

To the DOER:

I can not attend the hearings, so I am writing instead.

Please make sure the Clean Peak Energy regulations meet these conditions:

- 1) No combustion-based technologies are to be considered Clean Peak Resources. No trash, no trees.
- 2.) The draft regulations must be completed by publishing all the guidelines that it refers to, including a guideline on Clean Peak Resource Eligibility. Transparency for everyone.
- 3.) The DOER must post the draft Guidelines and extend public comment period by at least 60 days for the public to review and comment on them. The public needs to be informed.

Thank you.
