The Path to Regional Labor Market Blueprints: Core Regional Working Groups

Blueprint Components

ANALYSIS*

- ✓ Regional Industry Trends in Employment
- ✓ Demand Trends for Occupations (Across Industries)
 - Weighted Demand
 - Current Openings (HWOL)
 - Short/Long Term Projects
 - Star Ranked Occupations
- ✓ “Talent” Gap
 - Available workforce for priority occupations (UI claimants, graduates of Voc Tech, certificates, degrees)
 - Which occupations show the biggest gaps?
- ✓ Career Pathway Opportunities

STRATEGIES

- ✓ Priority Industries/Occupations:
 - Consensus from Team on top 3-5 occupational pathways that need more workforce capacity
 - Asset map of existing credential pathways
- ✓ Concrete Strategies to Grow Talent Pipeline:
 - Increases “seat” capacity or graduates
 - Increase retention of existing graduates in region
 - Better matching of existing workers with jobs
 - Recruit workers from other areas
- ✓ Measures/ Shared Accountability for Regional Priority Pipelines

*All data sources, analysis and initial occupational ranking tables are available through the data tool. The initial PPT packages for the region were organized into data “chapters” based on the needed analysis (e.g. industry profile, weighted demand, star ranking, career pathways etc.)

Goals for **today** and for our **process**:

PROCESS

- Build shared understanding of anticipated changes and challenges in the region's ability to meet labor market needs
- Create shared understanding of the outcomes each region wants to achieve in relation to priority sectors and occupations
- Identify existing assets and regional collaborations to be leveraged
- Identify role and understand strengths/capacity of each regional planning group sector to achieve outcomes
- Develop consensus around a clear strategy and work plan to achieve agreed-upon regional outcomes

TODAY

- Introduce new Regional Team
- Build shared understanding of the planning region's employer demand through industry and occupation lens
- Begin to build consensus around criteria that determine priority sectors and occupations
- Begin to build consensus around priority sectors and occupations
- Identify next steps for the Regional Team

