

Developmental Information

When creating your lesson plans, use this developmental information to be sure your lessons are age-appropriate.

Grade 1/Ages 6-7

- They are extremely egocentric. They need to be the center of attention.
- Their vocabulary is rapidly expanding.
- They have a great deal of energy and can be clumsy.
- They enjoy memorization.
- They require details.
- They thrive on encouragement.
- They dislike being singled out, even for praise.
- Somewhat longer sessions are possible. Their attention span is 15-20 minutes.
- Their hand-eye coordination is improving.
- They are less prone to taking chances.
- Their sense of competition is developing.
- They have a need for peer acceptance.
- Mixed groups are still possible.
- They want adult and peer approval.
- Simple stories will reinforce the messages taught.
- A short video may be utilized (8-10 minutes).
- The instructor should model preferred behavior whenever possible.

Grade 2/Ages 7-8

- They are explosive and excitable.
- They can be very dramatic.
- They are inquisitive and will ask endless questions.
- They possess a “know it all” attitude.
- They have less interest in play media.
- They like to use their hands.
- They delight in organized games.
- They tend towards bossiness and daringness.
- Their awareness of self is emerging.
- Their attention span is 20–25 minutes.
- They still require very concrete examples and language.
- They enjoy adult attention.

Glossary

Appendix "C"
Lesson Plans

Appendix "D"
Frameworks

This behavior has been linked with The Massachusetts Comprehensive Health Curriculum Frameworks:

Safety & Prevention Strand

Safety & Injury Prevention Learning Standard

Hazard Prevention

9.2

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes.
- Short videos 8 to 10 minutes can be used.
- Expect a "know it all" attitude

We want students to: (Objectives) :

- Recognize that firefighters are members of the community and that they save lives, put out fires and save property.
- Identify firefighters as community helpers.
- Name the special equipment that firefighters wear so that they are safe while doing their jobs.
helmet, gloves, hood, pants, turnout coat, mask and air tank.
- Explain that they can help a firefighter by being outside of any building with fire or smoke before firefighters arrive.
- List what firefighters do besides putting out fires, such as helping people who are injured or sick, responding to car accidents and other emergencies. Firefighters also teach about fire safety and make fire safety inspections as well as maintaining their equipment.
- Identify firefighters as people who live in your neighborhood like other moms and dads and neighbors.

Seven kinds of learning styles:

Intelligences	Smarts	Think
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

678-008 Escape Plans

678-010 Exiting Public Places

Helpful hints: (Strategies) :

- If you are going to don your gear for the class you should make every effort not to frighten the students.
- Don and doff your gear piece by piece in front of the students, use clean and decontaminated gear, or have the classroom teacher don and doff the firefighting gear while you, sitting at the students level, explain what each piece of equipment protects.
- This makes a great photo opportunity.
- Children should not wear a firefighter's helmet as the weight of this equipment has been documented to injure children.
- Use plastic helmets - ensure adequate amount.

Teacher's notes:

- Have students cut out pictures from magazines of who can be a firefighter.

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes.
- Short videos 8 to 10 minutes can be used.
- Expect a "know it all" attitude

We want students to: (Objectives) :

- Define
- Smoke, fire, heat, emergency, fire drill, exit, alarms, danger, caution, flammable, matches/lighters, meeting place, escape, hazard, helmet, hose, ax, coat and truck.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-001 Community Helper
- 678-007 Smoke Alarms

Helpful hints: (Strategies):

- You can keep the children's interest by bringing in various firefighting tools and asking the children the correct names.
- Incorporate vocabulary into other lessons.

Developmental information: For a complete explanation by target group, refer to the beginning of the "design section" - Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

- We want students to: (Objectives) : - Identify that a grownup must be present for all safe fire use. - Give examples of good fires. (fireplace, barbecue, birthday candles) - Give examples of bad fires. (forest fires, house fires, clothes on fire) - Identify the three sides of the fire triangle. Give an example of each. - Explain what happens when one side of the triangle is taken away. - Give examples of fuel, heat, oxygen.

Seven kinds of learning styles: Table with columns for Intelligences, Smarts, and Think, listing various learning styles like Verbal/Linguistic, Logical/Mathematical, etc.

