SECTION 2.2---TERM: NON-EXCLUSIVITY

This non-exclusive Renewal License shall commence on October 1, 2014, provided that the City of North Adams, Towns of Adams and Clarksburg have approved similar renewal licenses to Licensee by that date. If all those Municipalities have not done so by that date, the term of this License shall commence on the first day of the month following approval by all three Municipalities. The term of this Renewal License shall terminate on September 30, 2024.

SECTION 2.3--- RENEWAL

(a) In accordance with the provisions of federal law, M.G.L. c. 166A, §13 and applicable regulations, this Renewal License shall be subject to additional renewals for the periods not to exceed ten (10) years or such other periods as allowed by law.

(b) In accordance with applicable law, any such renewal or renewals shall be upon mutual written agreement by Licensee and the Issuing Authority and shall contain such terms as Licensee and the Issuing Authority may then agree.

SECTION 2.4---RESERVATION OF AUTHORITY

Nothing in this Renewal License shall: (a) abrogate the right of the Issuing Authority to perform any public works or public improvements of any description; (b) be construed as a waiver of any codes or bylaws/regulations of general applicability and not specific to the Cable Television System, Licensee, or this Renewal License; or (c) be construed as a waiver or release of the rights of the Issuing Authority in and to the Public Ways.

SECTION 2.5---NON-EXCLUSIVITY OF RENEWAL LICENSE

(a) This Renewal License shall not affect the right of the Issuing Authority to grant to any other Person a license or right to occupy or use the Public Ways or streets, or portions thereof, for the construction, upgrade, installation, operation or maintenance of a Cable System within the Town; or the right of the Issuing Authority to permit the use of the Public Ways and places of the Town for any purpose(s) whatsoever. The Licensee hereby acknowledges the Issuing Authority's right to make such grants and permit such uses.

(b) Subject to applicable law, the grant of any additional cable television license(s) shall be at the sole discretion of the Issuing Authority.

Should any such additional cable television license(s) be granted or amended on terms and conditions taken as a whole more favorable or less burdensome than those contained in this Renewal License, the Issuing Authority agrees to amend this Renewal License (effective upon the grant to said other person) to overall provide such greater benefits or lesser burdens.

(c) The issuance of additional renewal license(s) shall be subject to applicable federal law(s), and M.G.L. Chapter 166A and applicable regulations promulgated thereunder.

(d) In the event an application for a new cable television license is filed with the Issuing Authority, proposing to serve the Town, in whole or in part, the Issuing Authority shall serve a copy of such application upon the Licensee within a reasonable time thereafter.

SECTION 2.6---POLICE AND REGULATORY POWERS

By executing this Renewal License, the Town does not waive the right to exercise its police powers with respect to the welfare and safety of the public. The Licensee shall comply with all applicable federal and State laws and regulation, and Town bylaws and regulations, provided such Town bylaws and regulations are not specific to this Renewal License, the Licensee and/or Cable System; however, the Licensee does not waive its right to challenge such exercise on any grounds, including that such exercise impairs its contractual rights. Any such challenge shall be determined in accordance with applicable law in a court of competent jurisdiction.

SECTION 2.7--- REMOVAL OR ABANDONMENT

Upon the expiration or earlier termination of this Renewal License, unless (1) the Licensee has its license renewed for another term or the Cable Act renewal process is still underway; (2) the ownership of the Cable System is transferred to another Person with written approval by the Issuing Authority in accordance with applicable law and pursuant to the terms of this Renewal License; or (3) the Licensee is otherwise operating the Cable System under the terms of this Renewal License as allowed by applicable law, the Licensee shall remove all of its supporting structures, poles, transmission and distribution systems, and other appurtenances from the Public Ways and other Town-owned places and shall

restore the areas to their original condition. If such removal is not complete within six (6) months following such expiration or earlier termination, the Issuing Authority may deem any property not removed as having been abandoned and may dispose of, and/or utilize, any such property in any way or manner it deems appropriate. Any reasonable costs incurred by the Town resulting from the removal, disposal and site restoration pursuant to this Section shall be paid to the Town by the Licensee within thirty (30) days of written request. The provisions of this Section are subject to the rights the Licensee may have applicable law (including the Cable Act) and this Renewal License to renew this Renewal License.

