Checklist for Implementing Small Projects

Use this task analysis and checklist when the estimated construction cost (ECC) is below \$50,000 and the estimated design fee is below \$10,000. This checklist mirrors the tasks and topics outlined on pages 4 and 5 of the DHCD Small Projects Guide. DHCD recommends the LHA Client and A/E Designer discuss and identify the party responsible to fulfill all the tasks noted below. For projects with an ECC between \$50,000 and \$100,000 the tasks noted below are included in a detailed Scope of Services document prepared by DHCD's Architect and Engineer Services Unit (AESU).

A/E	LHA	Organizing a Project
	-	Consult DHCD's Small Projects Guide for recommended practices and procedures (DHCD website)
	-	Consult the LHA's Capital Improvement Plan (CIP) and prepare a rough description of the project
	•	Establish a scope, budget, and schedule for the project
	-	Collect as-built drawings, photographs, concept sketches and other information pertinent to the project
	•	Inquire with AHJ if a building permit is required to perform the scope of work
	•	Inquire with AHJ if an affidavit for controlled construction is required to be executed upon completion
	-	Assess if the project requires an Architect/Engineer by code, or by reasonable business practice
	•	Schedule initial phone consultation and/or meeting between Designer and LHA
A/E	LHA	Planning & Scoping: Pre-Design
		Tour the work area and observe existing conditions, restrictions, review scope of work
		Prepare a detailed cost estimate of the work
		Determine applicable bidding procedures per MGL (see Guide)
		If estimated design fee exceeds \$10,000 – stop, call the DHCD project manager*
		If estimated construction cost exceeds \$50,000 – stop, call the DHCD project manager**
		Prepare LHA/Designer agreement by editing DHCD's template Scope of Services (DHCD website)
		Execute LHA/Designer agreement
A/E	LHA	Design and Documentation Phase: Bid Package
A/E	LHA □	Design and Documentation Phase: Bid Package Conduct a detailed survey of existing conditions at the work area
		Conduct a detailed survey of existing conditions at the work area
		Conduct a detailed survey of existing conditions at the work area Coordinate, schedule, monitor, record, and evaluate the results of any destructive testing
		Conduct a detailed survey of existing conditions at the work area Coordinate, schedule, monitor, record, and evaluate the results of any destructive testing Prepare written paragraph describing the scope of construction work to be accomplished
		Conduct a detailed survey of existing conditions at the work area Coordinate, schedule, monitor, record, and evaluate the results of any destructive testing Prepare written paragraph describing the scope of construction work to be accomplished Check for DHCD Template Specifications for possible use (AESU Jim McCurdy of Joe DiMare)
		Conduct a detailed survey of existing conditions at the work area Coordinate, schedule, monitor, record, and evaluate the results of any destructive testing Prepare written paragraph describing the scope of construction work to be accomplished Check for DHCD Template Specifications for possible use (AESU Jim McCurdy of Joe DiMare) Check for DHCD Template Bid Packages for possible use (DHCD website)
		Conduct a detailed survey of existing conditions at the work area Coordinate, schedule, monitor, record, and evaluate the results of any destructive testing Prepare written paragraph describing the scope of construction work to be accomplished Check for DHCD Template Specifications for possible use (AESU Jim McCurdy of Joe DiMare) Check for DHCD Template Bid Packages for possible use (DHCD website) Prepare Front End for ECC of \$0 - \$10,000 (DHCD website)
		Conduct a detailed survey of existing conditions at the work area Coordinate, schedule, monitor, record, and evaluate the results of any destructive testing Prepare written paragraph describing the scope of construction work to be accomplished Check for DHCD Template Specifications for possible use (AESU Jim McCurdy of Joe DiMare) Check for DHCD Template Bid Packages for possible use (DHCD website) Prepare Front End for ECC of \$0 - \$10,000 (DHCD website) Prepare Front End for ECC of \$10,000 - \$50,000 (DHCD website)
		Conduct a detailed survey of existing conditions at the work area Coordinate, schedule, monitor, record, and evaluate the results of any destructive testing Prepare written paragraph describing the scope of construction work to be accomplished Check for DHCD Template Specifications for possible use (AESU Jim McCurdy of Joe DiMare) Check for DHCD Template Bid Packages for possible use (DHCD website) Prepare Front End for ECC of \$0 - \$10,000 (DHCD website) Prepare Front End for ECC of \$10,000 - \$50,000 (DHCD website) Prepare technical drawings and specifications for construction
		Conduct a detailed survey of existing conditions at the work area Coordinate, schedule, monitor, record, and evaluate the results of any destructive testing Prepare written paragraph describing the scope of construction work to be accomplished Check for DHCD Template Specifications for possible use (AESU Jim McCurdy of Joe DiMare) Check for DHCD Template Bid Packages for possible use (DHCD website) Prepare Front End for ECC of \$0 - \$10,000 (DHCD website) Prepare Front End for ECC of \$10,000 - \$50,000 (DHCD website) Prepare technical drawings and specifications for construction Ensure conformance to DHCD Design & Construction Guidelines & Standards (DHCD website)
		Conduct a detailed survey of existing conditions at the work area Coordinate, schedule, monitor, record, and evaluate the results of any destructive testing Prepare written paragraph describing the scope of construction work to be accomplished Check for DHCD Template Specifications for possible use (AESU Jim McCurdy of Joe DiMare) Check for DHCD Template Bid Packages for possible use (DHCD website) Prepare Front End for ECC of \$0 - \$10,000 (DHCD website) Prepare Front End for ECC of \$10,000 - \$50,000 (DHCD website) Prepare technical drawings and specifications for construction Ensure conformance to DHCD Design & Construction Guidelines & Standards (DHCD website)
		Conduct a detailed survey of existing conditions at the work area Coordinate, schedule, monitor, record, and evaluate the results of any destructive testing Prepare written paragraph describing the scope of construction work to be accomplished Check for DHCD Template Specifications for possible use (AESU Jim McCurdy of Joe DiMare) Check for DHCD Template Bid Packages for possible use (DHCD website) Prepare Front End for ECC of \$0 - \$10,000 (DHCD website) Prepare Front End for ECC of \$10,000 - \$50,000 (DHCD website) Prepare technical drawings and specifications for construction Ensure conformance to DHCD Design & Construction Guidelines & Standards (DHCD website) Finalize the project's estimated construction cost (ECC) Apply for, and obtain prevailing wage rates for 90 day limited period

