### MassDEP Updated Reporting Year (2023) Guidance Documents

The following MassDEP TURA guidance documents have been updated:

[Toxics Use Reduction Reporting Instructions](#) – updated to reflect that MassDEP now accepts TURA reporting only online, through eDEP

[Toxics Use Reduction Reporting Instructions Appendices](#) - updated Appendix A to include 2022 NAICS codes; updated PFAS guidance starting on page 63 in Appendix B, to indicate that PFAS added to TRI in 2021 and 2022 are now to be reported under TURA individually, rather than in the TURA PFAS NOL category.

[Complete List of TURA Chemicals](#) – updated to include recently added TRI PFAS chemicals

[Toxics Use Reduction Plan and Plan Update Guidance](#) – was updated to be more user-friendly

## Effective Reporting Year (2024) for reports due July 1, 2025

### Elimination of the *de minimis* Exemption for TRI PFAS Chemicals

Effective Reporting Year 2024 for reports due July 1, 2025, TRI PFAS chemicals are **no longer** eligible for the *de minimis* exemption, because EPA has designated them chemicals of special concern.

#### 310 CMR 50.20 (7):

*With respect to toxic substances present as a component of a mixture or trade name product, toxics users shall consider the quantity of the toxic substance if the toxics user knows that the toxic substance is present as a component of the mixture or a trade name product. In determining the amount or quantity of a toxic substance manufactured, processed, or otherwise used at a facility, the toxics user shall not consider the amount of the toxic substance if it is present in a mixture in concentrations equal to or below the de minimis concentration for that toxic substance set forth in 40 CFR Part 372.38(a); provided, however, that this de minimis exemption shall not apply for any toxic or hazardous substance specified as a chemical of special concern in 40 CFR 372.28.*
