

## CONCRETE CRACK SEALER APPROVAL PROCESS

Product must be evaluated by AASHTO M 235 to meet Type IV, Grade 1. The Class shall be specified for the application.

The applicant must supply an independent lab report dated within two years from the initial submission which test for the specified criteria for each Type, Grade & Class for which they want the product to be listed.

MassDOT requires re-certification by all manufacturers every five years to ensure that product names and formulations have remained the same since the product was originally placed on this list and that products are still relevant and in production.
