Application Process

Mission Statement

The Department is dedicated to creating, in partnership with others, innovative and genuine opportunities for individuals with intellectual disabilities to participate fully and meaningfully in, and contribute to, their communities as valued members.

Applying for eligibility is a choice and we believe that it is important for applicants to fully understand the criteria for eligibility as well as the type of documentation that is required to enable DDS to make such an important decision. Therefore, included in the new application are the criteria for eligibility and explicit instructions about the necessary documentation.

Another important component is legal authorization to proceed with the process. Applicants must give their written permission so that DDS can proceed with the eligibility process. This does not mean that an applicant cannot get help from a family member, friend or agency. However if the applicant chooses to have someone assist him/her, she/he will also need to authorize that by signing a permission form.

This permission is required if the applicant wants DDS to be able to communicate directly with this person on their behalf. These authorizations are now a vital part of the new application form.

After a complete application has been received by the Regional Eligibility Team, applicants can expect to be contacted by a Regional Eligibility Team member to schedule a face-to-face meeting.
