RE: FY 2022 Annual Report Supplier Diversity – Affirmative Marketing Program for Design & Construction, Workforce Reporting and VBE Reporting

Dear Secretary Gorzkowicz:

Attached please find the FY 2022 report for the Division of Capital Asset Management and Maintenance's (DCAMM) construction and design MBE/WBE business participation, VBE business participation and minority and women workforce participation.

MBE/WBE Business Participation in Design and Construction Contracts

Program Goals

The Commonwealth's enhanced AMP Program ("AMP 2020") took effect for construction and design projects advertised after July 1, 2020. Under this new program DCAMM set new, higher overall annual MBE and WBE participation target goals. AMP 2020 made other important changes to the AMP Program. It created separate goals for minority and women owned firms, rather than combined goals from the previous plan. It also established a methodology for setting project specific goals based on data from DCAMM's most recent statewide disparity study issued in 2017, factoring in project-specific considerations, including scope, size, and availability of subcontracting opportunities.

DCAMM's overall annual program target goals under AMP 2020 are 4.2% MBE and 8.8% WBE for construction spending and 6.6% MBE and 15% WBE for design spending. These apply to projects advertised on or after July 1, 2020 and these projects are designated as "AMP 2020" in this report. Projects advertised before this date continued with the combined goals from the previous AMP of 10.4% for construction contracts and 17.9% for design contracts and are referred to as "Legacy" projects in this report.

Project Results

DCAMM reports on both design and construction **payments** and design and construction **awards**.

In FY 2022, a large majority (about 80%) of construction payments and two-thirds (about 67%) of designer payments were made on Legacy projects. Overall, \$41.4 million was paid to MBE and WBE firms, and all the annual program goals were met. For AMP 2020 projects, which comprise only 20% of construction and about one-third of design payments, MBE and WBE payments totaled nearly \$12.8 million. DCAMM's overall annual program targets for MBE construction payments and WBE design payments were significantly exceeded, while WBE construction payments and MBE design payments were less than 1% below targets.

All contract awards in FY 2022 were for projects advertised on or after July 1, 2020 and are therefore under the AMP 2020 program. The overall program targets were exceeded for both MBE and WBE firms in both design and construction contracts.

Veteran Business Enterprise and Service-Disabled Veteran Owned Business Enterprise Participation

Program Goals

The Commonwealth's established goal is 3% for design and 3% for construction.

Project Results

In FY 2022, DCAMM significantly exceeded the established benchmark for VBEs in construction, with 4.9% of construction spending attributed to these firms. There were no payments made to SDO certified VBE design firms.

Minority and Women Workforce Participation in Construction and Design

Program Goals

The Commonwealth's established goals for construction workforce participation are 15.3% for minorities and 6.9% for women. DCAMM reports on annual worker hours and "cumulative to date" hours on projects underway, which is a more complete reflection of performance under the goals.

Project Results: Construction and Design Workforce

In FY 2022, contractor-reported construction worker hours totaled over 874,000 hours. "Cumulative to date" reported hours for all workers on these same projects total nearly 1.7 million. Both the current year (FY 2022) and cumulative project to date minority workforce hours exceeded 24% - far above the overall 15.3% program benchmark. FY 2022 reported hours for women in construction totaled nearly 29,000, with the cumulative project to date total of approximately 52,000 hours, resulting in reported hours for women above 3% in both cases, but short of the benchmark of 6.9%. DCAMM will continue to work with industry groups, individual contractors, and the construction trades to expand participation of women on DCAMM projects as more women move into the construction trades.

There are no established benchmarks for designer workforce participation on DCAMM projects; however, the participation of minorities and women as a portion of the total workforce providing design services is tracked. Reporting requirements on design contracts extend only to the Prime Consultant on the project. Women continue to comprise a much larger portion of the designer workforce than their female counterparts in the construction trades. The FY 2022 designer workforce data shows over 40% of reported hours worked by women on both an annual and cumulative to date basis, while minority hours totaled just over 30% of reported design hours.

DCAMM continues its ongoing efforts to make working with the agency easier while expanding opportunities for minorities and women to participate in DCAMM projects, both as workforce

participants and as business owners. These initiatives include extensive strategic outreach, communication, and training initiatives to expand the pool of MBE, WBE, and VBE firms and to raise awareness of upcoming opportunities to participate in DCAMM projects as either prime or subcontractor. DCAMM is also working to launch a new disparity study during calendar year 2023.

The attached report provides additional details about these initiatives and DCAMM's Affirmative Marketing Program, including detailed backup reports for payments, awards, and workforce tracking for FY 2022.

