# Communities Incarcerated Individuals Released to in 2023

**Hollie Matthews, Executive Director, Office of Strategic Planning and Research**

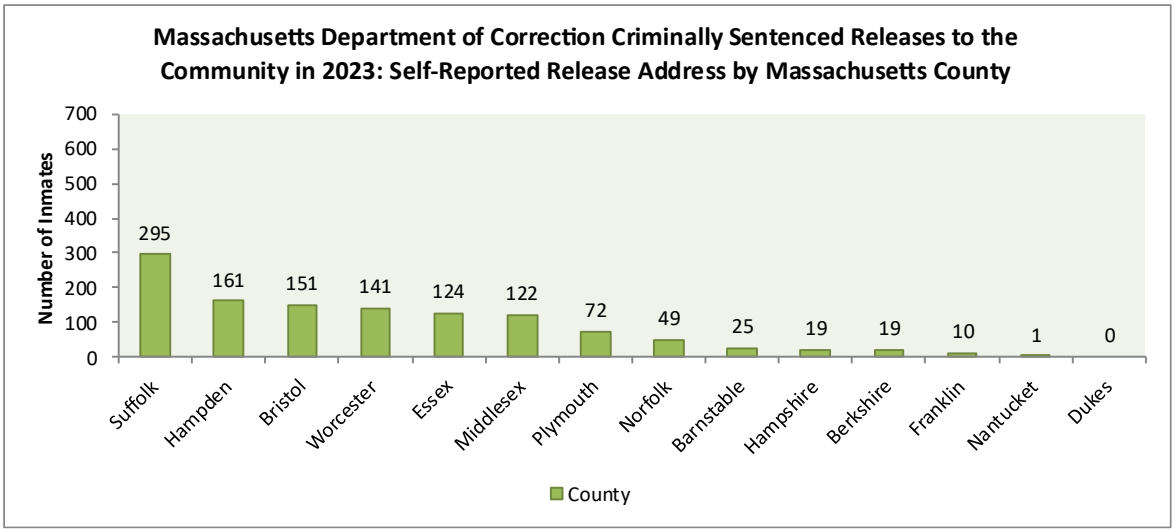
***Prepared by***
**Ruben Lema, Program Coordinator II**
**July 2024**

The population covered in this report, termed 'release to the community population', includes any criminally sentenced incarcerated individuals released to the community from a Massachusetts Department of Correction (MA DOC) facility as well as DOC incarcerated individuals released from other correctional facilities (jurisdiction). Under this definition, DOC incarcerated individuals released from Massachusetts' Houses of Correction, other states' correctional facilities and the Federal Bureau of Prisons during 2023 are included in the population. The population described in this report includes criminally sentenced incarcerated individuals released via expiration of sentence, parole to the street, releases from parole detainers, court releases and payments/expirations of fine.

## Introduction

Incarcerated Individuals (I.I.) under the jurisdiction of the Massachusetts Department of Correction (MA DOC) are released to many different communities throughout the state and in some cases are released to communities outside of Massachusetts. This brief is a statistical look at the communities to which criminally sentenced I.I. are being released[1]. For the purposes of this report, communities may refer to counties, cities, towns or municipalities both in and outside of Massachusetts.

**Chart 1**



**Note**: Excludes 55 I.I. including 54 released to communities outside of Massachusetts and 1 unreported

During calendar year 2023, there were 1,244 releases to the community, which was a decrease of 126 releases (9%) from 2022. Males saw a 9% decrease from the previous year in number of releases (n = 121) driven by a decrease in paroles to the community. Female releases experienced a 6% decrease from 72 in 2022 to 67 in 2023 (n = 5), largely as a result of a increase in females being released via expiration of sentence.

[1] Information regarding release address is self-reported by I.I. prior to their release. It is likely that some release addresses reflect temporary and residential treatment locales, and not necessarily long term residences in the community. If a release address is not reported by the I.I., their last known address was used.

- The majority (59%) of the releases during 2023 had a reported release address in one of the top ten cities/towns listed in Table 1.
- Like 2022, the release address with the highest number of releases reported was to the various communities in the city of Boston (23%) followed by Springfield (7%) and Worcester (7%).
- Despite changes in rankings, the top 10 cities/towns remained the similar from the previous year.

- Boston was the top city reported by both male (23%) and female (16%) incarcerated individuals as their release address. The second most reported city for males was Springfield (7%), followed by Worcester (7%) and New Bedford (6%).

- Like 2022, most of the male releases (60%) reported a release address in one of the top ten cities/ towns.

- Females differed from the males where the second most reported release address was Lawrence (9%), followed by Salisbury (4%) and Springfield (4%).

- The majority of females (54%) reported a Massachusetts release address in one of the top ten cities/towns, while (40%) reported a release address outside of the top ten.

- Female releases by community are also skewed, because not all counties house females. [3]

[3] Not all Massachusetts counties house their female I.I. Massachusetts General Law dictates that females may be committed directly by the courts to the MA DOC for a House of Correction sentence. The counties of Barnstable, Berkshire, Bristol, Franklin, Hampden, and Suffolk house females in their county correctional facilities. Hampden County has increased their capacity to house county sentenced females for other western Massachusetts regions (including Worcester).

Twenty-four percent of the total population reported a release address located in Suffolk County, the highest of all Massachusetts Counties. Hampden County had the second highest percentage of releases (13%) followed by Bristol County with 12%. When looking at the concentration (the rate per 100,000 residents) of releases to the community, Suffolk County had the greatest concentration at 38 followed by Hampden County with 35 and Bristol County with 26. Although 10% of releases reported addresses in Middlesex County (the sixth highest by count), the county's significantly higher population density resulted in the third lowest concentration of releases—8 per 100,000 residents.

- The greatest percentage of males were released to Suffolk County (24%), followed by Hampden County (13%) and Bristol County (12%).
- Suffolk County was the top Massachusetts county reported for male releases in 2022, mirroring the top county for community releases that year. Hampden County ranked third in 2022 and rose to second in 2023.
- No male releases reported a release address in Dukes County in 2023.

- The greatest percentage of females were released to Middlesex County (24%), followed by Essex County (18%) and Suffolk County (16%).
- Though the list of top releases addresses by Massachusetts County remained almost identical with the top Counties reported in 2022 for females, there was some variation for the proportion of releases to each County. The top four release Counties accounted for 70% of releases to the community in 2023, a 1% decrease from 2022.
- No female releases reported a release address in Dukes and Nantucket Counties in 2023.

Of the 1,244 I.I. released to the community, 54 reported a release address outside of Massachusetts. Forty-six percent of I.I. who reported a release address outside of Massachusetts in 2023 indicated a destination in a New England state (n = 19) or New York (n = 6), accounting for a significant portion of out-of-state releases that year. The proportion of I.I. being released to a New England state or New York decreased from 52% to 46% when compared to the previous release year.

The tables on pages 8 through 10 show the self-reported release address by county of I.I. separated by the institution they were released from. Please note: percentages do not always add up to 100% due to rounding.