Central Region Data Package

Massachusetts Regional Planning Initiative 2017

strategy matters

LMI Overview

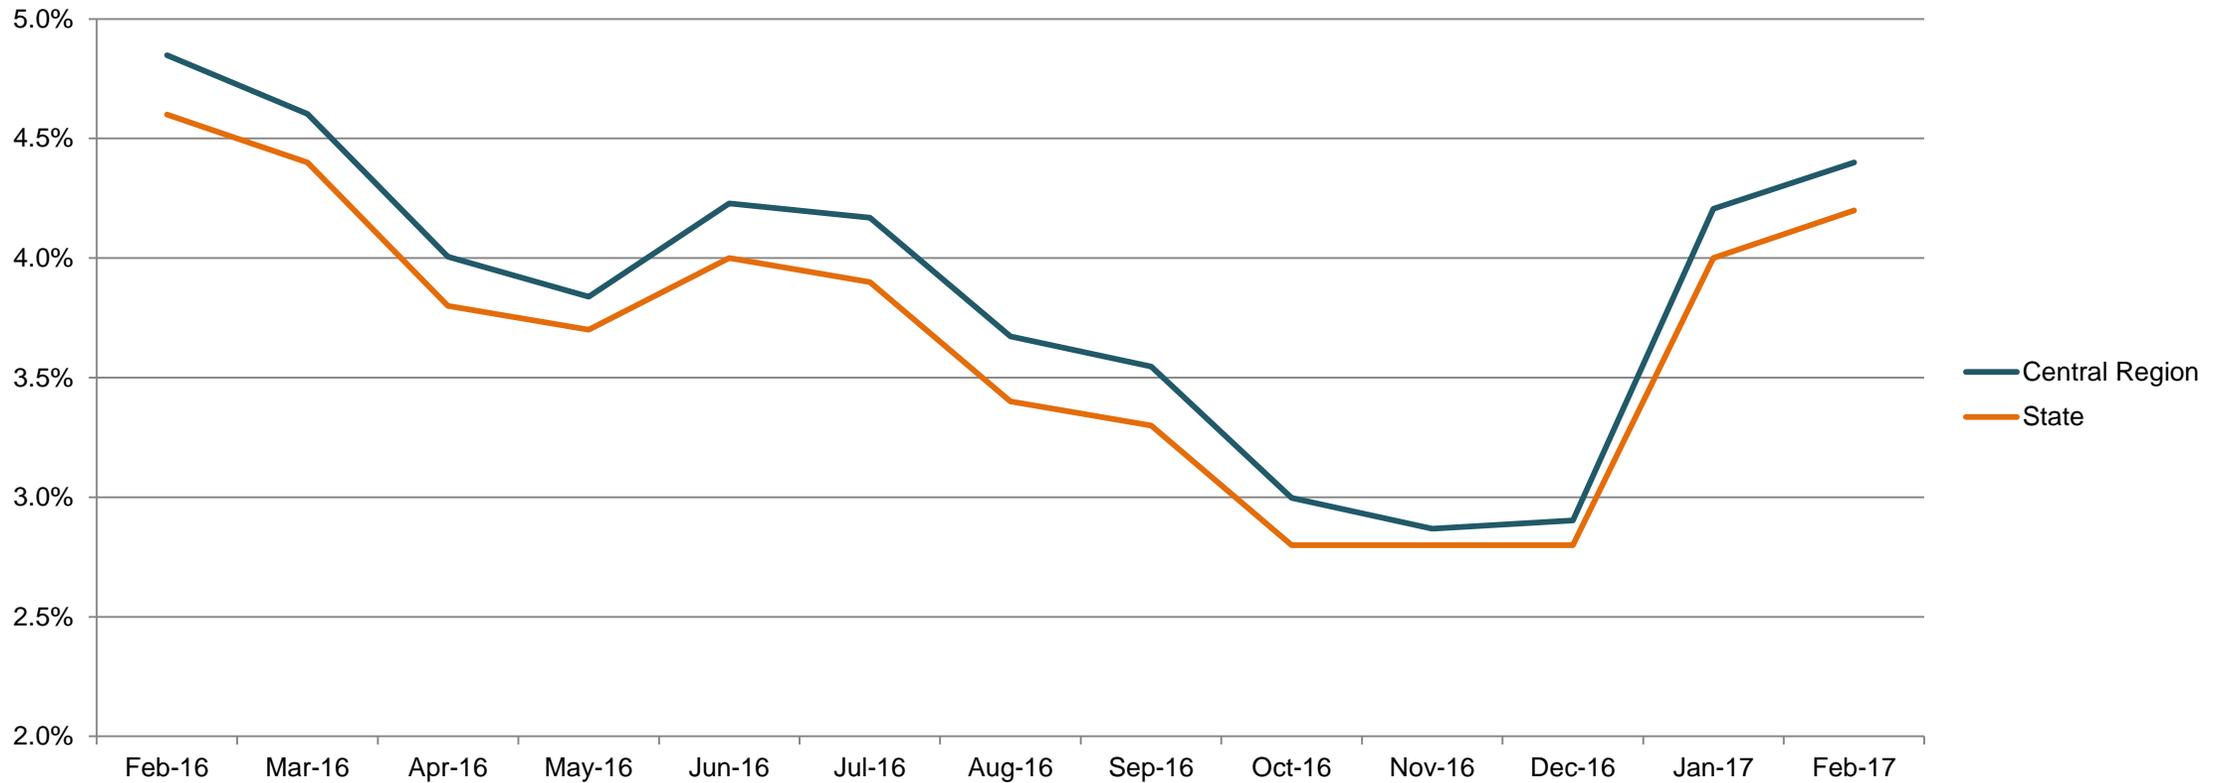

- Employers in our region have difficulty filling available openings.
- This **team** – representing education, workforce development, and economic development – is asked to identify skill gaps in priority sectors and occupations in your region and prioritize solutions to these skill gap problems.
- We need to understand how occupations and industries stack up against each other given different sets of **criteria**. For example:
 - Which jobs are plentiful, and make up a large share of an industry or employer base?
 - Which jobs pay well, and have a low barrier to entry?
 - Where do employers have a hard time finding skilled workers?
 - Which jobs are critical to an emerging industry in our region?
 - Which jobs are part of a career pathway, allowing workers to graduate from a lower-skill, lower-pay job to a higher-skill, higher-pay job?
- This initial data package and forthcoming data tool demonstrate different sets of criteria to frame your team's conversations around priority sectors and occupations. Remember, this data is a starting point -- we expect that you will start here, and complement and verify this with on the ground information and stakeholder feedback.

LMI Overview and Data Overview

- **Contextual data** will give us background on birds-eye view employment in our region.
- **Industry data** will show us what **employers** in the region look like.
- **Occupation data** shows us what **jobs** people in our region do. People often perform the same jobs at different types of employers and in different industries.
- This data will be organized across several different criteria and begin to guide your consensus and decision-making process.
- The data package will focus on demand data today. The slides will move through a thinking process on how to layer in criteria to see priorities within your region.

Labor Market Overview: Unemployment Rate

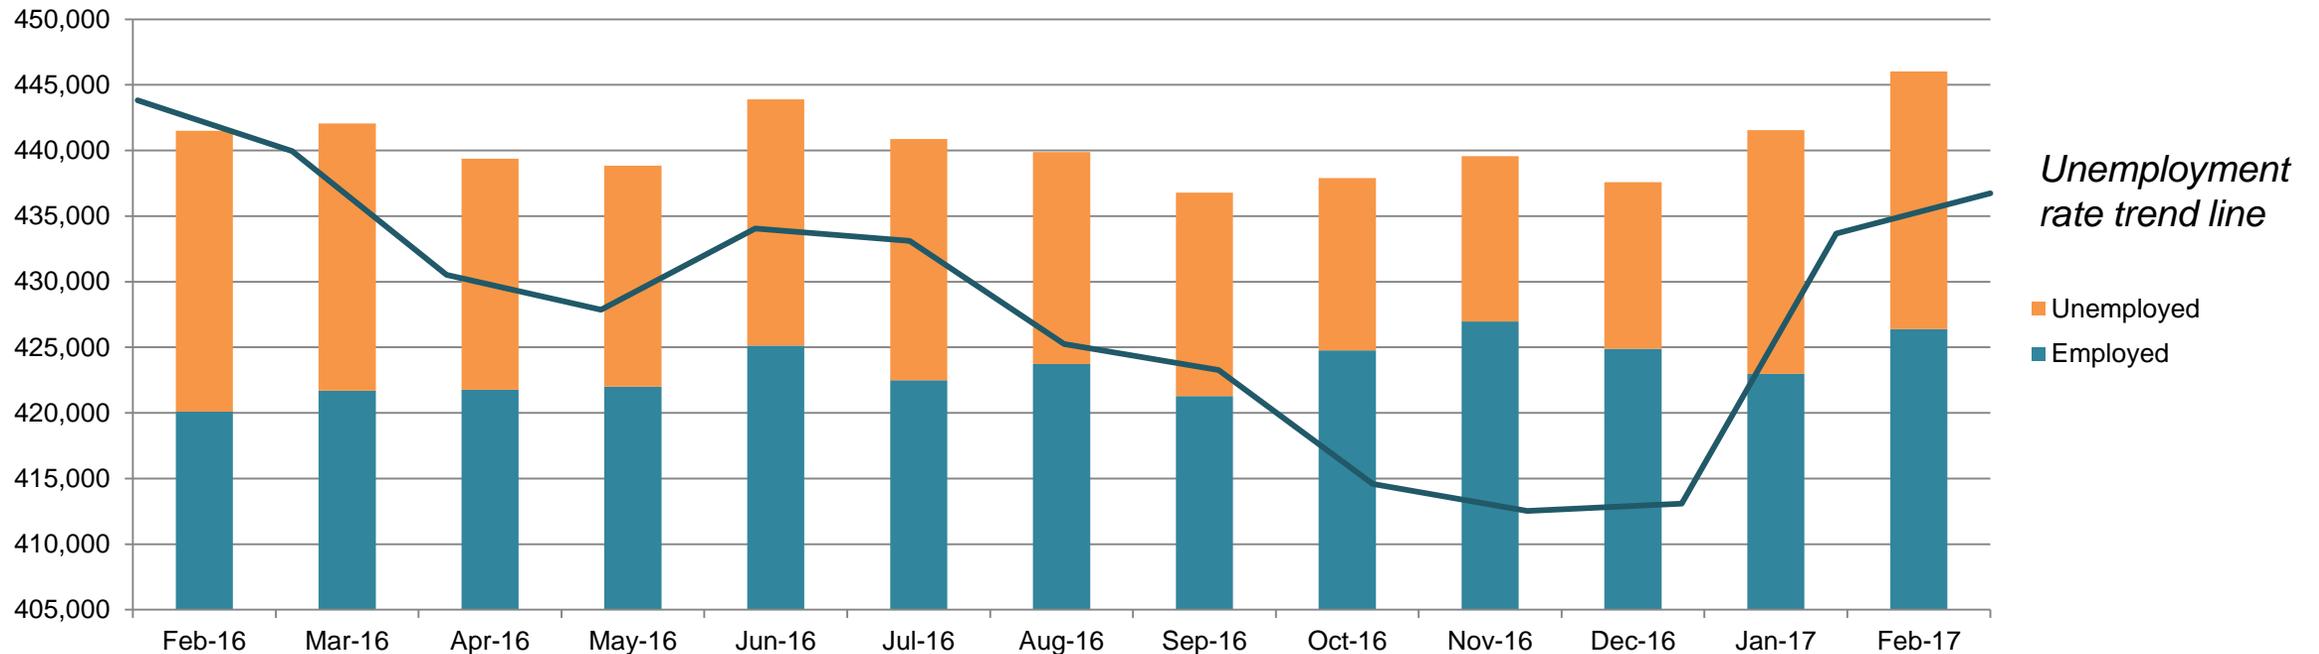

Central MA unemployment trends are generally aligned with MA trends.

