RE: Disaster Aid Pre-qualification for Groundfish Crew Members

Dear <Name of Applicant>:

The Massachusetts Division of Marine Fisheries (DMF) is writing to inform you that based upon your application as a crew member aboard a commercial groundfish vessel **you have not been pre-qualified for inclusion in Phase 2 of the Groundfish Disaster Economic Assistance Program.**

Crew members are being pre-qualified to receive a flat rate payment for each year in which they meet the following criteria:

Higher Flat Rate

Non-owner/operator crew members who:

- 1) worked aboard a qualified commercial groundfish vessel¹,
- 2) documented at least \$5,000 in annual income was generated from eligible commercial groundfish activity; and
- 3) documented that at least 50% of total annual income was generated from eligible commercial groundfish activity.

Lower Flat Rate

Owner/operators who:

- 1) worked aboard a qualified commercial groundfish vessel¹
- 2) documented at least \$5,000 in annual income was generated from eligible commercial groundfish activity; and
- 3) documented that at least 50% of total annual income was generated from eligible commercial groundfish activity.

¹A qualified commercial groundfish vessel is one that was qualified to receive 2012 groundfish disaster aid, was homeported in MA and documented landings of at least 3,000-lbs., the minimum disaster aid qualification in MA for a commercial groundfish vessel, in each year from 2009-2013 for which a crew member applied for aid.

In the table below, you will find further details regarding DMF's decision not to prequalify you based on the information you submitted with your application and DMF review.
