Whether it's a local or a long distance move, Competitive Relocation is ready to help every step of the way. From the beginning stages of planning and preparation, to giving you an estimated time it will take for your move, to the proper packing, wrapping and loading of your possessions. From the first phone call to the last box on the truck, we are able to help you plan and coordinate your relocation.

COMMERCIAL

When moving your business we know the most important thing is not to disrupt the daily routine of your company. This is why our movers will divide into two separate teams, one of the loading side and one on the unloading side to make your transition go smoothly. If needed we also have a seasoned floor planner to make sure you are satisfied with the setup of your new location.

INTERNATIONAL

In the event that your company relocates you to a new country, we are prepared to give you the information you may need, as this is probably the first move abroad for you and or your family. It is vital that you get information about the country you are moving to, such as import regulation for destination country to a detailed inventory to help you get through custom clearance smoothly. We will provide you with competitive prices, a storage facility - if needed, and a special wrapping, packing and crating service by a crew that is trained to pack goods being shipped overseas. We will write a specified inventory list, all items will be tagged and marked.

We understand that during the moving process your life does not stop. That is why we can provide packing assistance to you by our highly trained staff. Whether you need us to pack all of your goods, or only selected valuables, our packing services can promote the proper inventory of your belongings, the safe hauling of valuables and easy unpacking at the new home. When packing your belongings they need to be wrapped correctly in BLANK packing paper, pads or bubble wrap, then placed into the appropriate box. During this process a staff member will be doing an extensive inventory as well as labeling boxes for easy unloading.
