

Liquid Membrane-Forming Compounds for Curing (M4.14.4)

Liquid membrane-forming compounds for curing shall meet ASTM C309, be evaluated by the National Transportation Products Evaluation Program (NTPEP), and be listed on the department Qualified Construction Materials List (QCML).

Table M4.12.3-1: Types of Liquid Membrane-Forming Compounds for Curing

Type	Description
Type 1	Clear or translucent without dye
Type 1-D	Clear or translucent with fugitive dye
Type 2	White pigmented

Table M4.12.3-2: Composition Class of Liquid Membrane-Forming Compounds for Curing

Type	Description
Class A	Unrestricted composition, generally wax-based products
Class B	ASTM D883 resin-based products

MassDOT requires re-certification by all manufacturers every three years to ensure that product names and formulations have remained the same since the product was originally placed on this list and that those products are still relevant and in production.
