

**COVAD COMMUNICATIONS COMPANY
COMMONWEALTH OF MASSACHUSETTS
DTE 99-271**

**Respondent: Michael Clancy
Date: September 5, 2000**

REQUEST: Please produce Covad's study, based on an analysis of June 2000 data, which indicates that 23 percent of the loops Verizon provided to Covad did not work. If not contained in the study, please provide the following additional information with respect to these loops and the study: the PONs, the size and period of the study group, and what orders were considered in the numerator and denominator.

ITEM: **DTE RR-328**

RESPONSE: The study referenced earlier by Michael Clancy was incorrectly described as containing data for the month of June 2000. The above-noted study actually contains data for May 2000. This data is **PROPRIETARY** and the distribution of this information is limited to requisite parties.

Please see attached.
