

CHANGES TO TURA REPORTING FOR REPORTING YEAR 2025 AS OF APRIL 2026

MassDEP Reporting 2025 Spring Reporting Training

MassDEP will be offering four in-person TURA Reporting Year 2025 spring reporting trainings on the following dates. Register for a session using the [Registration Form](#).

- **May 12, 2026**, from 9:00am to 1:30pm at **Parker River National Wildlife Refuge Auditorium** (6 Plum Island Tpke, Newburyport, MA)
- **May 14, 2026**, from 9:15am to 1:45pm at **MassDEP Worcester Office** (SuAsCo Conference Room, 8 New Bond St, Worcester, MA)
- **May 19, 2026**, from 9:00am to 1:30pm at **Greenfield Community College** (Stinchfield Lecture Hall N335, Main Campus, One College Dr, Greenfield, MA)
- **May 28, 2026**, from 8:30am to 1:00pm at **UMass Dartmouth**
New Location Charlton College of Business (CCB) 149, 285 Old Westport Rd, North Dartmouth, MA 02747)

MassDEP Updated Reporting Year (2025) Guidance Documents

TURA guidance documents have been updated to meet MassDEP accessibility standards.

The following MassDEP TURA guidance documents have been updated:

<https://www.mass.gov/doc/tura-reporting-appendices-0> - updated PFAS guidance beginning on page 130 in Appendix B, to indicate that seven PFAS were added to TRI in 2024 are now to be reported under TURA individually, rather than in the TURA PFAS NOL category.

[Complete List of TURA Chemicals](#) - updated to include recently added TRI PFAS and other TRI chemicals.

Effective Reporting Year 2025, for Reports Due July 1, 2026:

De Minimis for Anthracene Has Been Changed

Effective Reporting Year 2025 for reports due July 1, 2026, the TRI *de minimis* level for Anthracene (CAS # 120-12-7) has been changed from 1.0% to 0.1%, since this chemical was classified as a carcinogen by the International Agency for Research on Cancer.

New TURA Reportable Chemicals for RY2025 (reports due July 1, 2026)

Seven new PFAS were added to the Toxics Release Inventory (TRI) list

[<https://www.epa.gov/toxics-release-inventory-tri-program/addition-certain-pfas-tri-national-defense-authorization-act>], with a 100-pound reporting threshold, for TRI reporting year 2024 (for TRI reports due July 1, 2025). The TURA Administrative Council added these new PFAS to the TURA chemical list effective reporting year **2025 (for TURA reports due July 1, 2026)**. Please reference the TURA PFAS Guidance in the TURA

Reporting Instructions Appendices <https://www.mass.gov/doc/tura-reporting-appendices-0>].

All seven of these chemicals are PFAS with a 100-pound reporting threshold. These chemicals are reportable individually and are listed in Table 1 (beginning on page 132) of the TURA Reporting Instructions Appendices.

PFAS that are not TRI reportable should continue to be reported under the TURA Certain PFAS NOL category. Please refer to the TURA PFAS Guidance beginning on page 130 of the TURA Reporting Instructions Appendices [<https://www.mass.gov/doc/tura-reporting-appendices-0>].

CAS #	Chemical Name	Threshold (Lbs)
307-24-4	Perfluorohexanoic acid	100
422-64-0	Perfluoropropanoic acid	100
2923-26-4	Sodium perfluorohexanoate	100
21615-47-4	Ammonium perfluorohexanoate	100
82113-65-3	1,1,1-Trifluoro-N-[(trifluoromethyl)sulfonyl]methanesulfonamide	100
90076-65-6	Lithium bis[(trifluoromethyl)sulfonyl]azanide	100
2816091-53-7	Betaines, dimethyl(.gamma.-.omega.-perfluoro-.gamma.-hydro-C8-18-alkyl)	100

Effective Reporting Year 2026, for Reports Due July 1, 2027:

Nine new PFAS were added to the Toxics Release Inventory (TRI) list [<https://www.epa.gov/toxics-release-inventory-tri-program/addition-certain-pfas-tri-national-defense-authorization-act>], with a 100-pound reporting threshold, for TRI reporting year 2025 (for TRI reports due July 1, 2026).

These nine PFAS are shown below. These chemicals have been added to TURA, effective Reporting Year 2026, for reports due July 1, 2027. Until then, **they remain reportable under the TURA Certain PFAS NOL Category for reporting year 2025**. Please refer to the TURA PFAS Guidance beginning on page 130 of the TURA Reporting Instructions Appendices [<https://www.mass.gov/doc/tura-reporting-appendices-0>].

CAS #	Chemical Name
377-73-1	Perfluoro-3-methoxypropanoic acid
3108-42-7	Ammonium perfluorodecanoate
3830-45-3	Sodium perfluorodecanoate
27619-94-9	6:2 Fluorotelomer sulfonate sodium salt
27619-97-2	6:2 Fluorotelomer sulfonate acid
59587-38-1	6:2 Fluorotelomer sulfonate potassium salt
59587-39-2	6:2 Fluorotelomer sulfonate ammonium salt
425670-75-3	6:2 Fluorotelomer sulfonate anion
3030471-22-5	Acetic acid, [(gamma.-.omega.-perfluoro-C8-10-alkyl)thio]derivs., Bu esters
