Culvert Replacement Grant Application

This form is for submitting applications the Culvert Replacement Municipal Assistance grant program

You will need:

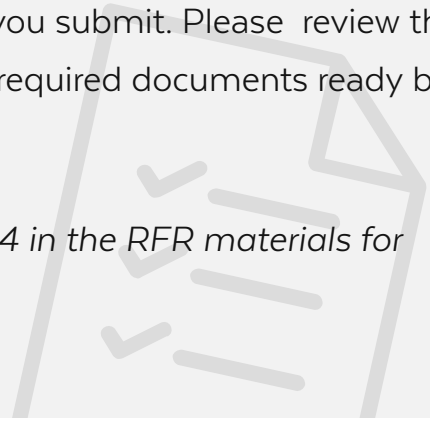

Please fill in basic details about your proposed project and upload the application materials below. Documents required to be uploaded include:

- **Application Forms** (all in one file) – Including the Culvert Replacement Municipal Assistance Grant Application (required), Proposed Work Checklist (required), and Culvert Replacement Training Site Request (optional).
- **Project Photos** (required) – Including views of Road Over Culvert, Culvert Inlet, Upstream of Culvert, Culvert Outlet, and Downstream of Culvert. Photos may be uploaded as one document or individually.
- **Supporting Project Documents** (as applicable) – Including but not limited to field notes, technical reports and analyses, design plan sets, permits, opinion of probable costs, design or construction bids, etc.

Application materials uploaded via the online submission portal cannot exceed 20MB in total. To make arrangements for emailing additional supporting documentation exceeding the file limit or if you have trouble with your online submission, please contact *Ryan Barney* at 617-626-1545 or ryan.barney@mass.gov. Use of this form is strongly encouraged but emailed applications will be considered if applicants are unable to use this form.

Please note if there is an error in this form, the uploaded materials will not be saved and you will need to reattach all of these documents before you submit. Please review the fields below and have all your application materials and required documents ready before completing the online submission.

Fields marked with an * are required. Refer to pages 12-14 in the RFR materials for additional instructions.