Combine this Behavior with these others: 678-016 First Aid for Burns

- Helpful hints: (Strategies): - Overheads, visuals and pictures are a must at this age level if you are going to be successful. - Don't use open flames such as candles or matches. - Don't use toys that have been burned. - Reinforce that a fire without a grown-up is a bad fire.

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes.
- Short videos 8 to 10 minutes can be used.
- Expect a "know it all" attitude

We want students to: (Objectives) :

- Explain "Tell a Grown-up".
- Identify things that can get hot and burn.
- Tell it's OK not to keep secrets if someone is playing with matches or a lighter.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-005 Stop Drop & Roll
- 678-020 Birthday Safety

Helpful hints: (Strategies):

- At 2nd grade you can change the message from "Tell a Grown-up" when you see matches or a lighter to give them to a grown-up.
- Bring in a tool box to discuss tools vs. toys.
- Information should be sent home.

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

- Discuss when to use "Stop, Drop & Roll".
- Demonstrate "Stop, Drop & Roll" correctly.
- Distinguish when to "Stop, Drop & Roll" and when to "Crawl Low Under Smoke".
- Recognize that the student must tell a grown-up immediately after they "Stop, Drop & Roll".
- Demonstrate helping another student with "Stop, Drop & Roll".

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-004 Match & Lighter Safety
- 678-009 Crawl Low Under Smoke
- 678-016 First Aid for Burns
- 678-028 Disabilities and Safety
- 678-029 Community Role In Safety

Helpful hints: (Strategies) :

- Encourage children to cover their faces after they have dropped to the ground, not before.
- Emphasize that the student should lower themselves gently to the ground.
- Activities should be done on a clean area.
- A 2 foot by 3 foot carpet square is a good size area to limit the rolling space and introduce the issue of "Stop, Drop & Roll" in a confined space.
- Encourage the students to help people with disabilities.

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

- Identify heating sources in the house (what's hot and what's not).
- Identify things to keep away from heating sources.
- State you should keep a safe distance away from heating sources, which includes 3 steps.
- Discuss what can happen if you get too close.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-003 Understanding What Is Fire
- 678-016 First Aid for Burns

Helpful hints: (Strategies):

- Be sensitive to the types of housing of students live in: (i.e. mobile homes, apartments, "triple-deckers", condos, single family homes)
- Examples of heating sources :
 - Kitchen - toasters, stoves, microwaves, ovens.
 - Bathroom - curling iron, dryers, hot water.
 - Home - heater, fireplace, wood stove, electric blanket, iron.
 - Basement - furnace, hot water heater.

Self Protection

9.8

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes.
- Short videos 8 to 10 minutes can be used.
- Expect a "know it all" attitude

We want students to: (Objectives) :

- Identify the loud noise of a smoke alarm as a signal to get out of the building quickly.
- Differentiate between the steady alarm and the chirping alarm.
- Identify the chirping alarm with the need to replace the battery.
- Demonstrate how to test an alarm.
- Recognize that alarms should be tested at least monthly.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-008 **Escape Plans**
- 678-009 **Crawl Low Under Smoke**
- 678-012 **Reporting Emergencies**

Helpful hints: (Strategies):

- Explain that a smoke alarm constantly smells for smoke. That is why alarms are so important, because when people go to sleep they lose their sense of smell.
- Smoke alarms and smoke detectors are used to mean the same thing. You can use either alarm or detector but try to be consistent so you don't confuse the students. We will use the word alarm throughout the guidebook to be consistent.
- Bring a working smoke alarm to the class. Explain that the alarm will make a loud noise. Demonstrate the noise. Teach that when you hear this sound that you must leave the building quickly. When the alarm chirps, change the battery.
- Some students stay at more than one home and should help maintain alarms there too.

Teacher's notes:

- Smoke alarms must be installed at or near the ceiling within ten feet of bed room doors and at the top and bottom of stairways on every level of your home. You should test your alarm at least monthly, change the batteries when you change your clocks in the spring and fall and replace the alarm after ten years. New homes must also have hardwired smoke alarms in bedrooms.

