

Behavioral Health Crisis Services

Executive Office of Health and Human Services

September 2025

Objective

Outline changes to the behavioral health crisis system as a result of the Behavioral Health Roadmap and discuss resulting potential patient transitions of care, system workflows, and how to help individuals in Massachusetts access these services.

Agenda

- Background
- Roadmap Services
- Successes
- How to access services

Historical and Structural Challenges in Behavioral Health

 The Commonwealth has implemented recent legislation, policy reforms, and substantial public investment, despite these efforts further improvement is needed.

The Commonwealth's Roadmap for Behavioral Health Reform is based upon statewide listening sessions and feedback. In statewide listening sessions, **nearly 700 individuals, families, and others identified challenges and gaps in the system:**

- Too many people struggle to find the **right type of behavioral health treatment and clinical provider that accepts their insurance.**
- Too often **hospital emergency rooms are the entry point** into seeking behavioral health treatment.
- Individuals often **can't get mental health and addiction treatment at the same location**, even though mental health conditions and substance use disorder (SUD) often co-occur.
- **Culturally competent behavioral health care** for racially, ethnically and linguistically diverse communities can be difficult to find.
- These longstanding challenges were **exacerbated by the pandemic.**

The Behavioral Health Roadmap: Community Behavioral Health Centers (CBHCs)

The vision for the Roadmap is to provide access to real-time urgent care, evidence-based, integrated mental health and addiction treatment for all ages, and 24/7 community crisis response and stabilization in communities. A key component of the Roadmap is the Community Behavioral Health Center, or CBHC.

27 CBHCs opened in 2023, covering every city and town throughout the Commonwealth.

Services include:

Mobile Crisis Intervention (MCI): Multidisciplinary crisis teams that evaluate individuals in their homes, at the CBHC location or in communities, 24 hours a day, 7 days a week.

CBHC Outpatient Services: Urgent and routine mental health and substance use disorder clinic services provided 8am-8pm on weekdays and 9am-5pm on weekends.

Community Crisis Stabilization (CCS): 24-hour bedded diversionary level of care able to provide days/weeks of stabilization in the community.

Early results show positive impact on Emergency Department boarding.

CBHC Background: Easier, more convenient access to behavioral health services

Behavioral Health Help Line (BHHL)
(833) 773-BHHL

- ✓ Multi-lingual live response.
- ✓ Call, text, chat.
- ✓ 24/7/365.
- ✓ No insurance necessary.
- ✓ All ages.
- ✓ Mental health and addictions.
- ✓ Crisis identification and action when needed:
 - Dispatch Mobile Crisis Intervention.
 - 911 connection when needed.
 - Follow-up within 48 hours.
- ✓ Clinical assessment, triage and warm handoff to a provider with appropriate expertise.
- ✓ Follow-up to ensure connection is made.

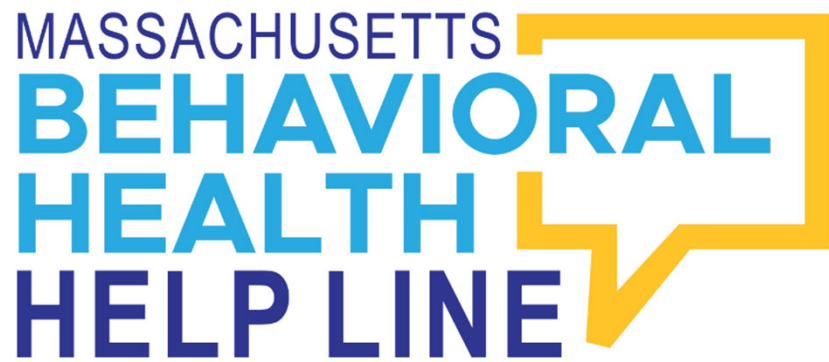

Community Behavioral Health Centers (CBHC)
www.mass.gov/CBHCs

- ✓ All ages.
- ✓ Mental health and addictions.

<p>Mobile Crisis Intervention (MCI)</p> <ul style="list-style-type: none"> ✓ 24/7/365. ✓ No insurance necessary. ✓ At your home or other community location. ✓ At the CBHC. ✓ Clinical assessment, de-escalation, safety planning and triage. 	<p>Urgent & ongoing clinic services</p> <ul style="list-style-type: none"> ✓ Available to all MassHealth members and may be available through commercial insurance. ✓ Same day evaluation, assessment, group therapy, peer support. ✓ Same or next day appointments, including psychopharmacology and medication for addiction treatment. ✓ Care coordination and referral to needed services. ✓ Extended hours: 8 AM - 8 PM week days 9-5 weekends 	<p>Adult & Youth Community Crisis Stabilization (CCS)</p> <ul style="list-style-type: none"> ✓ 24-hour diversionary level of care for individuals in crisis who don't need inpatient level of care. ✓ No insurance necessary.
---	---	--

Behavioral Health Urgent Care (BHUC)

- ✓ Available to all MassHealth members and may be available through commercial insurance.
- ✓ Same/next day appointments for diagnostic evaluation for new clients and urgent appointments for existing clients.
- ✓ Urgent psychopharmacology, medication for addiction treatment evaluation.
- ✓ Non-urgent appointments within 2 weeks.
- ✓ Extended hours.