Sincerely,

Carol W. Gladstone
Commissioner

SECTION 1

Introduction and Overview of Report Methodology

I. INTRODUCTION AND OVERVIEW OF METHODOLOGY

This report summarizes performance against program goals under the Division of Capital Asset Management and Maintenance’s (DCAMM) FY 2022 Affirmative Marketing Program (AMP) for Design and Construction, as well as workforce utilization data compiled for FY 2022 from firms working on DCAMM construction and design projects. It also includes Veteran Business Enterprise (VBE) and Service-Disabled Veteran Owned Business Enterprise (SDVOBE) participation, which for purposes of this report are collectively referenced as VBEs, on DCAMM construction and design projects.

DCAMM’s program to expand access and opportunity for Minority and Women-owned (MBE/WBE) construction and design firms spans over three decades. Massachusetts General Law Chapter 7C, §6 and its predecessor legislation originally established programs first for MBE firms, then later adding WBE firms. The early program focused exclusively on construction projects and later expanded to design services and workforce reporting.

In addition to Chapter 7C, §6, Chapter 149, §44A(2)(G), along with A&F Administrative Bulletins 14 and 17A as well as related laws, executive orders and ANF bulletins establish current MBE/WBE business participation and workforce data collection and reporting requirements and set workforce participation benchmarks on DCAMM and other state agency and state-funded construction contracts. Executive Order 565 establishes tracking and reporting of Veteran Business Enterprises (VBE) and Service-Disabled Veteran Owned Business Enterprise (SDVOBE) contract expenditures.

II. METHODOLOGY: DESIGN AND CONSTRUCTION ANNUAL PROGRAM GOALS

DCAMM established its overall annual program goals/targets across all spending and on individual DCAMM projects. DCAMM establishes the project specific MBE/WBE participation goals for each design and construction project based on the statewide disparity study. Among other things, the disparity study determined the availability of MBE/WBE firms and the extent to which the design and construction marketplace has limited opportunities for these firms.

The following are the overall annual program goals in place during FY 2022 applicable across DCAMM’s overall annual spending for projects advertised prior to July 1, 2020. For purposes of this report, projects tracked under the predecessor (combined goal) program are referred to as “Legacy” Projects.

The program performance for Legacy projects is calculated as follows:

$$\frac{\text{Total Contractor Payments to MBE/WBEs}}{\text{Total Contractor Payments All Firms}} = 10.4\% \text{ combined MBE/WBE DCAMM Participation}$$

$$\frac{\text{Total Design Payments to MBE/WBEs}}{\text{Total Design Payments to All Firms}} = 17.9\% \text{ combined MBE/WBE DCAMM Participation}$$

The following are the overall annual program target goals, applicable across DCAMM’s overall annual spending for projects advertised on or after July 1, 2020 (“AMP 2020” Projects).

The program performance under AMP 2020 projects is calculated as follows:

$\frac{\text{Total Contractor Payments to MBE}}{\text{Total Contractor Payments All Firms}}$	=	4.2% MBE DCAMM Participation
$\frac{\text{Total Design Payments to MBE}}{\text{Total Design Payments to All Firms}}$	=	6.6% MBE DCAMM Participation
$\frac{\text{Total Contractor Payments to WBEs}}{\text{Total Contractor Payments All Firms}}$	=	8.8% WBE DCAMM Participation
$\frac{\text{Total Design Payments to WBEs}}{\text{Total Design Payments to All Firms}}$	=	15.0% WBE DCAMM Participation

Performance reported here is based on these calculated ratios across DCAMM’s project portfolio. FY 2022 spending and awards data were drawn from a combination of MMARS (the state’s accounting system) and dedicated in-house data sources used to track compliance with project MBE/WBE goals and the Veterans benchmarks (currently at 3% for design and 3% for construction).

This report provides two payment summary tables – one with payment data for Legacy projects (Table 1.1), and one for AMP 2020 projects (Table 1.2). Corresponding detailed backup reports are also provided in the appendix. All project awards in FY 2022 were made under the AMP 2020 program. These are reported under a single summary table (Table 2) and associated backup reports.

Both the Legacy and AMP 2020 programs feature individual participation goals established for each project. Across both programs, goals may be reduced or waived by DCAMM on an individual project prior to bidding based on scope of work, project size, limited subcontracting opportunities, and other relevant factors.