Combine this Behavior with these others:

- 678-007 Smoke Alarms**
- 678-009 Crawl Low Under Smoke**
- 678-011 Fire / Emergency Drills**
- 678-012 Reporting Emergencies**

Helpful hints: (Strategies):

- If you sleep in more than one home you must have an escape plan in each home and practice it with everyone in that house.
- "Exit Drills in the Home" (E.D.I.T.H.) must be practiced both "Day and Night" (D.A.N.).
- Have students make a home escape plan as a homework assignment.
- Send information home on planning and practicing escape plans.

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

- State "Do not hide in a fire."
- State to "Get Out and Stay Out."
- Demonstrate how to crawl low on hands and knees, not on belly.
- Demonstrate how to roll out of bed when smoke alarm sounds.
- Explain that in a fire, smoke and heat will rise to the ceiling and cleaner air will be close to the floor.
- State to "Test all closed doors with the back of your hand."

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes.
- Short videos 8 to 10 minutes can be used.
- Expect a "know it all" attitude

We want students to: (Objectives) :

- Learn that exit signs are posted in public places. They are usually red or green and are located high on the wall.
- Understand that exit signs are lighted or glow so they can be seen in the dark to guide you to the exit.
- Practice looking for exit signs when they enter a building that is unfamiliar to them so they will have two ways out in an emergency.
- Learn the definition of "exit". Exit is a way to get out. They should always have two ways out or two exits.
- Recognize that exit signs are not located over elevators because elevators are not safe to use in an emergency.
- Repeat that once they have exited a building, they need to go to their meeting place.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-007 Smoke Alarms**
- 678-008 Escape Plans**
- 678-029 Community Role In Safety**

Helpful hints: (Strategies):

- You can take the class around the school and look for exit signs. Have them add up all the exit signs.
- Have the students draw and color an exit sign.
- Elevators ride up and down inside shafts which carry smoke and heat to the top of the shaft during a fire.
- Elevators are unreliable in a building on fire because the electronics can easily be affected by the smoke and heat.

9.2

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

- Practice how to summon help by pressing or dialing the numbers 9-1-1 on a telephone or cellular phone.
- Learn that even if you don't know where you are, help will still arrive because the 9-1-1 operator can tell where you are calling from. and that when calling 9-1-1 on a cellular phone you must explain where you are to the operator.
- Explain that a fire alarm pull station will notify people in the building and you must also call the fire department from outside.
- Repeat their name, address and phone number.
- Explain that using a pull station when there is no fire is wrong.
- Explain the reasons for calling 9-1-1: to report a fire, stop a crime to save a life or when you are afraid.
- Review what an emergency is: (from the glossary)
 1. A serious situation or occurrence that happens unexpectedly and demands immediate action.
 2. A condition of urgent need for action or assistance.
 3. When someone needs help.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-001 Community Helper**
- 678-008 Escape Plans**
- 678-016 First Aid for Burns**

Helpful hints: (Strategies):

- Explain when and why they should use the 9-1-1 system, which is to stop a crime, report a fire or to save a life.
- Hand out 9-1-1 stickers to the students to take home
- Bring two telephones with you to practice emergency calls.
- Show the students where the pull stations are near the class room and explain that pull stations are usually at an exit.
- Certain residential buildings such as "triple-deckers" (a three family building covering three floors) will have pull stations but will not necessarily notify the fire department. That is why we must teach calling 9-1-1 after pulling the pull station with a phone call.

Teacher's notes:

- For generations school teachers and fire departments have taught that children should never touch pull stations. Unfortunately these teachings have instilled the behavior and we find that adults do not use pull stations when there is a fire emergency. Take care to reinforce that they should be used for emergencies.

Safety & Injury Prevention Learning Standard

Self Protection

9.8

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude- Attention span 15

We want students to: (Objectives) :

- Explain what could happen if they touch something hot.
- Explain that hot objects and hot liquids can cause burns.
- Identify objects that can become hot but may not always be hot such as: iron, stove, oven, toaster, coffee maker, dishwasher, hot water, cooked food, and food in the microwave.
- Explain how to cool a burn with cool water (and nothing else) and for how long.
- Demonstrate "Stop, Drop and Roll" to put fire out on your clothes.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-005 Stop Drop & Roll**
- 678-012 Reporting Emergencies**
- 678-016 First Aid for Burns**

Helpful hints: (Strategies):

- Explain that children in this group should not be doing any cooking, even in a microwave, alone without a grownup.