Labor Market Overview: Labor Force

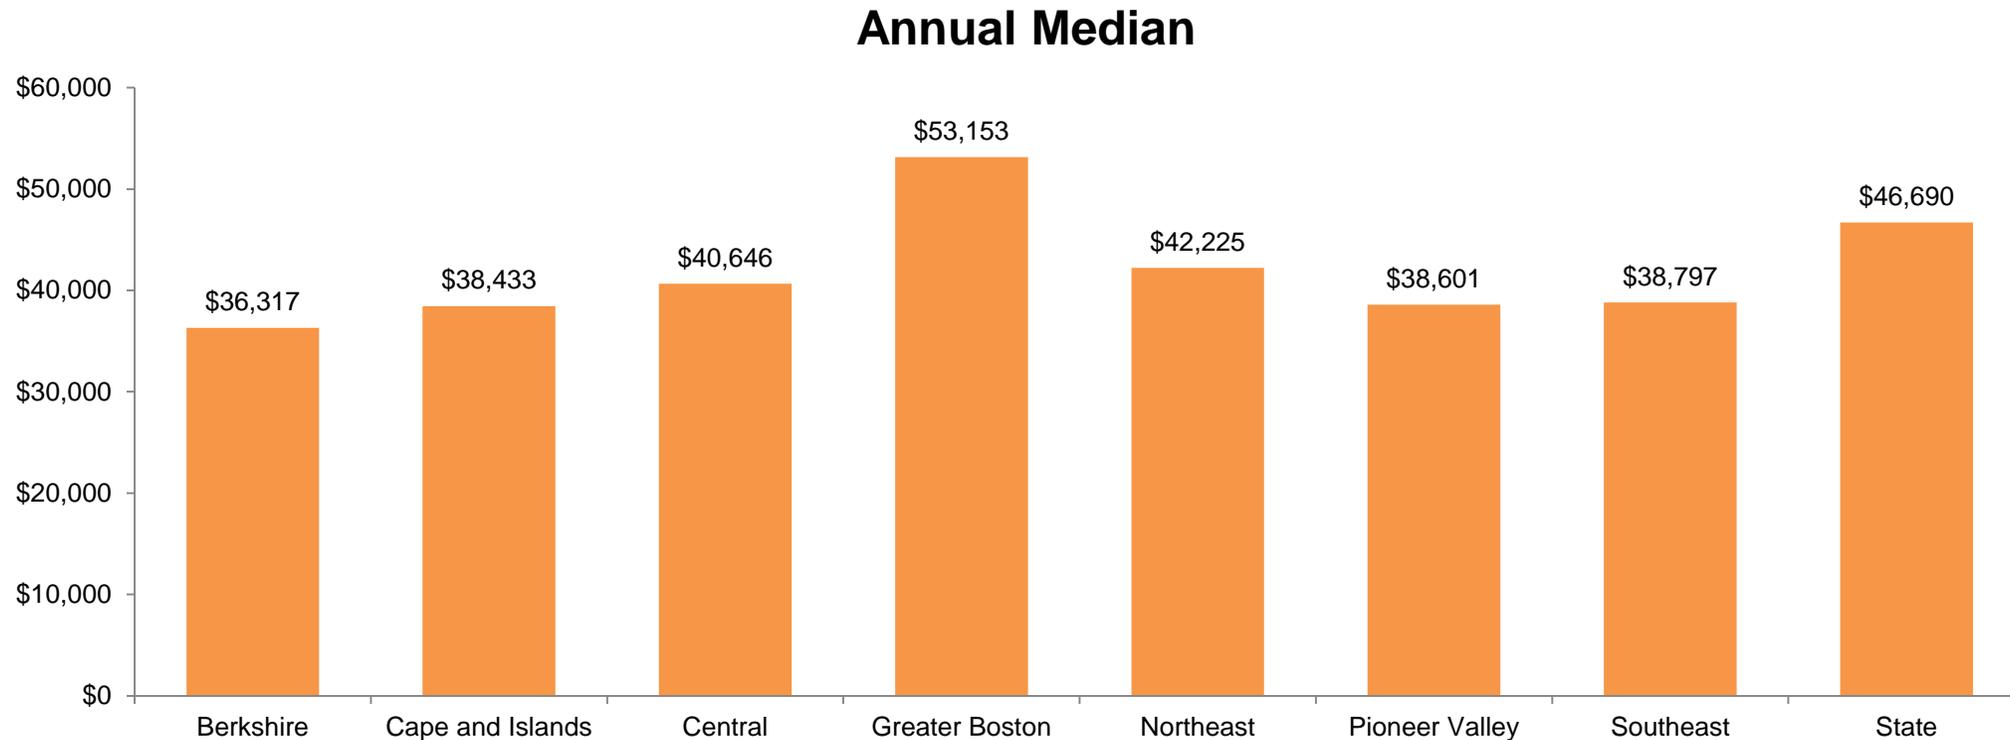

The unemployment rate alone is not the only indicator of employment levels in your region.

Unemployed v. Employed in Labor Force

Median Wage

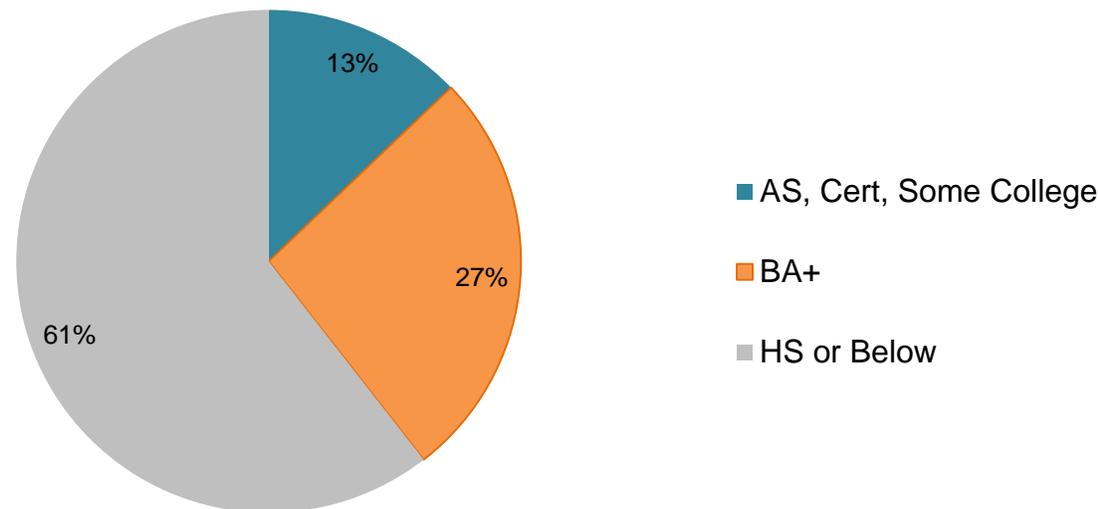

Central MA median wages are third to the Northeast and Greater Boston, and higher than its neighbor to the west (Pioneer Valley).

Educational Requirements for Employment

The majority of Central MA-based occupations across industries require a high school diploma or less. However, educational attainment alone does not imply a skill match.

2017 Projected Employment by Educational Requirement

Total Projected Employment: 346,652

Where Do We Want to Go?

Preliminary Conversations on Criteria

What criteria should we use as a region to set shared priorities for future investment?

How about jobs that:

- Make up a large part of our economy
- With career pathways to higher wage jobs?
- That have low barriers to entry but also good pay?
- Employers find hard to fill?
- What else?

