Nothing in this License shall be construed to prohibit Licensee from offering any service over its Cable System that is not prohibited by federal or state law.

(b) This Renewal License is granted under and in compliance with the Cable Act and M.G.L.c. 166A, and in compliance with all rules and regulations of the FCC and the Cable Division in force and effect during the period for which this Renewal License is granted.

(c) Subject to the terms and conditions herein, the Issuing Authority hereby grants to Licensee the right to construct, upgrade, install, operate and maintain a Cable Television System within the Public Way.

(c) To the extent allowed by applicable law(s), the grant of any additional cable television license(s) shall not be on terms more favorable or less burdensome than those contained in this Renewal License.

(d) The issuance of additional license(s) shall be subject to all applicable federal and state laws, including M.G.L.c. 166A and applicable regulations promulgated thereunder.

(g) In the event that Licensee demonstrates that an existing or future Cable Service provider in the Town has been provided relief by the Issuing Authority from any obligation of its license, then Licensee shall be awarded an equivalent amount of relief from obligations herein. Such relief shall be in writing and in the form of an amendment to this License. The Issuing Authority shall convene a public hearing on the issue within a reasonable time period of Licensee's written notification to the Issuing Authority requiring such relief, unless otherwise mutually agreed to. License shall provide reasons for its belief in the notification. At the public hearing, the Issuing Authority shall afford Licensee an opportunity to demonstrate that any existing or future service providers in the Town have been provided relief by the Issuing Authority from any obligation of its cable television license. Licensee shall provide the Issuing Authority with such financial or other relevant information as is requested to justify its belief, provided, however, that the parties' counsel mutually and reasonably deem said information is non-proprietary.

(h) In the event that Cable Services are being provided to the Town by any Person(s) or Multichannel Video Programming Distributor other than Licensee, which is not in any way an affiliate of Licensee, and such Person(s) or Multichannel Video Programming Distributor is not required by applicable law to be licensed by the Issuing Authority, and to the extent that Licensee reports to the Issuing Authority, in writing, that the provision of such Cable Services by such Person(s) or Multichannel Video Programming Distributor is having a negative financial impact upon Licensee's Cable System operations in the Town, Licensee may request, in writing, that the Issuing Authority convene a public hearing on that issue. The Issuing Authority shall convene said hearing within a reasonable time period of receipt of a written hearing request from Licensee.

- (i) Along with said written request, Licensee shall provide the Issuing Authority with a written basis and written reasons for its determination of such negative impact. At the public hearing, the Issuing Authority shall afford Licensee an opportunity to present the basis and the reasons for its determination. Licensee shall provide the Issuing Authority with such financial and other relevant information as is reasonably requested.
- (ii) Should Licensee demonstrate that the Cable Service(s) of such Person(s) is having a negative financial impact upon Licensee's Cable System operations in the Town, the Issuing Authority shall consider and negotiate, in good faith, equitable amendments to this Renewal License.

the right to seek reimbursement under any applicable private or government program for reimbursement.

(c) Provided Licensee has at least ninety (90) days' prior written notice concerning the opening of residential subdivision trenching, or of the installation of conduit for the location of utilities, it shall install its cable in such trenching or conduits or may seek permission to utilize alternative trenching or conduits within a comparable time frame. If a substantial quantity of cable is required for a large subdivision and said quantity is not in stock, Licensee shall be allowed a reasonable additional time period for said installation.