Teacher's notes:

- Children should be taught to cool a burn for a long time - defined as singing a song twice - like "Happy Birthday" or the "Alphabet Song".

This behavior has been linked with The Massachusetts Comprehensive Health Curriculum Frameworks:

Safety & Prevention Strand

Safety & Injury Prevention Learning Standard

Hazard Prevention

9.3

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

- Explain the following electrical safety rules:
 - Students do not play with electrical outlets or stick foreign objects in the outlets.
 - Students do not stick electrical wires in their mouths or let other children do the same.
 - Light bulbs are extremely hot and can burn you.
 - Electricity can burn you.
 - Electrical cords should not be placed under rugs or objects.
- Discuss what you have in your house that runs on electricity.
- Discuss when to use electricity safely.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

678-012 Reporting Emergencies

Helpful hints: (Strategies):

- When you teach electrical safety in 1st and 2nd grades you should keep it simple. Start by making sure that the students understand the words you are using, for example choose electric outlet, receptacle or socket, show the students what you mean and then don't interchange the word during your lesson.
- When you are outside never go near electrical wires or electrical equipment if the wires are hanging down or on the ground.
- Keep electricity and things that are plugged in away from water, including the sink and tub.

This behavior has been linked with The Massachusetts Comprehensive Health Curriculum Frameworks:

Safety & Prevention Strand

Safety & Injury Prevention Learning Standard

Emergency Intervention

9.12

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

- State that "If you touch something hot, you may get burned."
- State that "Cool water will make a burn feel better."
- State "Tell a grown-up whenever you get burned so they can help you."
- Identify hot things that could burn you if you touch them.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-004 Match & Lighter Safety
- 678-005 Stop Drop & Roll

Helpful hints: (Strategies):

- The real emphasis should be on recognizing things that can burn you so as to prevent the burns in the first place.
- When explaining how to cool a burn, it should be explained that you cool a burn under cool water for a long time.
- Talk about sunburns as being minor burns.
- Don't teach them to use cold water or ice water, only cool water.
- Talk about how burns can occur including scald burns.
- Some prevention strategies: Always run the cold water first then the hot; don't reach for things on the counter or stove.
- Use picture or flash cards of items that can cause burns.

Teacher's notes:

- Grown-ups should be reminded through their children that only water should be used on the skin for burns. Never use grease, butter or ointments on a burn.

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

Swimming safety:

- Recite that they should not go near the water unless they are with an grown-up or lifeguard.
- Identify that they should call 9-1-1 or get a grown-up right away if they see someone in trouble.
- Explain why to use the buddy system when swimming.
- Explain not to swim at night or dive into unknown or murky water.
- Define why someone should not go into water during an electrical storm.

Boating Safety:

- Explain "to stay seated when in a boat and always wear a life jacket" (personal flotation device).
- Discuss why children should not distract the boat driver.
- Explain when water skiing someone must watch skier at all times.
- Explain "never overload a boat with too many passengers".
- Explain "to stay with an overturned boat until help arrives".

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-027 Surviving Severe Storms**
- 678-030 Ice Safety**

Helpful hints: (Strategies):

- Life jackets or Personal Flotation Devices are required on most boats, jet skis, canoes and kayaks. Children should always wear them. It is important that the PFD be Coast Guard certified and be the correct size for the person wearing it.
- The student should be taught that they should only go to grown-ups that they know or a lifeguard if at a pool or at the beach.
- Encourage grown-ups to take the students to a Red Cross, YMCA swimming class or a city / town recreation swim class.