Industry and Occupation Preview

- Goal: a preliminary understanding of where we are
- Two lenses on labor force:
 - Industry
 - Occupation
- Some criteria that we might choose to prioritize:
 - Employment share
 - Demand Index
 - Median wages + employment growth (STAR Ranking)
 - Career Pathways

II. Occupations

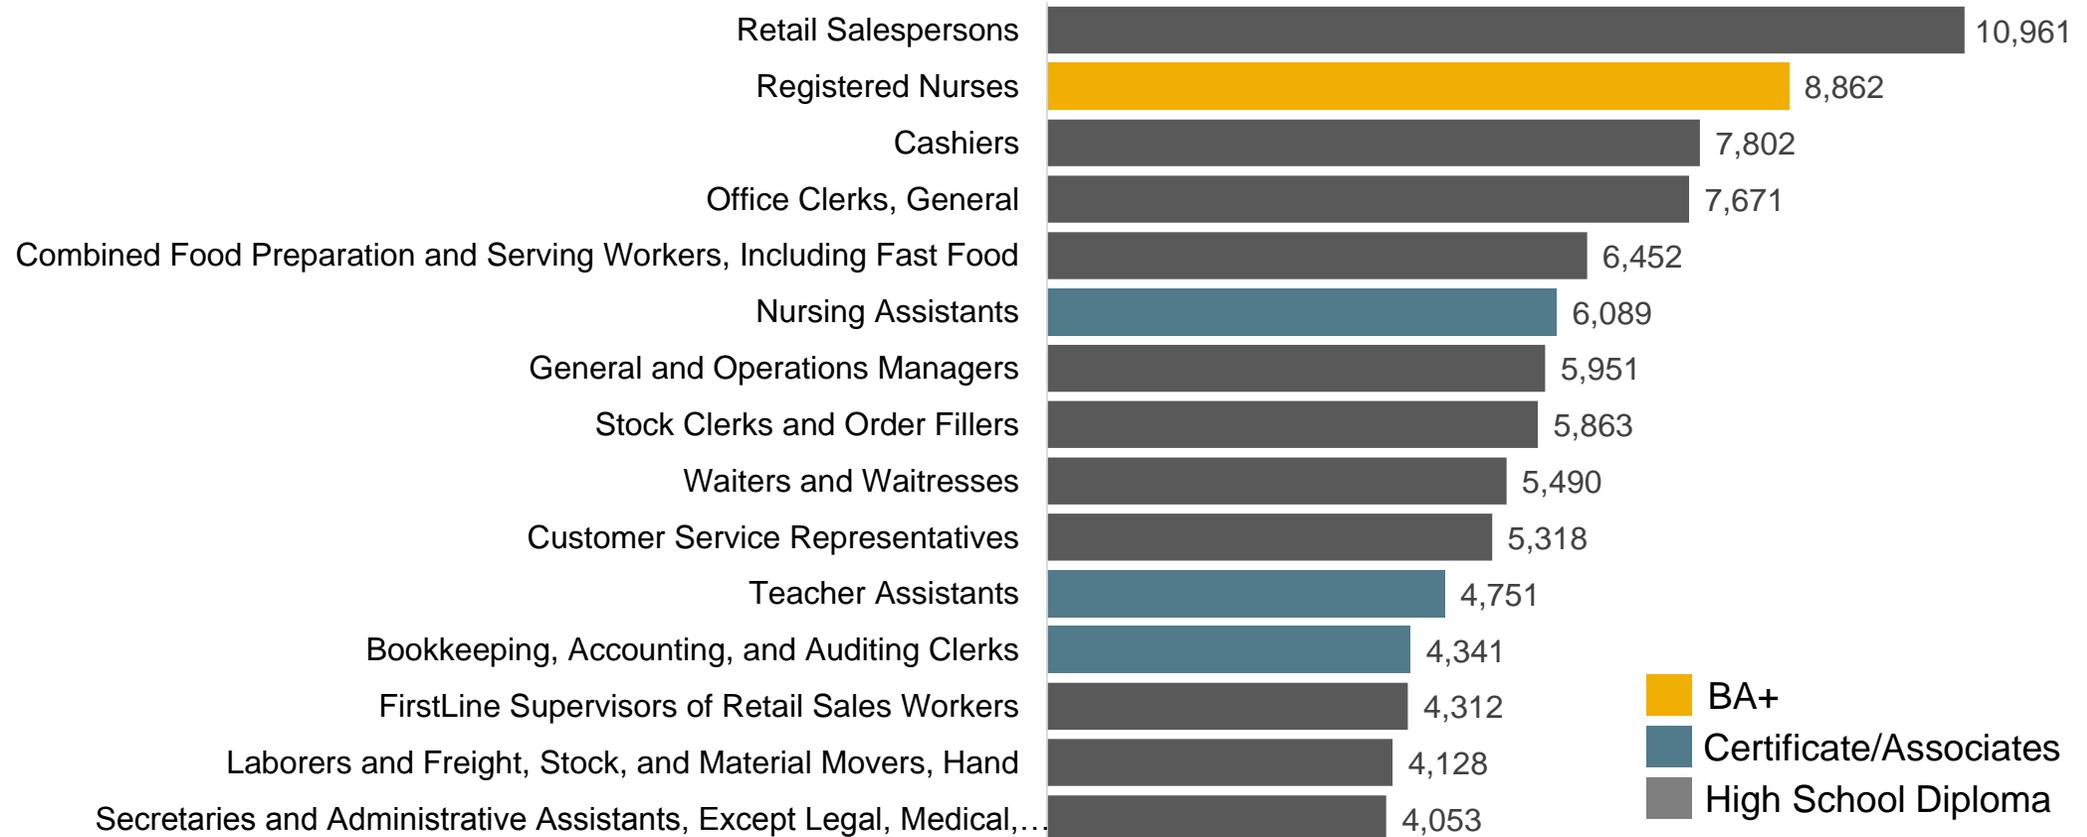

What work are people doing, and what work do employers need people to do?

