Plant Icon	Botanical Name	Common Name	Height	Value
Grasses				
	Ammophila breviligulata	American Beachgrass	2-3 feet	Ideal grass for coastal stabilization due to deep spreading roots, quick colonization, and salt tolerance.
	Andropogon gerardii	Big Bluestem	4-8 feet	Hardy upright grass with interesting seed heads that resemble a turkey's foot and leaves that change colors throughout the seasons.
	Eragrostis spectabalis	Purple Lovegrass	1-3 feet	Versatile and low-maintenance ornamental grass that grows in an open cluster with attractive reddish-purple blooms.
	Panicum virgatum	Switchgrass	3-6 feet	Perennial, clump-forming, warm-season grass with open lacy sprays, reddish-purple seedheads, and deep roots that make it an ideal soil stabilizer.
	Schizachyrium scoparium	Little Bluestem	1.5-3 feet	Adaptable grass that is useful for re-vegetation, soil stability, food for birds, and cover for wildlife.
Perennials	•			
	Coreopsis rosea	Pink Tickseed	1-2 feet	Low-maintenance, small, flowering perennial with attractive pink, daisy-like flowers. It can spread by rhizomes or self-seeding.
****	Eurybia spectabilis	Eastern Showy Aster	1-2 feet	Easy-to-grow, drought- and salt-tolerant perennial with showy clusters of violet flowers that bloom from August to October.
***	Solidago odora	Sweet Goldenrod	2-5 feet	Adaptable and hardy perennial with aromatic leaves and attractive bright yellow clusters of flowers that bloom from late summer to mid fall.
Shrubs and Groundcovers				
(5)	Arctostaphylos uva-ursi	Bearberry	6-12 feet	Hardy, low-growing evergreen groundcover/shrub that is a good soil stabilizer and with attractive bright red berries that are readily eaten by birds.
4	Hydrangea macrophylla	Bigleaf Hydrangea	3-6 feet	Fast-growing, deciduous shrub that is tolerant of salt and shade and has attractive, large, colorful flowers. (not native; native to Japan)
	Juniperus communis var. depressa	Common Juniper	4 feet	Dense, spreading, evergreen groundcover/ shrub that is useful for erosion control and often found on gravelly slopes and rocky seaside locations.
	Morella caroliniensis	Bayberry	2-6 feet	Salt-tolerant, semi-evergreen shrub with berries that are eaten by birds. The dark green leaves are aromatic and may stay on the branches for most of the winter.
	Prunus maritima	Beach Plum	7-14 feet	Salt-tolerant, deciduous shrub with deep roots, white flowers, and edible fruits. Over time, extensive colonies may develop from a single plant.
	Viburnum dentatum	Arrowwood Viburnum	5-9 feet	Hardy shrub that is adaptable to a variety of conditions and has fruit valuable for birds.
Trees				
	Acer rubrum 'Red Sunset'	Red Maple	40-70 feet	Fast-growing, deciduous tree with brilliant fall color that are relatively fast growing, tolerant of many conditions, and adaptable.
	Juniperus virginiana	Eastern Red Cedar	10-40 feet	Large evergreen tree that is drought- and salt-tolerant, with berries valuable to wildlife.
	Prunus serotina	Black Cherry	60-90 feet	Rapid growing tree that is drought- and salt-tolerant, with pendulous branches, fragrant flowers, and berries for wildlife.
