

Like many parents of young children, you may be concerned about keeping your kids safe from COVID-19.

Good news: The COVID-19 vaccine is now available for kids age 5 and up. Experts agree it's the best way to protect against COVID-19 and prevent kids from getting seriously ill.

It's natural to have questions about the vaccine for your child. Here are some facts:

- The COVID-19 vaccine was thoroughly tested.
- The clinical trials included thousands of kids age 5-11.
- The Pfizer vaccine has been proven safe for kids age 5 and up.
- It was also proven to be 91% effective at preventing COVID-19 in kids.