II.A: Occupations by Share of Employment

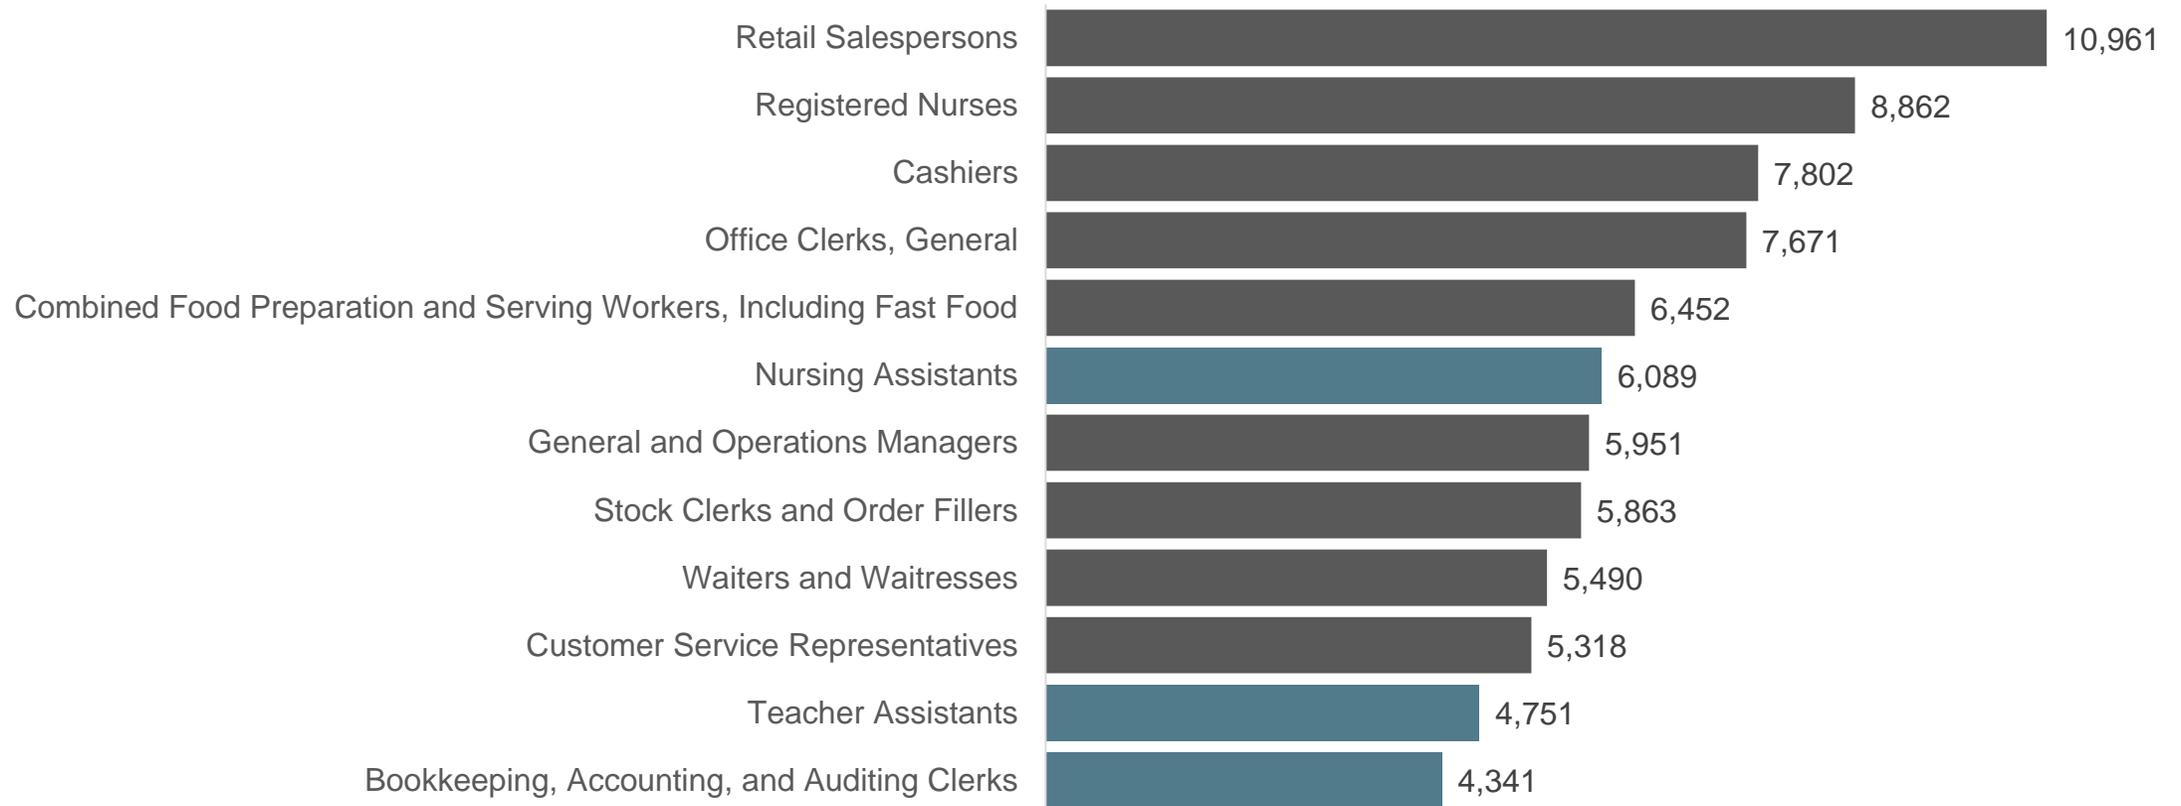

Terminology

Employment Share	Number of workers currently in a specific industry or sector across all employers
Occupation	A job or profession, not specific to an industry, defined by SOC code

