND WELLHEAD
- CONDUCT INSPECTION OF 8,000 GALLON ATM TANK WELL
- SUBMIT OPERATION & MAINTAINENCE MANUAL FOR CALCITE TREATMENT
- UPDATE DISTRIBUTION MAP
- DISTRIBUTION MAP FOR ALL SOURCES
- INSTALL UV DISINFECTION OR JASWELL SEAL
- INSTALL OVERFLOW CONTAINMENT AROUND CLEAN IN PLACE (CIP) TANK
- INSTALL PRESSURE GAUGES ON EACH HYDRO TANK
- INSTALL CHECK VALVE, S.TAP BEFORE IT, INJ PORT AFTER CV
- INSTALL MIXING DEVICE IN TANK
- INSTALL A PRESSURE RELIEF VALVE OR REPLACE TANK
- INSTALL RAW WATER SAMPLING TAPS UPSTREAM OF SYSTEM
- INSTALL EMERGENCY CONNECTIONS FOR GENERATORS
- INSTALL CONTAINMENT PALLET UNDER DAY TANK
- INSTALL RAW SAMPLE TAPS PRIOR TO CHECK VALVES
- INSTALL HI LOW TANK LEVEL ALARMS
- INSTALL CONNECTION FOR BULK WATER DELIVERY
- INSTALL HARD-PIPED SHOWER AND EYE WASH
- INSTALL VACUUM BREAKER ON THREADED FAUCETS
- ENGINEER INSTALL UIC CHAMBER
- INSTALL LOCK ON TREATMENT DOOR
- INSTALL PT-TANK SAMPLING TAP
- INSTALL HOSE BIB VACUUM BREAKERS (HBVBs) AND SUBMIT DOC

#### D. Stakeholder Involvement

In an effort to build capacity and encourage partnerships between non-profit organizations, universities, environmental agencies and the public water systems themselves, MassDEP worked on two (2) Stakeholder Involvement initiatives. The first (1<sup>st</sup>) initiative was a contract (2019-20) with the University of Massachusetts – Amherst. This contract was comprised of the University of Massachusetts, Massachusetts Rural Water Association (MRWA) and the New England Water Works Association (NEWWA). The coalition focused on providing an internship program, training sessions and one-on-one site visits to public water systems.

The second (2<sup>nd</sup>) initiative was during the reporting period SFY 2018 – 2020. Under the EPA Small System Training Contract, MassDEP worked with the following training and technical assistance providers; Massachusetts Rural Water Association, United States Department of Agriculture, (Rural Development), US EPA Environmental Finance Center (New Mexico), and the American Water Works Association to provide trainings to PWS. Topics included Lead and Copper Rule (LCR), Revised Total Coliform Rule (RTCR), asset management, leak detection, sampling, operator exam preparation and math review.

After analyzing the deficiencies in Figures 3, 4 and 5 and completing an analysis of MassDEP and PWS compliance needs, the training classes listed in Figure 6 (below) were given by both MassDEP and various stakeholders.

Figure 6 MassDEP Trainings Technical, Financial & Managerial SFY 2018 – SFY 2020
Training Class Name
Certified Operator Exam Preparation
VSS, T1 & D1
Revised Total Coliform Rule - RTCR
RTCR – Opening Closing your Seasonal System
Lead & Copper Rule -Update
Asset Management Planning

## E. Drinking Water Program – Capacity Development via Web based tools

The MassDEP through its Drinking Water Program (DWP), administers and enforces the requirements of the federal SDWA. To further enhance MassDEP's efforts to promote public health and improve the technical, financial and managerial operations of public water systems MassDEP has developed (3) communication tools which are described below. These tools (and other pertinent information) are used by DWP to promote PWS Capacity.

### 1. Training Calendar

The training calendar is updated weekly in an effort to keep DEP staff, PWS and consulting engineers and others aware of a host of both FREE and FEE based trainings. When you need training please look at the training calendar located at:

<http://www.mass.gov/eea/agencies/massdep/water/drinking/drinking-water-training-class-schedules.html> for upcoming trainings.

