Executive Director

March 15, 2018

Dear Community Partners and Friends,

When we released our first edition of the Community Partners Directory, it delighted us to hear how well-received it was, especially by our community partners and stakeholders here in Massachusetts. It is with that same enthusiasm that we release an updated edition of the Community Partners Directory in a user-friendly format. This new edition features a list of all ORI programs with a brief description of each, followed by a list of the providers that offer each program. After, the directory lists each provider more thoroughly, including their contact information and location. It is our hope that this directory will allow community partners and stakeholders to collaborate in order to best serve the immigrants and refugees residing in Massachusetts. Every effort has been made to ensure that this directory is accurate and up to date. This second edition is special because it includes ORI's new partners for the newest addition to ORI's portfolio of programs, the Financial Literacy for Newcomers (FLNP).

I would like to take this opportunity to thank each of our service providers, community supporters, and the ORI staff for their diligent work in serving the refugees and immigrants in the Commonwealth of Massachusetts. I want to give special thanks to **Painters & Allied Trades** for their continued financial support of this Directory.

Please visit us online at www.mass.gov/ORI to learn more about our programs and also to download an electronic copy of the Community Partners Directory to share with your network.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Mary Truong".

The mission of the Massachusetts Office for Refugees and Immigrants (ORI) is to promote the full participation of refugees and immigrants as self-sufficient individuals and families in the economic, social, and civic life of Massachusetts. Refugee and immigrant populations frequently face pre-and post-migratory obstacles which may impact their capacity to effectively integrate into their new communities. ORI provides funds to direct service providers to serve refugees in their communities with the goal of self-sufficiency and integration.

Since the establishment of the Massachusetts Office for Refugees and Immigrants (ORI) in 1985, the Office worked diligently to foster a public environment that recognizes and supports the ethnic and cultural diversity of the state. Approximately 2,400 new refugees and immigrants arrive in Massachusetts each year with recent arrivals coming from Iraq, Haiti, Somalia and the Democratic Republic of Congo.

ORI is primarily funded through the federal Office of Refugee Resettlement which supports a range of services for refugees and immigrants. ORI also receives state funding in support of citizenship and employment services for refugees and immigrants residing in the Commonwealth. For the first time, ORI raised more than \$250,000 in funding to support a new initiative—Financial Literacy for Newcomers (FLN). The FLN project is designed to develop partnerships with community based organizations and financial institutions to deliver basic financial education and supports to refugees and immigrants in the Commonwealth.

The following page describes programs and services administered by ORI and provided directly to eligible refugees and immigrants by the service provider network throughout Massachusetts.

ORI Program Descriptions

Citizenship for New Americans Program (CNAP): Assists legal permanent residents of the Commonwealth to become U.S. citizens.

Comprehensive Refugee Employment Services (CRES): Provides integrated English language instruction with core employment services leading to early and long-term economic self-sufficiency.

Employment Support Services Program (ESSP): Provides comprehensive, bilingual/bicultural employment services to Refugees & Immigrants with time-limited TAFDC benefits.

Financial Literacy for Newcomers (FLN): Provides culturally and linguistically appropriate financial literacy content to refugees and immigrants.

Program to Enhance Elder Refugee Services (PEERS): Strengthens relationships between elder and refugee organizations to link refugees to elder services in their communities.

Refugee Case Management (RCM): Provides intake, orientation, employability assessment, basic social services and employment referral to eligible populations.

Refugee Community Services (RCS): Provides orientation to refugee populations regarding how to access and navigate mainstream service system and local resources.

Refugee Health Assessment Program (RHAP): In collaboration with MA Department of Public Health, ensures newly-arriving refugees receive an initial health assessment and follow-up care.

Refugee Health Promotion Program (RHPP): Provides on-going individual health care access assistance to the newest refugee arrivals, preventive health information to refugee communities, and cultural information to mainstream agencies.

Refugee Medical Assistance Program (RMA): In collaboration with MassHealth, provides transitional medical coverage for refugees ineligible for Medicaid during the first 8 months after arrival.

Refugee School Impact Program (RSI): Supports local public school districts in fostering high academic and social success among refugee youth.

Targeted Assistance Grant/Formula (TAG/F): Provides integrated English language instruction and employment services with Vocational Skills Trainings leading to long-term economic self-sufficiency.

TEAMWorks! (TAG/D): Provides skills training, integration supports, and employment services leading to self-sufficiency and community integration.

Unaccompanied Refugee Minors Program (URMP): Provides residential and foster care services to refugee minors arriving in the U.S. without parents or guardians.

Youth Adjustment Services (YAS): Provides refugee youth with a variety of opportunities that facilitate community and school adjustment.

The Refugee Health Assessment Program is designed to remove the barriers that prevent new arrivals from accessing early medical diagnosis and treatment. The health assessment is a refugee's first point of contact with the US health system, and the comprehensive history, evaluation, education and recommendations for follow-up care facilitate appropriate utilization. Furthermore, the health assessment plays an important role in linking refugees with primary health care. Health assessment services are delivered through a network of nine DPH-contracted providers, mostly community health centers.

***ORI funded services** provide health assessment services to eligible refugees and immigrants through RHA program.