Understanding Camping and Hiking Safety

Grade

1&2

Reference #
678-026

Target group

Ages 6-8 First & Second Grades

Safety group:

Outdoor Safety

Appendix "A"
Reference Info

Appendix "B"
Glossary

Appendix "C"
Lesson Plans

Appendix "D"
Frameworks

This behavior has been linked with The Massachusetts Comprehensive Health Curriculum Frameworks:

Physical Health Strand

Physical Activity & Fitness Learning Standard

Personal & Social Competency

2.7

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

- Explain to never go hiking or camping without a grown-up buddy.
- Explain to leave a plan with a grown-up.
- List items to bring on a hike (water, food, flashlight, rain jacket, sweater).
- List the don'ts (don't eat or drink anything you did not bring, don't go near wild animals, don't run around campfires, don't bring a candle into a tent, don't go near water without a grown-up)
- Recall what to do if lost.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-012 Reporting Emergencies
- 678-016 First Aid for Burns
- 678-025 Water Safety

Helpful hints: (Strategies):

- Keep it simple - students need to know about the buddy system, what to do if lost and the need to have proper items.
- Good topic to teach to with a grown-up partner/buddy.

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

- List different kinds of storms and which seasons they are likely to occur.
- State that "The safest place to be in a severe storm is indoors."
- Explain what happens during different types of storms.
- Describe what to do when the power goes out.
- Describe what to do in a lightning storm.
- Recognize the dangers of downed power lines.
- Explain how to prepare for a severe storm.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-008 **Escape Plans**
- 678-012 **Reporting Emergencies**
- 678-015 **Electrical Safety**

Helpful hints: (Strategies):

- Focus on a particular season rather than trying to cover all the seasons.
- Send information home.
- Create a safety list for the different seasonal storms.
- Suggest that families prepare a survival kit.

Self Protection

9.17

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

Bikes:

- Explain why they need a helmet when riding their bikes (it is the law, and it protects your head if you fall).

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

678-017 Transportation Safety

Helpful hints: (Strategies):

- Check to see if this lesson is taught by police or other safety educator.
- Ask the student to tell you how they get places (car, bike, bus, walking).
- Stress the need for them to ride, bike and walk safely to avoid getting hurt.
- Send information home about bikes/helmets.

Safety & Prevention Strand

Safety & Injury Prevention Learning Standard

Hazard Prevention

9.3

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

- Report a fire, report a crime or save a life using the 9-1-1 system.
- Prepare a plan for escape from home.
- Prepare a plan for escape from school.
- Conduct a test of their smoke alarms.
- Practice E.D.I.T.H. (Exit Drills In The Home).

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations

This behavior has been linked with The Massachusetts Comprehensive Health Curriculum Frameworks:

Physical Health Strand

Physical Activity & Fitness Learning Standard

Personal And Social

2.7

Developmental information:

For a complete explanation by target group, refer to the beginning of the "design section"

- Attention span 15-25 minutes. - Short videos 8 to 10 minutes can be used. - Expect a "know it all" attitude

We want students to: (Objectives) :

- Define that a grown-up must check the ice before children play.
- Recite that you always need a grown-up when you are near ice.
- Discuss that pets should be kept on a leash when around ice.
- Recognize you should wear lots of warm clothing when skating.
- Identify that if someone gets into trouble to tell a grown-up and call 9-1-1.
- Explain that ice that has cracks or water on it is too dangerous to go on to it.

Seven kinds of learning styles:

<u>Intelligences</u>	<u>Smarts</u>	<u>Think</u>
Verbal / Linguistic	Words	In Words
Logical / Mathematical	Logic	By Reasoning
Visual / Spatial	Picture	In Images and Pictures
Body / Kinesthetic	Body	Through Somatic Sensations
Musical / Rhythmic	Music	Via Rhythms and Melodies
Interpersonal	People	By Bouncing Ideas off others
Intra Personal	Self	Deeply inside themselves

Combine this Behavior with these others:

- 678-012 Reporting Emergencies
- 678-022 Winter Holiday Safety
- 678-023 Snow Recreation Safety

Helpful hints: (Strategies):

When is it safe to skate on ice?:

- Anytime on a skating rink
 - When there has been several continuous days of below freezing weather and the ice is at least four inches thick.
 - When there is no open water, puddles or cracks in the area that you wish to skate on.
- Remember that the 9-1-1 system is not to be used to check on ice or weather conditions.
