To: SMART, DOER (ENE)
Subject: Agricultural Systems Guideline Comments

To whom it may concern:

As a resident of Bay Road in Norton, MA, where my neighborhood is under the threat of a gigantic proposed solar farm over cranberry bogs, I enthusiastically support the DOER's efforts to protect neighborhoods and work toward the common good in regards to solar energy. I particularly support limiting the DC size to 2.5 MW, adjusting sunlight requirements, and not allowing an additional solar unit on a piece of land that is contingent to a piece of land where solar already exists.
