

# What to Expect from the COVID-19 Swab Test

Call up the doctor to set up an appointment

Go to a doctor's office, hospital, or drive through testing center

Wear a mask to protect others from germs

Be ready for the doctor, who wears a mask, face shield, gloves, and gown

Blow your nose

Tip your head back

Allow the doctor to insert swab into your nose. It does not hurt but might feel uncomfortable

Breathe and think happy thoughts for 10 seconds

Doctor will remove the swab and send to a lab

Wait for 2-3 days for results