III. OVERVIEW OF RESULTS: DESIGN AND CONSTRUCTION PROGRAM GOALS

The construction and design projects reported here contain a mix of both DCAMM Legacy and AMP 2020 projects. Payment results are split out accordingly in this report – showing separate results for Legacy and AMP 2020 projects. All awards in FY 2022 were made under the AMP 2020 program.

Tables 1.1, 1.2 (payments) and Table 2 (awards) summarize overall annual results for FY 2022.

Payment Results Overview

Tables 1.1 and 1.2, which appear in the next section of the report, summarize DCAMM’s overall annual program results for FY 2022. Project by project details are provided in the Appendix.

Legacy projects

Still account for approximately 80% of construction payments and 67% of design payments to all firms in FY 2022.

Under Legacy projects, FY 2022 payments to MBE and WBE firms totaled \$41.4 million for construction and design services.

FY 2022 payment results for Legacy projects all significantly exceeded program goals for both design and construction.

AMP 2020 projects

AMP 2020 projects account for only 20% of total construction payments and 33% of total design payments in FY2022.

Under AMP 2020 projects, FY 2022 payments to MBE and WBE firms totaled \$12.8 million for construction and design services.

The AMP 2020 payment target goals were significantly exceeded for MBEs in construction and WBEs in design. WBE construction and MBE design payments were just below overall program target goals.

In addition, veteran-owned businesses received over \$13.9 million in construction payments, representing nearly 5% of total construction payments to all firms (exceeding the program construction benchmark of 3%).

Awards Results Overview

Table 2 in the next section of this report summarizes awards. All awards in FY 2022 were made under the AMP 2020 program. MBE and WBE firms were awarded nearly \$30 million in design and construction contracts during FY 2022. This award amount includes projections based on signed contract obligations for CM at Risk and a subset of c. 25A energy projects. The projects are awarded in phases and have not been fully awarded at the time of this report.

For FY 2022, all award program target goals were exceeded for MBE/WBEs in both design and construction.

IV. METHODOLOGY: CONSTRUCTION AND DESIGN WORKFORCE BENCHMARKS

TRACKING CONSTRUCTION WORKFORCE PARTICIPATION

ANF Administrative Bulletin #14 establishes the following workforce participation benchmarks on state construction contracts:

<u>Number of Hours Worked by Minority Employees</u>	15.3%
Total Number of Hours Worked by All Employees	
 <u>Number of Hours Worked by Female Employees</u>	 6.9%
Total Number of Hours Worked by All Employees	

The construction workforce benchmark calculations are provided in two ways in this report. We first calculate the share of minority and women workforce hours based on just those hours reported during FY 2022. Second, we calculate the total cumulative hours reported from the inception of those same projects.

TRACKING DESIGNER WORKFORCE PARTICIPATION

It's important to note that there are no established benchmarks for designer workforce participation on DCAMM projects; however, the participation of minorities and women as a portion of the total workforce providing design services are tracked. Reporting requirements on design contracts extend only to the Prime Consultant on the project, whereas construction workforce reporting extends from the general contractor/prime through the lowest tiered subcontractor with labor onsite.

V. OVERVIEW OF RESULTS: DESIGN AND CONSTRUCTION WORKFORCE

Construction Workforce Results Overview

FY 2022 “in year” reported construction hours, and cumulative reported hours to date on each project are given in Tables 5.1 – 5.3 in the next section of the report and in the detailed appendix reports.

At over 24%, the FY 2022 construction workforce data indicates minority workforce participation far exceeding the program benchmark of 15.3% for both “in year” reported hours and cumulative to date hours on those same projects.

Meeting our annual program benchmark for women construction workforce participation continues to be a challenge. We continue our work to expand participation of women in our construction workforce. The women hours reported in construction were slightly above 3% on both an “in year” and cumulative to date basis against the overall benchmark of 6.9%.

Designer Workforce Results Overview

Women continue to comprise a much larger portion of the designer workforce than their female counterparts in the construction trades. The FY 2022 designer workforce data shows over 40% of reported hours worked by women on both an “in year” and cumulative to date basis, while minority hours totaled just over 30% of reported design hours.

VI. STRATEGIC OUTREACH FOR EXPANDING ACCESS AND OPPORTUNITY

Working through the Governor’s Office of Access and Opportunity, in partnership with the Supplier Diversity Office (SDO) and other state agencies, industry trade groups and other stakeholders, DCAMM continues its commitment to improving access and opportunities through several ongoing outreach and communication initiatives.

Expanding The Pool of MBE and WBE Contractors On Public Projects

DCAMM continues to target Supplier Diversity Office certified MBE and WBE contractors to encourage and enable them to perform public work across the Commonwealth by becoming DCAMM certified. This work includes expanded data-sharing between our two agencies to help target outreach to SDO certified firms.