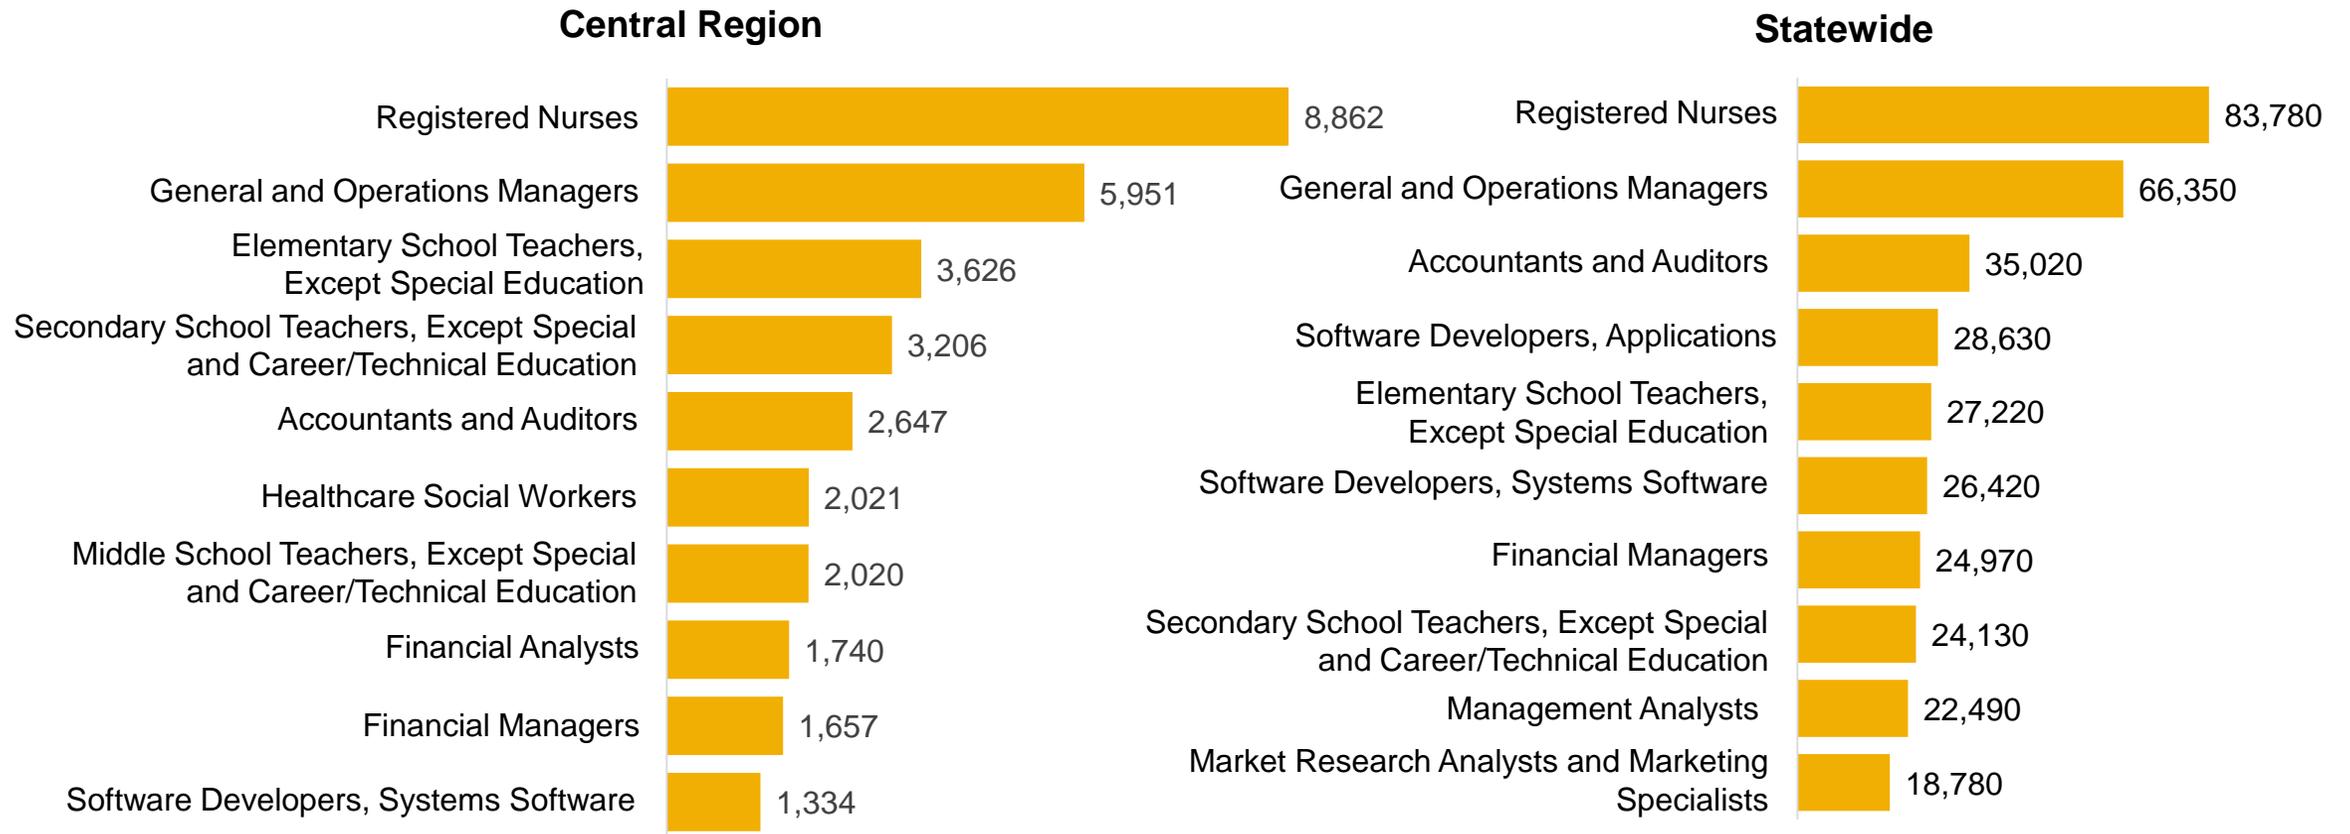

II.A.1: Top 15 Occupations by Share of Employment, 2015

II.A.2: Top 10 Occupations by Employment Share, 2015 Sub-BA

II.A.3: Top 10 Occupation by Employment Share, 2015, BA+

II.B: Occupations by Indexed Employer Demand

Terminology

Employment Projections

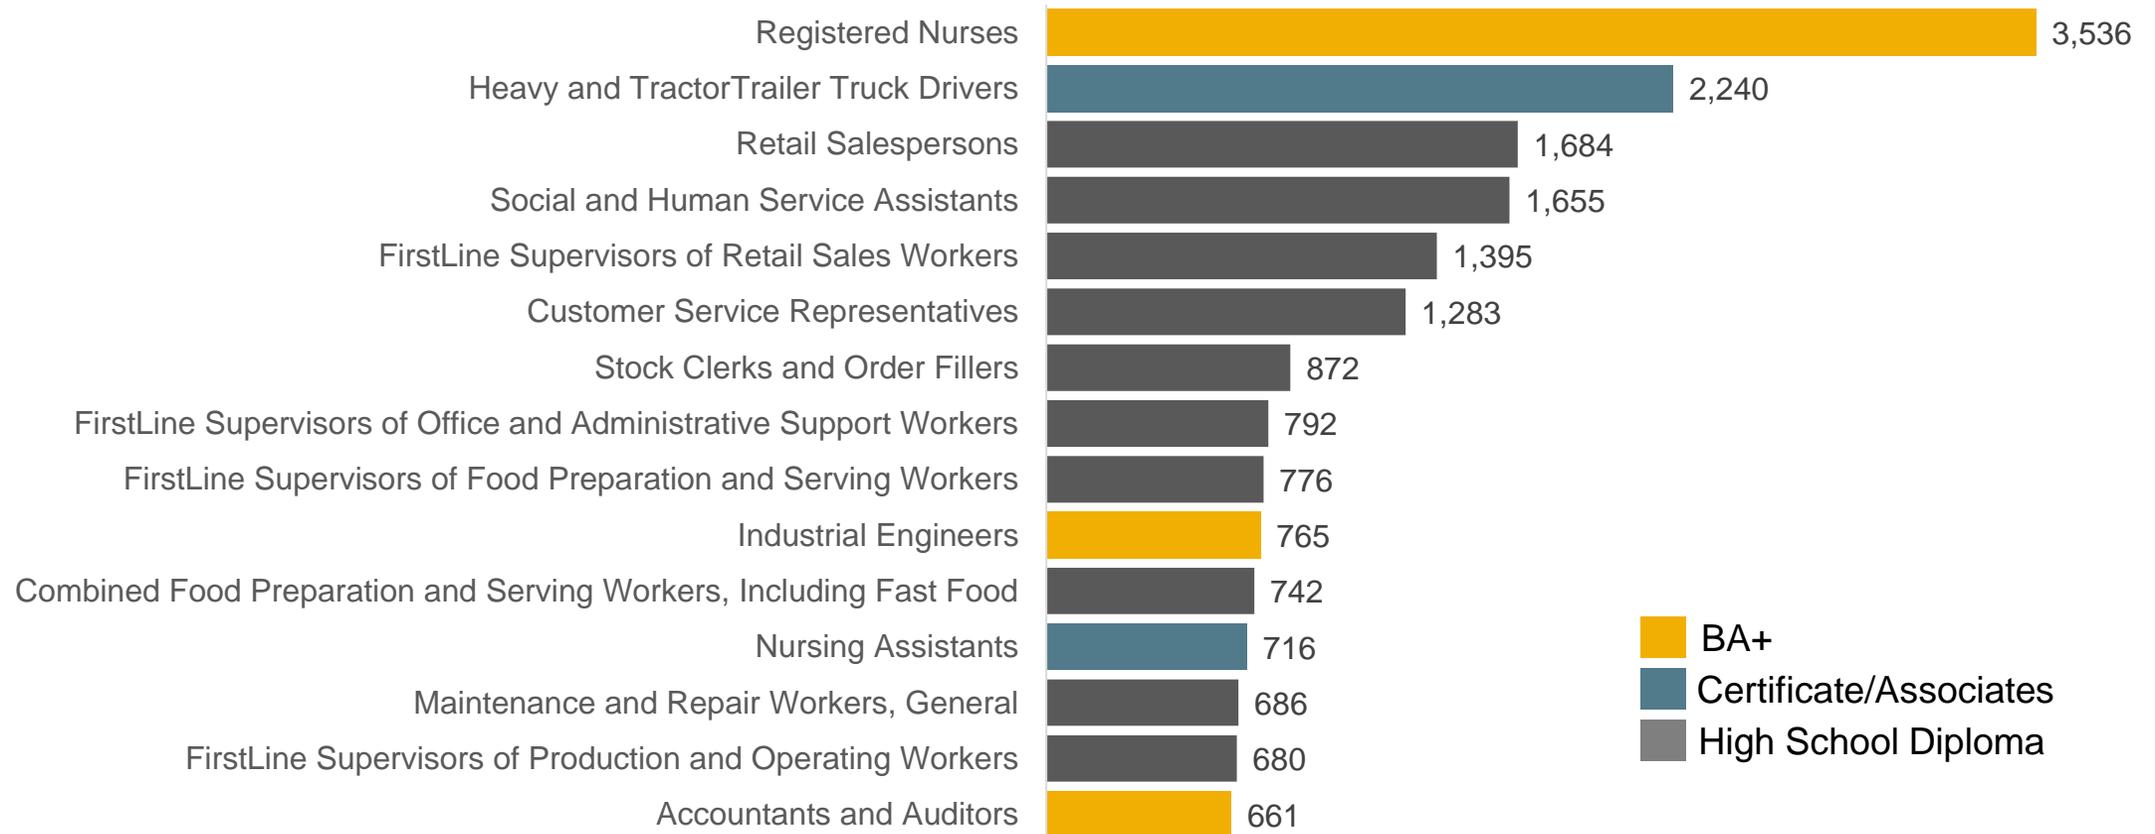

Expected employment in 2017 (short term) and 2024 (long term) for a particular occupation, based on surveyed employers

