

Community Counseling of Bristol County

Section 4. BP1 Annual Report

4.1.1 Summary (1 page)

During the period of June 2018 to December 2018 (BP1) Community Counseling of Bristol County, Inc. (CCBC) Behavioral Health Community Partner (BH CP) successfully hired a staff of Care Coordinators, Registered Nurses, Directors, Supervisors, Recovery Support Navigator and Peer Specialist that allowed CCBC to have qualifying activities with 98% of assigned members.

By the end of BP1 CCBC had signed participation forms on 977 active members, had completed 713 Inter RAI CHAs, and had completed 567 Person Centered Treatment Plans (PCTPs). At the end of BP1 CCBC had 424 fully engaged members that had PCTPs that were both signed and returned by the Primary Care Physician (PCP) to CCBC.

By leveraging our existing relationships with area primary care practices and by working together with our ACO partners to support relationships with previously lesser known primary care practices we have made substantial progress in advancing healthcare integration with our shared members.

CCBC has been using the claims data, ENS feeds and ADT reports from ACOs to connect with members. CCBC has been working with ACO partners to fully understand the claims data and the impact of the social determinates of health.