SECTION 2.8--- TRANSFER OF THE RENEWAL LICENSE

(a) Subject to applicable law, neither this Renewal License, nor control thereof, shall be transferred, assigned or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any Person holding such Renewal License to any other Person, without the prior written consent of the Issuing Authority, which consent shall not be arbitrarily or unreasonably withheld or delayed. Such consent shall be given only after a public hearing upon a written application therefore on forms prescribed by the Cable Division and/or the FCC. The application for consent to a transfer or assignment shall be signed by the Licensee and by the proposed transferee or assignee or by their representatives, evidence of whose authority shall be submitted with the application. No consent shall be required for a transfer to an Affiliate for which the Issuing Authority has a reasonable basis, based on the totality of facts and circumstances, including any correspondence or information the Licensee chooses to provide, to conclude that the Affiliate has the financial, management, technical and legal qualifications to operate a cable system under the existing Renewal License.

(b) Pursuant to 207 CMR 4.04, as it may be amended, and applicable federal law, in considering a request to transfer control of this Renewal License, the Issuing Authority shall consider such factors as the transferee's financial, management, technical and legal qualifications and may consider any and all other criteria allowable under law.

(c) The consent or approval of the Issuing Authority to any assignment or transfer of the Renewal License granted to the Licensee shall not constitute a waiver or release of the rights of the Town in and to the Streets and Public Ways or any other rights of the Town under this Renewal License, and any such transfer shall, by its terms, be expressly subordinate to the terms and conditions of this Renewal License.

(d) Subject to applicable law, the Licensee shall submit to the Issuing Authority an original and five (5) copies of the application and FCC Form 394 requesting such transfer or assignment consent.

(e) The consent of the Issuing Authority shall be given only after a public hearing to consider the written application for transfer. Unless otherwise provided by applicable law, the Issuing Authority shall make a decision on said written application within one hundred and twenty (120) days of receipt of said application. After 120 days, the application shall be deemed approved, unless said 120 day period is extended by mutual consent of the parties.

Any successor licensee approved by the Issuing Authority shall be subject to all of the terms and conditions contained in this Renewal License.

SECTION 2.9--- EFFECT OF UNAUTHORIZED TRANSFER ACTION

(a) Any transfer of the Cable System without the Licensee and the transferee complying with Section 2.8 above shall be deemed a material breach of this Renewal License.

(b) If the Issuing Authority denies its consent to any such action and a transfer has nevertheless been effected, the Issuing Authority may revoke and terminate this Renewal License consistent with the procedures of Sections 11.1 and 11.3 of this License, unless such transfer is otherwise allowable by applicable law.

(c) The grant or waiver of any one or more of such consents shall not render unnecessary any subsequent consent or consents, nor shall the grant of any such consent constitute a waiver of any other rights of the Town.

ARTICLE 3

SYSTEM DESIGN

SECTION 3.1--- SUBSCRIBER NETWORK

(a) The Licensee shall make available to all Subscribers in the Town an 860 MHz Subscriber Network fed by means of a hybrid fiber-optic/coaxial cable network. The Cable System shall be capable of providing at least one hundred ten (110) video channels in the downstream direction.

ARTICLE 4

LOCATION, CONSTRUCTION, INSTALLATION, LINE EXTENSION

SECTION 4.1---SERVICE AREA

The service area shall be the entire Town of Cheshire and Cable Service shall be available to all residential dwelling units in Town, subject to Sections 4.2 below. With respect to areas not built as of the Effective Date of this Renewal License, the Cable Television System shall be extended upon request, at the Licensee's sole cost and expense, from existing cable plant to any and all areas of the Town containing twenty (20) dwelling units per mile of cable plant (regardless of whether the distribution plant is aerial or underground) (Being prorated for distances less than or greater than a mile.) (Hereinafter all references in this Renewal License to "twenty (20) dwelling units per mile of cable plant" as described herein shall be referred to without the above reference to its applicability to both aerial and/or underground plant and without reference to being prorated for distances less than or greater than a mile, but shall be mean the same as if such wording were specifically repeated therein.) Said service shall be made available and fully activated to requesting Subscribers no later than sixty (60) days after the Licensee's receipt of permission to attach cable to poles. The Licensee shall make a timely request and application to the pole owner for such attachment rights.

SECTION 4.2---LINE EXTENSION

(a) Subject to the provisions of the following paragraphs (b), (c), (d) and (e), any potential Subscriber located in an area of the Town without Cable Service, may request Cable Service from the Licensee. The Licensee shall extend Cable Service to such area promptly, but in no case later than sixty (60) days after all necessary permits are obtained. The Licensee shall expeditiously seek all necessary permits.