Some newly added trainings on the calendar are:

- AWIA Webinar: Creating Resilient Water Utilities on Nov 17, 2020
- RCAP Webinar: Understanding PFAS and O&M Best Practices - Nov 18-20, 2020
- EPA Webinar: Drinking Water Models and Tools – Nov 18, 2020
- EPA Webinar: Building Resilience to Extreme Weather Events – Nov 18, 2020
- EPA Webinar: Property Values and Water Quality-Hedonic Model – Nov 18, 2020
- EPA Webinar: Freshwater Explorer – Nov 19, 2020
- AWWA Webinar: Setting Effective Rates for Small Systems on Dec 10-11, 2020
- Water Utility Resilience Virtual Forum - Dec 13-15, 2020

### 2. YouTube Video Training

The Massachusetts Department of Environmental Protection (MassDEP) Drinking Water Program (DWP) has developed new training videos for public water suppliers (PWSs). Several of the videos were presented to a focus group of PWSs on December 8, 2015 to obtain feedback on the usefulness of the video concept for training purposes. The comments were positive. PWSs said they would watch the videos at proctored training sessions and would also watch the videos online at their convenience and revisit them for refreshers. Others said that they would show the videos to their staff and then discuss local specifics with them. The videos are another tool in DWP's outreach and training program for PWSs. Video trainings will not replace face-to-face trainings by DWP or partners but they do provide a convenient way to learn. Water works associations, PWSs, and others can schedule trainings at their facilities, show the videos, and offer Training Contact Hours with Board of Certification approval as long as there is no fee charged. Drinking Water Program staff will continue to develop videos on priority topics and post them at this location. Please call the Drinking Water Program at 617-292-5770 or email

program.director-dwp@mass.gov with questions or comments about the videos. If you need a refresher on recently given trainings, you can review several training videos located at: [https://www.youtube.com/playlist?list=PLJn2AKOcYr7lutGJB-UfDKtQPF\\_o\\_249m](https://www.youtube.com/playlist?list=PLJn2AKOcYr7lutGJB-UfDKtQPF_o_249m)

**Training Topics:**

- eASR
- Manganese Requirements in Drinking Water
- Manganese – Results and Health Effects
- Manganese Filtration Media and Membranes
- Manganese Training from Wright Pierce
- Checking In on your Source Water Protection Program
- Source Water Protection – Outreach to Residents
- Revised Total Coliform Rule (RTCR)
- Seasonal Start-ups
- Source Water Protection – Wildlife Impacts
- MassDEP Approval to Acquire or Release Land for Water Supplies
- Lead in School Drinking Water Assistance Program
- Chlorate Mitigation Control
- Revised Total Coliform Rule: Lessons Learned
- Lead in Schools Sampling Instructions
- Chemical Addition Form
- Healthy Lawn Happy Summer Toolkit
- Sample Collection for PFAS Testing at Public Water Supplies
- Water Sampling After Aerial Spraying for Mosquito Control

### **3. Pdirector Email (*In The Main Newsletter*)**

The Program Director or PDirector email is sent out bi-weekly and on an as needed basis and is a tool that DWP uses to keep PWSs and other interested parties informed on all drinking water issues with updates, newsletters, reports, emails, and direct mail. An example of technical assistance topics discussed in pdirector communications include:

- COVID-19 Information
  - MassDEP Public Water System Resources for COVID-19
  - EPA COVID-19 Update
  - MassDEP COVID-19 Conference Calls
  - RCAP: 40,000 masks for essential small system utility workers
- Legal/Regulations Updates
  - Lead and Copper
  - Arsenic
- New PFAS6 Regulations
  - MCL
  - Lab reports/analyses

#### Public health updates

- EEE updates
- Flush orders
- Training Calendar
- Funding opportunities for PWSs
- Technical assistance for PWSs

PDirector issues are located at <https://www.mass.gov/lists/communications-to-public-water-suppliers>. Archived copies are available at the Statehouse Archives at: <https://archives.lib.state.ma.us/handle/2452/826119>.

