

## **April 2022: Spring Update**

DCR and our Contractors are getting ready to resume activities for this spring on the CCRT extension to the Wellfleet Hollow Campground.

Remaining activities include:

- Final paving of the Rail Trail top course
- Installation of safety fencing at Lecount Hollow parking lot
- Additional planting and invasive species control
- Installation of benches and bike racks

We expect the Lecount Hollow Parking area and the rail trail to be substantively open in late spring, and are looking to schedule a formal opening event in June.

**Note:** The full Phase 1 Project Plans are available via the link provided below.
