RE: Broadway Electrical Co., Inc. ("Broadway") Comments on Solar RPS Carve-S-REC price Support Mechanism

Dear Mr Pleasant:

Broadway appreciates the opportunity to submit comments regarding the Department of Energy Resources ("DOER") Solar RPS S-REC Price Support Mechanism. Broadway supports the DOER's efforts to implement the S-REC program as soon as possible to replace the Commonwealth Solar program.

Price Support Mechanism

In general, Broadway is support of the S-REC program concept put forth in the presentation. The concern that we have is that there does not appear to be any documentation regarding the number of S-RECs that will be required by the RPS for each year going out to 2017 and beyond. The developer will need stability in seeking funding to finance these projects and the real ability to sell these S-RECs remains uncertain even in the Auction Account.

Program Design

Broadway requests that the starting point of 20MW for this program, which includes Utilities be reviewed and increased.

Thank you for the opportunity to submit these comments. Please contact me if you have any questions or comments at 617-822-8831 or email at jwienslaw@broadelec.com

Respectfully submitted,

Broadway Electrical Co., Inc.

Jonathan B. Wienslaw

President
