

April 20, 2021: Construction Update

In the coming weeks, the project contractors will be:

- Installing and compacting the grave base for the trail.
- This work will require the use of the vibratory roller.
- They will also be removing some additional trees at 2520 Route 6.
- Following this, they will begin demolishing the existing parking lot at Lecount Hollow Road and beginning the construction of the retaining wall there.