Weighted Employer Demand

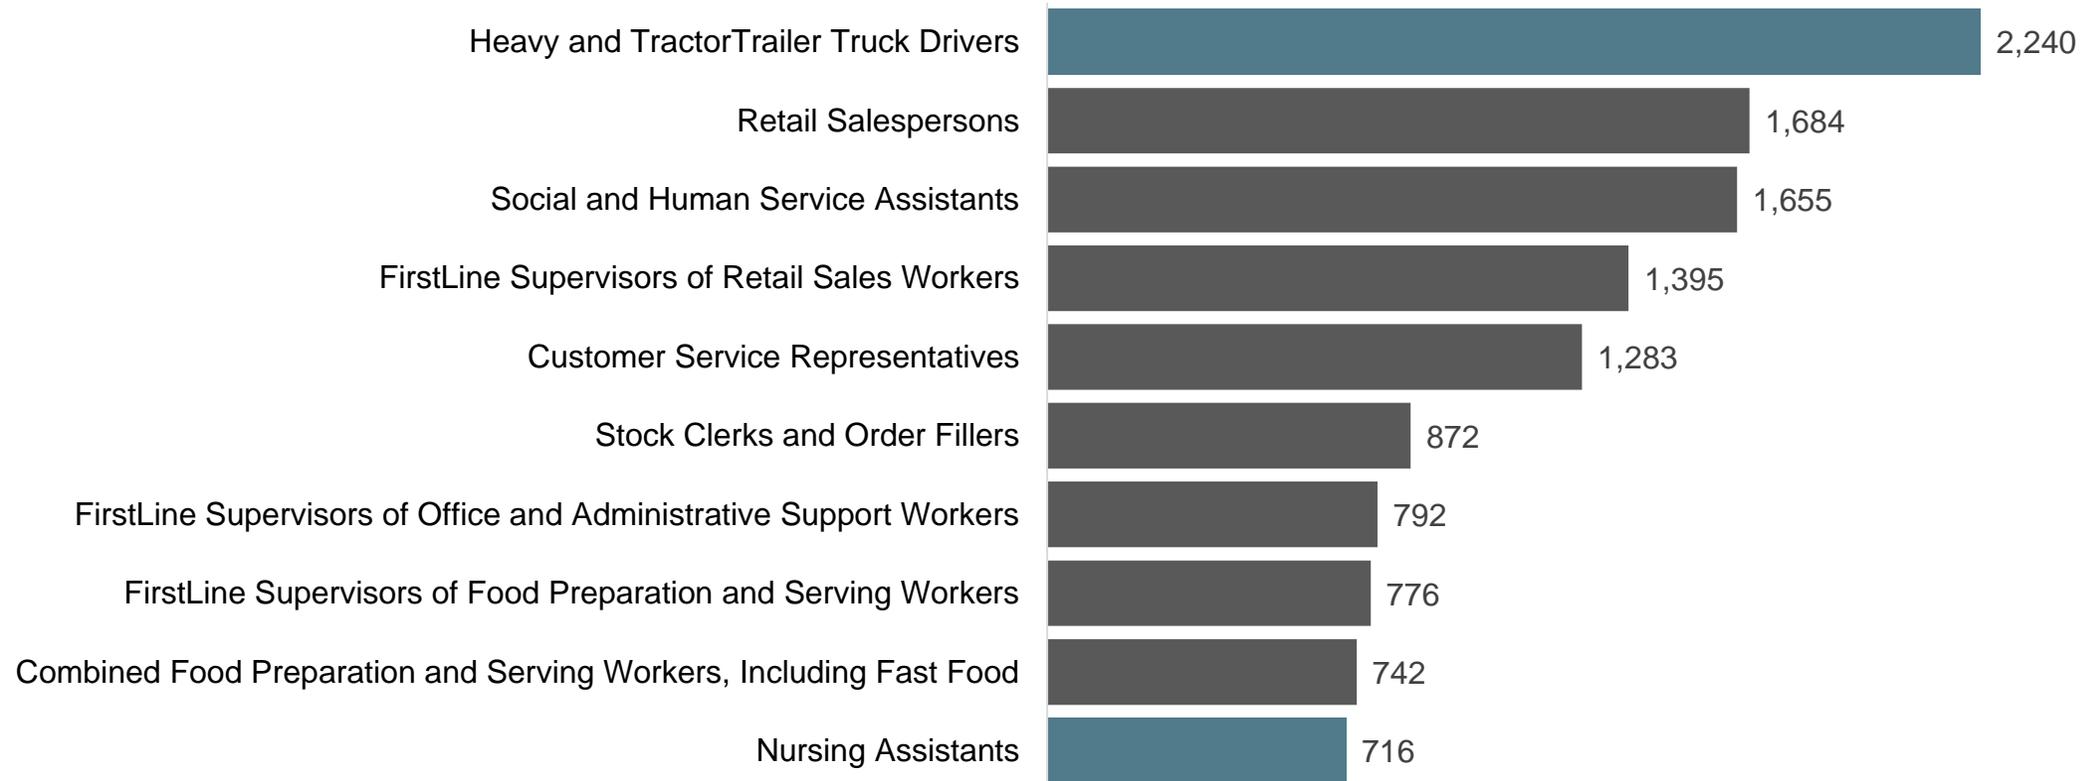

Short term openings from replacement and growth (2017), long term openings from replacement and growth (2024), and advertised online postings, averaged

Note: there are many different ways to measure “employer demand.” The WSC team acknowledges that none are perfect, and thus an average of three different measures seeks to find middle ground.

