Family Support

At Three Rivers all staff members will work closely with you and your family. We want to help you spend as much time as possible together at the program, in the community, and in your home! The names of some of the jobs here are Family Support Coordinator and Building Bridges Manager. Those people, along with the rest of us, are here to support you and your family in whatever way you need.

Therapy Service Dog

Yofi can play with you and comfort you.
You can even brush her!

Living Room

This is where we have our meetings and monthly family trainings.

Family Suite

When you are not in your home, your family can spend time at Three Rivers!

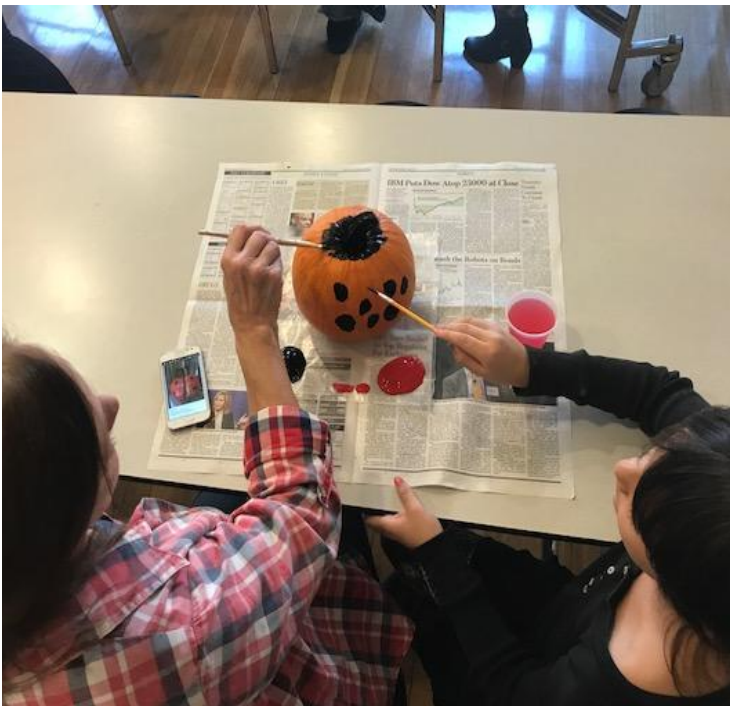

The family suite has beds for families who live close by or far away to spend the night if they want to. We want families to have opportunities to spend as much time with their children as possible. We also offer special trainings just for families at the program and sometimes at home.

Family Days

Family Days are times that you can enjoy special activities with family or friends that care about you.

There are games, projects, special guests and even a carnival.

Three Rivers is part of the world!

Three Rivers is not just a destination. The Three Rivers Program is a bridge to the people, places, and things you care about.

We help you spend time at home and other places as often as possible.

We can help your parents with transportation. We can work with you and your family at your home.

We can go with you to home or out around here, with your family.

Your parents can join our activities here too.

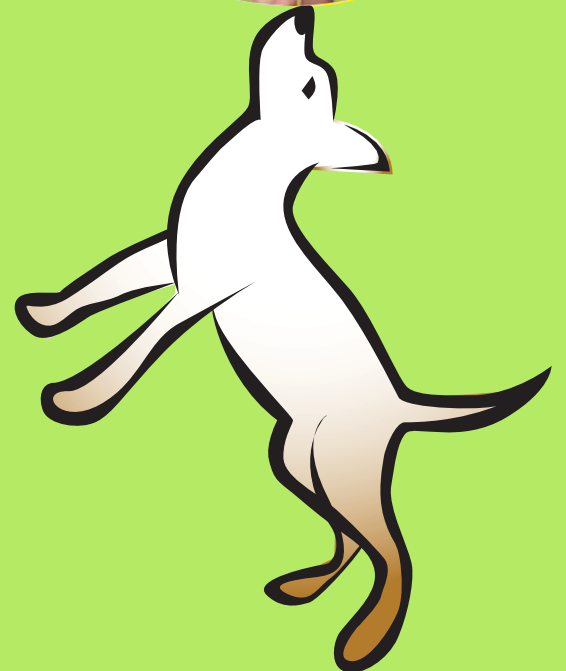

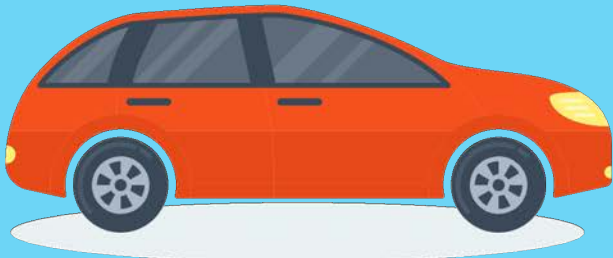

Community

We do lots of fun things at Three Rivers and in the community!

There is an annual beach trip for kids and families who are able to join.

We can't wait to have fun with you and your family!

We can help your family get to the program if they need it!