(b) The Cable Television System shall be extended automatically, at the Licensee's sole cost and expense, from existing cable plant to any and all areas of the Town containing twenty (20) dwelling units per mile of cable plant thereof. Said Cable Service shall be made available and fully activated to requesting Subscribers no later than sixty (60) days after the Licensee's receipt of permission to attach cable to poles. The Licensee shall make a timely request and application to the pole owner for such attachment rights.

(c) Any potential residential Subscriber located in an area of the Town without Cable Service may request such service from the Licensee. In areas meeting the requirements of Section 4.2(b) above, the Licensee shall extend Cable Service to the area promptly, but in no case later than sixty (60) days after the Licensee's receipt of permission to attach cable

to poles. The Licensee shall expeditiously seek all necessary permits. In those areas with less than twenty (20) residences per aerial and/or underground mile of cable plant (all being pro-rated for distances less than or greater than a mile), the Licensee shall, within thirty (30) days following a request for service, conduct a survey to determine the number of homes in the immediate area and shall inform each potential Subscriber of the total cost of the extension and the range of possible contributions (see Section 4.2 (c) above) that will be charged. The cost of wiring such areas shall be calculated by taking the cost of extending such service divided by the number of Subscribers in such area minus the costs of extending twenty (20) residences per aerial and/or underground cable mile of cable plant. The resulting cost shall equal the per Subscriber contribution relating to line extension of Cable Service in that particular area of Town, or:

$$\frac{C}{LE} - (\text{minus}) \frac{CA}{P} = SC$$

- * C equals the cost of construction of new plant from the termination of existing cable plant;
- * CA equals the actual cost of construction per mile in the primary service area;
- * LE equals the number of dwelling units requesting service in the line extension area;
- * P equals the twenty (20) (aerial and/or underground) dwelling units per linear mile of plant; and
- * SC equals the per Subscriber contribution in aid of construction in the line extension area.

The Licensee shall apply for permission to attach cables to poles within fourteen (14) days of receiving the contribution(s) from prospective Subscribers. The Cable System shall be extended to all such roads within sixty (60) days of the Licensee's receipt of permission to attach cables to poles. The Licensee shall make a timely request and application to the pole owner for such attachment rights. Cable Service(s) shall be made available and fully activated to all requesting Subscribers who made a contribution within the same sixty (60) day time period.

TITLE 47--TELECOMMUNICATION
CHAPTER I--FEDERAL COMMUNICATIONS COMMISSION

PART 76--CABLE TELEVISION SERVICE

Subpart H--General Operating Requirements

Sec. 76.309 Customer Service Obligations

(a) A cable franchise authority may enforce the customer service standards set forth in paragraph (c) of this Section against cable operators. The franchise authority must provide affected cable operators ninety (90) days written notice of its intent to enforce the standards. (b) Nothing in this rule should be construed to prevent or prohibit:

(1) A franchising authority and a cable operator from agreeing to customer service requirements that exceed the standards set forth in paragraph (c) of this Section;

(2) A franchising authority from enforcing, through the end of the franchise term, pre-existing customer service requirements that exceed the standards set forth in paragraph (c) of this Section and are contained in current franchise agreements;

(3) Any State or any franchising authority from enacting or enforcing any consumer protection law, to the extent not specifically preempted herein; or

(4) The establishment or enforcement of any State or municipal law or regulation concerning customer service that imposes customer service requirements that exceed, or address matters not addressed by the standards set forth in paragraph (c) of this Section.

(c) Effective July 1, 1993, a cable operator shall be subject to the following customer service standards:

(1) Cable system office hours and telephone availability--

(i) The cable operator will maintain a local, toll-free or collect call telephone access line which will be available to its subscribers 24 hours a day, seven days a week.

(A) Trained company representatives will be available to respond to customer telephone inquiries during normal business hours.

(B) After normal business hours, the access line may be answered by a service or an automated response system, including an answering Machine. Inquiries received after normal business hours must be responded to by a trained company representative on the next business day.

(ii) Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed thirty (30) seconds when the connection is made. If the call needs to be transferred, transfer time shall not exceed thirty (30) seconds. These standards shall be met no less than ninety (90) percent of the time under normal operating conditions, measured on a quarterly basis.

(iii) The operator will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless an historical record of complaints indicates a clear failure to comply.

(iv) Under normal operating conditions, the customer will receive a busy signal less than three (3) percent of the time.

(v) Customer service center and bill payment locations will be open at least during normal business hours and will be conveniently located.

