

Massachusetts Department of Public Health COVID-19 Vaccine Data – Tuesday, May 10, 2022

Daily COVID-19 Vaccine Report

The Daily COVID-19 Vaccine Report includes the most currently available information on vaccine doses shipped, the number of vaccine doses administered, including number of people partially and fully vaccinated, and the percent of total doses administered. Additional data on vaccines are published in the Weekly Vaccination Dashboard posted on Thursday.

Please note: Data in the dashboard reflects the date when vaccination was reported by providers into the Massachusetts Immunization Information System (MIIS), not the date the vaccine was administered.

Massachusetts Department of Public Health COVID-19 Vaccine Data – Tuesday, May 10, 2022

Critical definitions *Please Note: the following terms and definitions apply to COVID-19 only.*

Doses administered: Doses of vaccine that have been given to people by providers.

Individuals who received at least one dose: People who have received at least one dose of a COVID-19 vaccine (Moderna, Pfizer, J&J/Janssen).

Individuals who are fully vaccinated: A person is counted as fully vaccinated if they have received the number of doses required to complete the COVID-19 vaccine series (e.g., Moderna and Pfizer vaccine require two doses to complete the series).

Booster doses administered: An additional dose of mRNA vaccine (third of Pfizer or Moderna and second of J&J) is recommended for moderately and severely immunocompromised individuals to complete their primary series. Booster doses are recommended for everyone aged 12 years and older. See <https://www.mass.gov/info-details/covid-19-booster-frequently-asked-questions> for details on which formulation of vaccine is recommended at which intervals.

Additional booster doses: Number of unique individuals who have received an additional dose after the booster dose.

Total doses administered: Total doses administered is the combination of first doses, second doses, booster doses, and additional booster doses administered.

MIIS: Immunization data from most (but not all) providers in Massachusetts are reported into the Massachusetts Immunization Information System (MIIS) through direct messages from electronic health records or direct entry by users. Due to provider reporting of administration data and data processing, data may be available in MIIS 24-48 hours or more after administration. Due to time needed for inputting shipment data, shipment data may be available in MIIS 24-48 hours or more after shipment. Data are current as of time of publication and may be subject to change in future publications as additional data are reported.

Massachusetts Department of Public Health COVID-19 Vaccine Data – Tuesday, May 10, 2022

	5/4	5/5	5/6	5/7	5/8	5/9	5/10
DOSES ADMINISTERED (MIIS)*							
At least one dose -- number of people who received at least one dose of Moderna, Pfizer, or Johnson & Johnson vaccine	6,193,377	6,194,419	6,195,284	6,196,142	6,197,079	6,197,784	6,198,439
Fully vaccinated -- number of people who received a primary series of Moderna, Pfizer, or Johnson & Johnson vaccine**	5,363,010	5,364,131	5,365,307	5,366,278	5,367,313	5,367,807	5,368,602
Booster doses -- number of people who received a booster dose of Moderna, Pfizer, or Johnson & Johnson vaccine***	3,006,853	3,009,082	3,011,308	3,013,428	3,015,038	3,016,025	3,017,849
Additional booster doses -- number of people who have received at least 2 booster doses****	307,658	316,422	325,476	333,360	339,974	344,010	349,760
Grand Total Doses Administered (MIIS)	14,530,894	14,544,081	14,557,406	14,569,251	14,579,461	14,585,682	14,594,731

*Data from the Massachusetts Immunization Information System (MIIS) are as of midnight the night before. As of 11/4/2021, MIIS numbers include vaccinations reported from the Veterans Administration for MA residents.

**Fully vaccinated people have 2 doses of Moderna or Pfizer vaccine or 1 dose of Janssen (J&J) vaccine

*****Booster doses administered:** An additional dose of mRNA vaccine (third of Pfizer or Moderna and second of J&J) is recommended for moderately and severely immunocompromised individuals to complete their primary series. Booster doses are recommended for everyone aged 12 years and older. See <https://www.mass.gov/info-details/covid-19-booster-frequently-asked-questions> for details on which formulation of vaccine is recommended at which intervals.

******Additional booster doses:** Number of unique individuals who have received an additional dose after the booster dose.