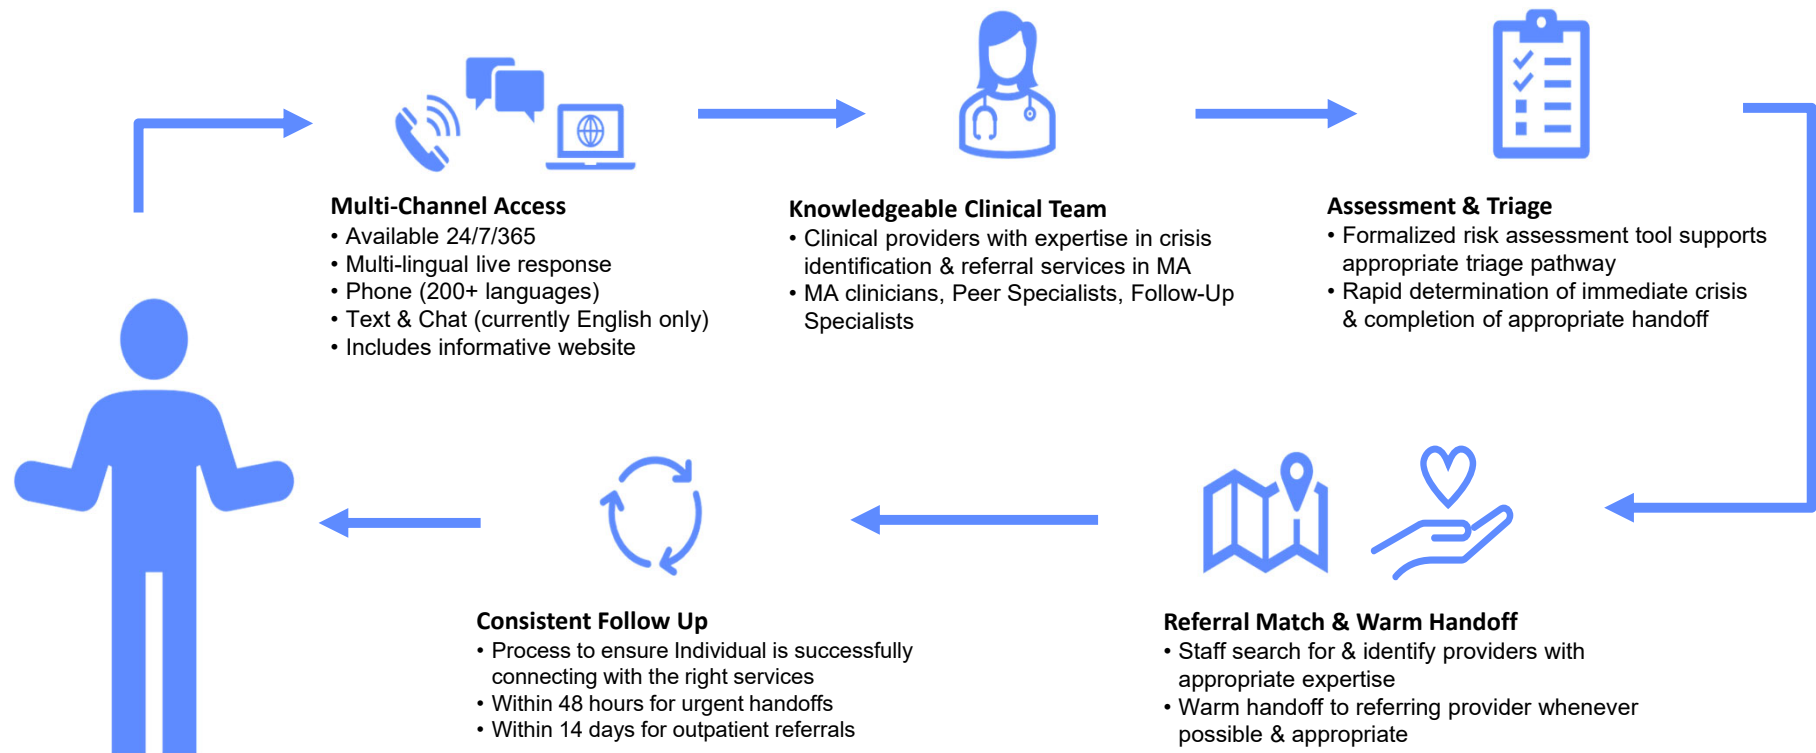

The Massachusetts Behavioral Health Help Line

*A service of the Commonwealth of Massachusetts,
operated by the Massachusetts Behavioral Health
Partnership (MBHP)*

Behavioral Health Help Line: Key Elements

BH Roadmap Impact Since Launch January 2023, as of July 2025

Community Behavioral Health Centers (CBHC) have served >112k unique members in Outpatient Clinic, Mobile Crisis Intervention (MCI), and Community Crisis Stabilization (CCS) services.