(2) Installations, outages and service calls. Under normal operating conditions, each of the following four standards will be met no less than ninety-five (95) percent of the time measured on a quarterly basis:

(i) Standard installations will be performed within seven (7) business days after an order has been placed. "Standard" installations are those that are located up to 125 feet from the existing distribution system.

(ii) Excluding conditions beyond the control of the operator, the cable operator will begin working on "service interruptions" promptly and in no event later than 24 hours after the interruption becomes known. The cable operator must begin actions to correct other service problems the next business day after notification of the service problem.

(iii) The "appointment window" alternatives for installations, service calls, and other installation activities will be either a specific time or, at maximum, a four-hour time block during normal business hours. (The operator may schedule service calls and other installation activities outside of normal business hours for the express convenience of the customer.)

(iv) An operator may not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.

(v) If a cable operator representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer will be contacted. The appointment will be rescheduled, as necessary, at a time that is convenient for the customer.

(3) Communications between cable operators and cable subscribers--

(i) Notifications to subscribers--

(A) The cable operator shall provide written information on each of the following areas at the time of installation of service, at least annually to all subscribers, and at any time upon request:

(1) Products and services offered;

(2) Prices and options for programming services and conditions of subscription to programming and other services;

(3) Installation and service maintenance policies;

(4) Instructions on how to use the cable service;

(5) Channel positions programming carried on the system; and,

(6) Billing and complaint procedures, including the address and telephone number of the local franchise authority's cable office.

(B) Customers will be notified of any changes in rates, programming services or channel positions as soon as possible in writing. Notice must be given to subscribers a minimum of thirty (30) days in advance of such changes if the change is within the control of the cable operator. In addition, the cable operator shall notify subscribers thirty (30) days in advance of any significant changes in the other information required by paragraph (c)(3)(i)(A) of this Section. Notwithstanding any other provision of Part 76, a cable operator shall not be required to provide prior notice of any rate change that is the result of a regulatory fee, franchise fee, or any other fee, tax, assessment, or charge of any kind imposed by any Federal agency, State, or franchising authority on the transaction between the operator and the subscriber.

(ii) Billing--

(A) Bills will be clear, concise and understandable. Bills must be fully itemized, with itemizations including, but not limited to, basic and premium service charges and equipment charges. Bills will also clearly delineate all activity during the billing period, including optional charges, rebates and credits.

(B) In case of a billing dispute, the cable operator must respond to a written complaint from a subscriber within 30 days.

(iii) Refunds--Refund checks will be issued promptly, but no later than either--

(A) The customer's next billing cycle following resolution of the request or thirty (30) days, whichever is earlier, or

(B) The return of the equipment supplied by the cable operator if service is terminated.

(iv) Credits--Credits for service will be issued no later than the customer's next billing cycle following the determination that a credit is warranted.

(4) Definitions--

(i) Normal business hours--The term "normal business hours" means those hours during which most similar businesses in the community are open to serve customers. In all cases, "normal business hours" must include some evening hours at least one night per week and/or some weekend hours.

(ii) Normal operating conditions--The term "normal operating conditions" means those service conditions which are within the control of the cable operator. Those conditions which are not within the control of the cable operator include, but are not limited to, natural disasters, civil disturbances, power outages, telephone network outages, and severe or unusual weather conditions. Those conditions which are ordinarily within the control of the cable operator include, but are not limited to, special promotions, pay-per-view events, rate increases, regular peak or seasonal demand periods, and maintenance or upgrade of the cable system.

(iii) Service interruption--The term "service interruption" means the loss of picture or sound on one or more cable

Subject: Upcoming NPAC Transition

In 2015, upon recommendation by the North American Numbering Council (NANC), the FCC selected iconectiv to serve as the successor Local Number Portability Administrator (LNPA) in all seven U.S. regions. The transition of the NPAC from Neustar to iconectiv does not change Neustar's role as the Pooling Administrator (PA). The present PA will continue to assign and administer thousands-blocks consistent with our contract with the FCC.

Pursuant to the FCC Order, the NAPM LLC and the Transition Oversight Manager (TOM) published the following migration schedule for the various NPAC regions from Neustar to iconectiv:

- Southeast region – April 8, 2018
- Midwest, Northeast, Mid-Atlantic regions – May 6, 2018
- Western, West Coast, Southwest regions – May 20, 2018
- Final Acceptance Date – May 25, 2018

For any NPAC-related questions or issues during the transition period from April 8, 2018 through May 20, 2018, service providers will need to contact the NPAC vendor that is administering that specific NPAC region at the time of the question.
