

What to Expect from the COVID-19 Swab Test

-  Fallon Ambulance will arrive at our house
-  Listen for a knock at your door
-  Be ready for the healthcare worker, who wears a mask, face shield, gloves, and gown
-  Blow your nose
-  Tip your head back
-  Allow the healthcare worker to insert swab into your nose. It does not hurt but might feel uncomfortable
-  Breathe and think happy thoughts for 10 seconds
-  Healthcare worker will remove the swab and send to a lab
-  Be patient while everybody in the house is tested
-  Wait for 2-3 days for results
