Attachment 1. Federal Register Notice, June 3, 2026

1 Introduction

The Utilities and Services Appendix¹ includes supplemental documentation in support of the Final Environmental Impact Statement for the Cape Cod Bridges Program (Program), in accordance with the following federal statutes, regulations, and guidance:

- National Environmental Policy Act of 1969, as amended, 42 United States Code (USC) 4321 et seq.
- *Efficient Environmental Reviews for Project Decisionmaking and One Federal Decision*, 23 USC 139.
- Federal Highway Administration’s regulations implementing the National Environmental Policy Act, *Environmental Impact and Related Procedures* (23 Code of Federal Regulations 771), and corresponding guidance, Technical Advisory (T 6640.8A): *Guidance for Preparing and Processing Environmental and Section 4(f) Documents* (October 30, 1987).

2 Algonquin Gas Transmission, LLC; Notice of Availability of the Environmental Assessment for the Proposed Cape Cod Canal Pipeline Relocation Project

Enbridge (doing business as Algonquin Gas Transmission, LLC) supplies natural gas to the Cape Cod Bridges Program Study Areas through high-pressure interstate transmission pipelines that terminate at two metering and regulating stations located north of Cape Cod Canal in the vicinity of Sagamore and Bourne Bridges. From these stations, National Grid (NGrid) distributes natural gas throughout the Program Study Areas. Both existing Enbridge metering and regulating stations north of the canal, along with the gas pipeline network to these stations, are located on the Cape Cod Canal Federal Navigation Project, federal property managed by the U.S. Army Corps of Engineers, and are proposed to be decommissioned and reconstructed in new locations. The relocation of Enbridge’s facilities is undergoing an environmental evaluation and permitting process, including compliance with the National Environmental Policy Act through the Federal Energy Regulatory Commission. **Attachment 1** provides the Notice of Availability for the Environmental Assessment of the Proposed Cape Cod Canal Pipeline Relocation Project, published in the Federal Register on June 3, 2026.

¹ This appendix has been newly prepared for inclusion in the Final Environmental Impact Statement and was not part of the previously submitted Draft Environmental Impact Statement; therefore, “New Text” formatting has not been applied.