CBHCs have provided **over 1.4 million outpatient clinic visits**, serving **nearly 81k unique members** (56k adults; 27k youth)

CBHC MCI teams have provided **>66k crisis evaluations to >38k members** (21k adults; 18k youth). 46% of MCI Crisis Evaluations have been completed in-person, in the community.

More than **11.7k admissions to CCS**, 24-hour diversionary services, providing community-based crisis stabilization to **>7.7k unique members** (6k adults; 1.4k youth).

Police have transported >1.3k individuals directly to a CBHC for a BH Crisis Evaluation, diverting crisis services from the ED to the community, **>700 drop offs occurred in 2024***.

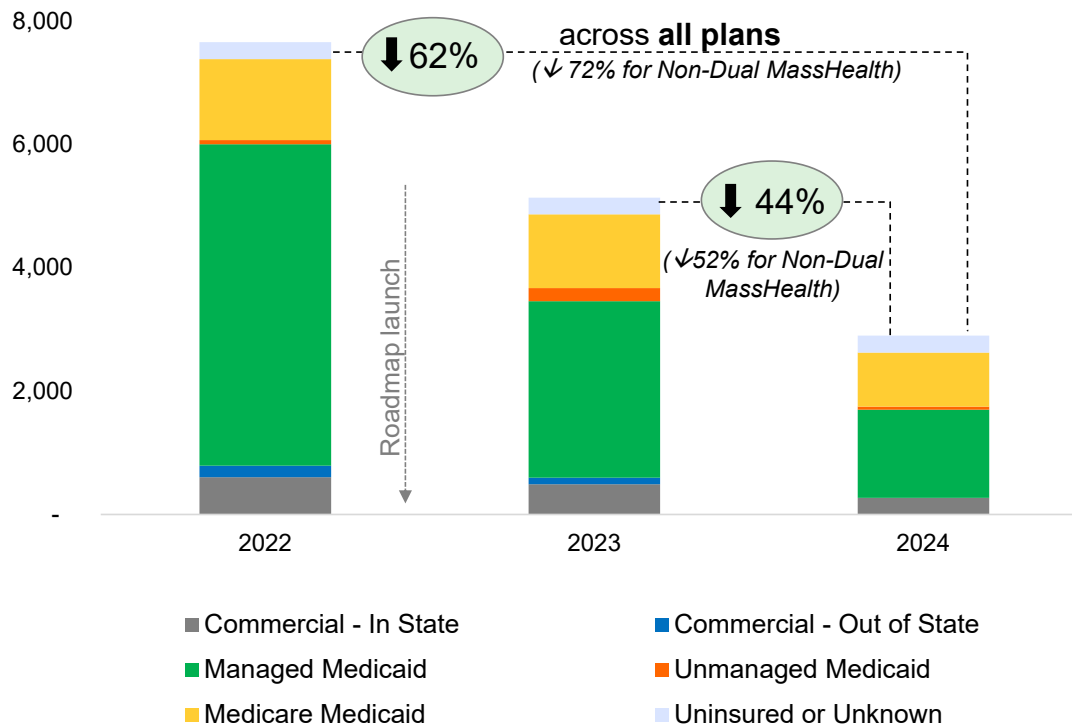

CBHCs have completed **>500 direct admissions to inpatient psychiatry**, avoiding the ED for “medical clearance”. Across the CBHC network, there are an average of 18 direct admits per month*.

Note: CBHC Claims lag have been reported up to 10 months-post service. Standard claims lag is 6 months-post service date

Expedited Psychiatric Inpatient Admission (EPIA) Trends 2022-2024

Rates of EPIA admissions for members awaiting inpatient psychiatry beds for >48 hours for youth and 60 hours for adults continue to decline.

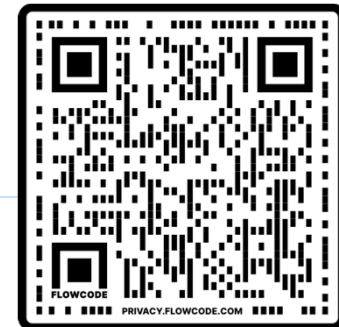

- EPIA referrals for **all plans** have decreased **62% from 2022 to 2024.**
 - Referrals for Non-dual MassHealth members (Managed & Unmanaged Medicaid) decreased 72% (2022 vs 2024).
- EPIA referrals decreased by **44% for all plans** (2023 vs 2024).
 - For Non-dual MassHealth members, referrals **decreased by 52%** (2023 vs 2024).

Note: EPIA protocol is codified into law. The EOHHS EPIA team is alerted of patients waiting for an inpatient psychiatric bed for longer than 48 hours for youth and 60 hours for adults to assist with advocacy.