A/E	LHA	Construction Contract Procurement: Bid Process
		For ECC less than \$10,000 – solicit quotes, use sound business practices
		For ECC \$10,000 to \$50,000 – public notification required for quotes (see Guide)
		Conduct pre-bid site visit, collect bidder's questions into one document
		Respond to questions, compile answers, and distribute answers to all identified bidders by Addendum
		Receive construction quotes from interested bidders
		Evaluate quotes
		If low quote exceeds bidding threshold above, stop - contact DHCD project manager
		If low quote below bidding threshold, continue to review phase
A/E	LHA	Bid Review and Contract Award Phase
		Check references of the contractor with low quote
		Check and verify that contractor is not debarred by state or federal government
		Seek and obtain an LHA Board vote within 30 days from receipt of quotes
		Prepare Low Bid Approval Letter on LHA letterhead and provide to contractor (see Guide)
		Obtain contractor's Certificate of Insurance (DHCD website)
		Prepare DHCD Owner/Contractor Agreement, construction valued \$0 - \$10,000 (DHCD website)
		Prepare DHCD Owner/Contractor Agreement, construction valued \$10,000 - \$50,000 (DHCD website)
		Prepare DHCD Payment and Performance Bond when ECC exceeds \$25,000
		LHA and contractor execute construction contract
		Archive Bid Documents at BiddocsOnline
A/E	LHA	Construction and Close-Out Phase
•		
		Schedule a pre-construction meeting
		Schedule a pre-construction meeting
		Schedule a pre-construction meeting Lead and conduct pre-construction conference
		Schedule a pre-construction meeting Lead and conduct pre-construction conference Prepare and issue to contractor a Notice to Proceed (NTP) on LHA letterhead (see Guide)
		Schedule a pre-construction meeting Lead and conduct pre-construction conference Prepare and issue to contractor a Notice to Proceed (NTP) on LHA letterhead (see Guide) Monitor contractor to ensure contractor obtains the Building Permit(s)
		Schedule a pre-construction meeting Lead and conduct pre-construction conference Prepare and issue to contractor a Notice to Proceed (NTP) on LHA letterhead (see Guide) Monitor contractor to ensure contractor obtains the Building Permit(s) Ensure work area is available to contractor for times specified in the scope of work
		Schedule a pre-construction meeting Lead and conduct pre-construction conference Prepare and issue to contractor a Notice to Proceed (NTP) on LHA letterhead (see Guide) Monitor contractor to ensure contractor obtains the Building Permit(s) Ensure work area is available to contractor for times specified in the scope of work Provide on-site oversight of construction activities
		Schedule a pre-construction meeting Lead and conduct pre-construction conference Prepare and issue to contractor a Notice to Proceed (NTP) on LHA letterhead (see Guide) Monitor contractor to ensure contractor obtains the Building Permit(s) Ensure work area is available to contractor for times specified in the scope of work Provide on-site oversight of construction activities Conduct construction meetings on regular intervals
		Schedule a pre-construction meeting Lead and conduct pre-construction conference Prepare and issue to contractor a Notice to Proceed (NTP) on LHA letterhead (see Guide) Monitor contractor to ensure contractor obtains the Building Permit(s) Ensure work area is available to contractor for times specified in the scope of work Provide on-site oversight of construction activities Conduct construction meetings on regular intervals Prepare and issue Requests for Information (RFI)
		Schedule a pre-construction meeting Lead and conduct pre-construction conference Prepare and issue to contractor a Notice to Proceed (NTP) on LHA letterhead (see Guide) Monitor contractor to ensure contractor obtains the Building Permit(s) Ensure work area is available to contractor for times specified in the scope of work Provide on-site oversight of construction activities Conduct construction meetings on regular intervals Prepare and issue Requests for Information (RFI) Review and approve contractor's requisitions for payment
		Schedule a pre-construction meeting Lead and conduct pre-construction conference Prepare and issue to contractor a Notice to Proceed (NTP) on LHA letterhead (see Guide) Monitor contractor to ensure contractor obtains the Building Permit(s) Ensure work area is available to contractor for times specified in the scope of work Provide on-site oversight of construction activities Conduct construction meetings on regular intervals Prepare and issue Requests for Information (RFI) Review and approve contractor's requisitions for payment Approve technical submittals and samples

*Note: Projects with estimated design fees greater than \$10,000 = DHCD's House Doctor Program

****Note:** Projects with estimated construction cost greater than \$50,000 = DHCD oversight, including preparation of the Scope of Services agreement, design review at key intervals in the process, and coordination with DHCD's assigned project manager.