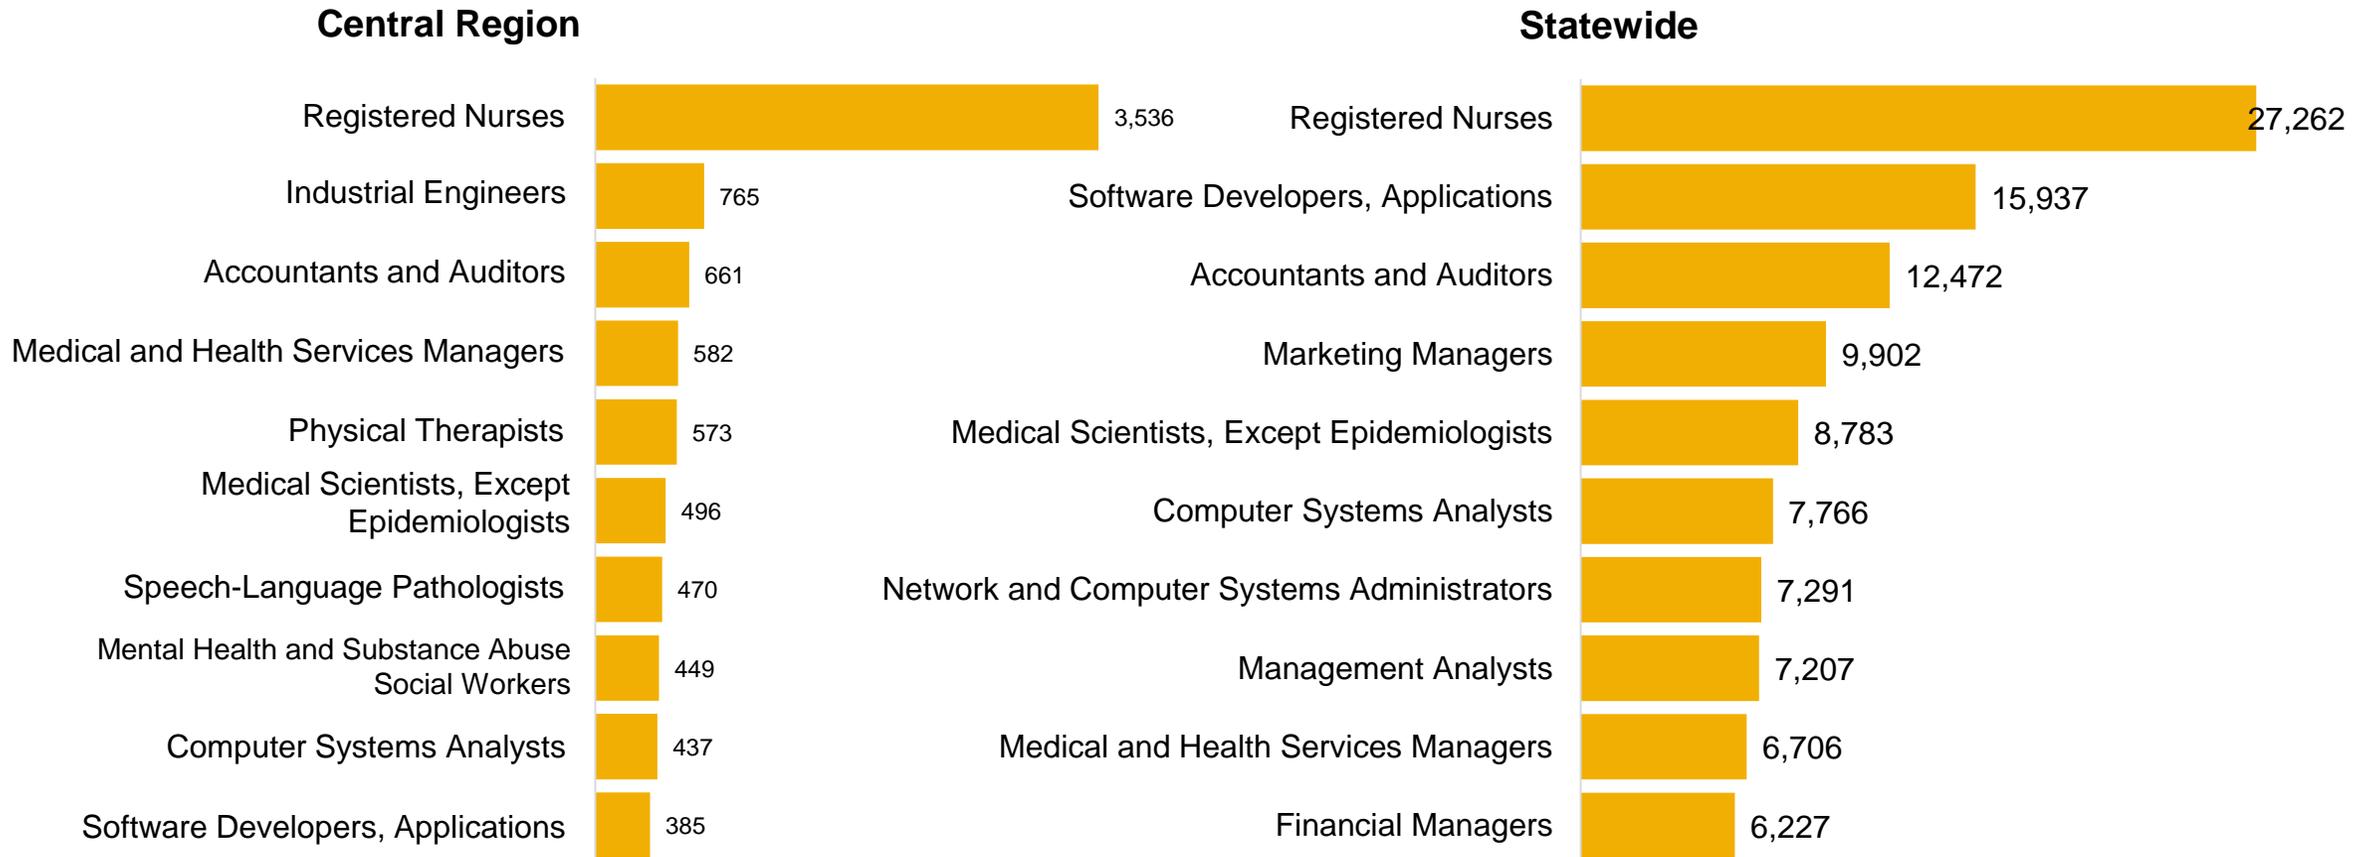

II.C.1 Top 15 Occupations by Indexed Employer Demand, All Education Levels

II.C.2: Top 15 Occupations by Indexed Employer Demand, Sub-BA

II.C.3: Top 15 Occupations Requiring a BA by Indexed Employer Demand

II.C Occupations by Demand Star Ranking

Terminology

Demand Star Ranking

Ranking of highest-demand, highest-wage jobs in Massachusetts, based on short-term employment projections (2017), long-term employment projections (2024), current available openings from Help Wanted Online, and median regional wage.

Ranking developed by State of Louisiana's workforce system and implemented with support of Boston Federal Reserve.

Where Do We Want to Go?

Regional Goals

- 1) What criteria should we use to set priorities?
- 2) What does the employer demand data that we have available today tell us about industries and occupations in my region?
- 3) Given the information we have available, what industries or occupations could we preliminarily prioritize as a team?
- 4) What other information do we need in order to finalize these decisions?

Please discuss in small groups as directed and prepare to report your answers.

Next Steps
