JJPAD Report on Covid-19 & Juvenile Justice

Report Focus

How has the pandemic has affected youth's current and possible future involvement with the juvenile justice system?

Two Key Themes:

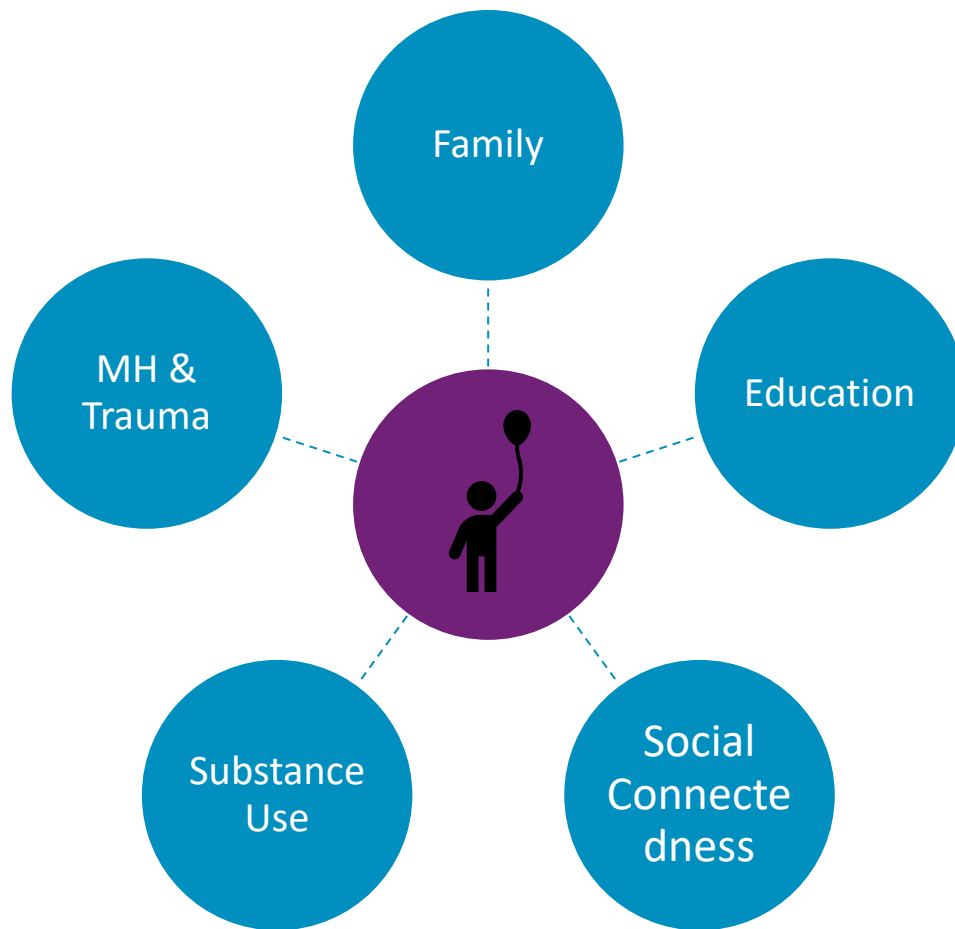

1) Addressing Increased Risk of Delinquency:

- What pandemic-related conditions may have increased future risk of delinquency? (first time offense + recidivism)
- How might this differ by population/demographics?
- What policy/practice/funding changes are needed to address this increased risk?

2) Silver Linings/System Improvements:

- Did any pandemic-related conditions or system changes reduce future risk of delinquency?
- Which of these policies, practices, and services do we want to keep?

Risk Factors of Juvenile Justice Involvement: The Pandemic's Impact on Key Domains