## **II. Capacity Development Strategy Protects Public Health**

The Capacity Development Strategy is having a positive impact on protecting public health as demonstrated by Figure 7 below.

---

**Figure 7**  
***GPRA RESULTS – 2nd QUARTER FY 2020 MASSACHUSETTS***  
***DRINKING WATER SYSTEMS & POPULATION IN COMPLIANCE WITH HEALTH-BASED STANDARDS***

---

The GPRA statistics are calculated each quarter using the most recent 4 quarters of health-based compliance information in SDWISFED for community systems.

	<b>GPRA- COMMUNITY SYSTEMS</b>	<b>GPRA-POPULATION</b>
<b>National Target</b>	<b>87%</b>	<b>92%</b>
<b>'20 Actual Region I</b>	<b>94.3%</b>	<b>95.8%</b>
<b>'20 MA</b>	<b>95.1%</b>	<b>94.4%</b>

---

## CONCLUSION

---

MassDEP is continuing to implement its Capacity Development Strategy. This strategy will require continuing modification in order to meet the ever-changing needs of the public water system. The MassDEP will also continue to monitor and evaluate the public water systems that have received technical assistance through the sanitary survey process, education, training and outreach. By continually monitoring and tracking, MassDEP will be able to modify the Capacity Strategy to include new requirements as it continues to promote the protection of public health and support the general welfare of the consumers of drinking water in the Commonwealth.

This report fulfills the requirements of section 1420(c)(3) of the Act by demonstrating that MassDEP has successfully implemented its Capacity Development Strategy and that this initiative has had a direct and positive impact on the quality and quantity of drinking water in Massachusetts. It is MassDEP's position that as a direct result of the technical assistance, education and outreach programs associated with the Capacity Development Strategy and provided by the DWP, the public water systems in Massachusetts have improved their technical, managerial and financial operations and their consumers/customers are drinking water that consistently meets all required federal and state standards.

## APPENDIX C

---

### GLOSSARY OF TERMS AND ACRONYMS USED IN THIS REPORT

---

<b>Capacity:</b>	Refers to the capabilities required of a public water system in order to achieve and maintain compliance with the drinking water rules. It has three elements:  <b>Technical:</b> Technical capacity or capability means that the water system meets standards of engineering and structural integrity necessary to serve customer needs. Technically capable water systems are constructed, operated, and maintained according to accepted quality standards.  <b>Financial:</b> Financial capacity or capability means that the water system can raise and properly manage the money it needs to operate efficiently over the long term.  <b>Managerial:</b> Managerial capacity or capability means that the water system's management structure is capable of providing proper stewardship of the system. Governing boards or authorities are actively involved in oversight of system operations.
<b>MassDEP:</b>	The Department of Environmental Protection. This agency is responsible for administering the drinking water rules in our state.
<b>DWSRF:</b>	The Drinking Water State Revolving Loan Fund. Congress authorized this fund in 1996. In Massachusetts, MassDEP administers the DWSRF.
<b>EPA:</b>	Environmental Protection Agency. This federal agency oversees state programs, sets MCLs and provides technical assistance. EPA determines when a state's capacity development program is in compliance with the Safe Drinking Water Act.
<b>MCL:</b>	Maximum Containment Level. This is the maximum allowable level for a given drinking water contaminant.
<b>PWS:</b>	Public Water System as defined in the Safe Drinking Water Act.
<b>SDWA:</b>	The Safe Drinking Water Act passed by the US Congress in 1974 and amended in 1986 and 1996.
<b>TFM:</b>	Technical, financial, and managerial. The abbreviation is used to save space in the report and avoid frequent repetition of these terms.