Strengthening Massachusetts’ Commitment to Veterans

The statewide Supplier Diversity Program (SDP) includes a certification category for Veteran-owned Businesses. The combined Veteran-owned and Service-Disabled benchmark is 3% for design, and 3% for construction. DCAMM contracts contain this benchmark, and strongly encourage participation by veteran owned businesses. Outreach to VBEs, along with MBE and WBE firms and veteran, women and minority workers will continue to be a high priority as we move toward construction of the new Holyoke Soldiers Home.

Additional Outreach and Training for Construction and Design Firms

DCAMM works across agencies and industries to increase engagement and participation of MBEs, WBEs, VBEs, and small businesses.

- During FY2022, DCAMM participated in regular and ongoing in-person and virtual group events to provide general educational information on the public contracting process, available certifications, accessing supportive services, MBE/WBE and VBE program information and promoting opportunities to work on DCAMM and other public construction and design projects. These sessions included outreach highlighting the upcoming construction of the new Holyoke Soldiers Home, with many MBE, WBE, and VBE firms participating. These regularly scheduled outreach sessions have continued into FY 2023.
- DCAMM participates in formal training of public officials, owners' project managers (OPMs), and others as part of the Massachusetts Certified Public Purchasing Official (MCPPO) program run by the Office of the Inspector General.
- DCAMM offers "one on one" sessions upon request by design and construction firms, small businesses, and other industry participants. These sessions provide guidance to firms interested in upcoming projects and/or becoming DCAMM certified to allow them to bid on public projects in Massachusetts.
- DCAMM continues publishing our "Certification Tip Sheets." These are periodical emails sent out to raise contractor and designer awareness of the DCAMM Contractor Management Systems (DCMS) process for contractor certification. The Tip Sheet communications have received outstanding reviews from the contractor community.
- Leveraging information developed through our Anonymous Tip Hot Line to investigate any reports of fraud associated with our AMP program.

Supporting Minority and Women Business/Workforce Program

DCAMM is committed to finding and creating opportunities to help minorities and women navigate careers available in the construction industry. This is a clear "win-win" for workers, industry, and governmental entities. To that end, DCAMM continues to:

- Share ideas and best practices with public and private entities to build and maintain a diverse workforce on publicly funded projects.
- Educate prime contractors and designers on their obligations and DCAMM's compliance process including its electronic MBE/WBE payments, certified payroll, and workforce reporting.
- Leverage technology to facilitate communication and reporting and improve the quality and quantity of compliance-related data collected.
- Target mailings to MBE, WBE, and VBE subcontractors to create access and opportunities on future DCAMM construction and design projects.
- Attend agency project meetings on an ongoing basis to inform prime contractors of their obligations and commitment to meet MBE and WBE participation goals, and veteran and workforce benchmarks.

- Leveraging our recently updated Certification Evaluation Form, which includes MBE/WBE and minority and women workforce evaluation criteria, in granting or renewing DCAMM contractor certification.

VII. LAUNCHING NEW DISPARITY STUDY IN CALENDAR YEAR 2023

DCAMM plans to launch its next disparity study during calendar year 2023. DCAMM’s most recent Disparity Study of the Massachusetts construction and design marketplace was issued in 2017. Thus we will conduct an updated disparity study in support of the Commonwealth’s Affirmative Marketing Program to develop current statistical and anecdotal data in accordance with nation-wide best practices for such studies. The disparity study will be guided by an expert firm which will be competitively procured in partnership with SDO and with input from industry stakeholders.

By their nature, disparity studies require extensive outreach to affected communities and industry representatives. These typically take the form of survey questionnaires, one-on-one interviews, and focus groups, along with detailed statistical analysis to determine current availability of MBEs and WBEs in our design and construction market. The disparity study will also help document specific challenges to participation in public and private contracting, and ways to address those challenges going forward.

SECTION 2

Tables Summarizing FY 2022 AMP Results

Table 1.1 - FY 2022 Design and Construction Payments

Legacy Projects

(Bid Before July 1, 2020)

					Combined Goals	
	Payments to MBE/WBE Subs	Net M/WBE Prime Payments	Total Payments to MBE/WBEs	Total Payments to All Firms	Total Ratio MBE/WBE to Total Design and Contractor Payments	Combined Goals
Construction						
MBE	\$ 6,818,265	\$ 11,279	\$ 6,829,544		3.0%	10.40%
WBE	\$ 20,860,425	\$ 1,533,444	\$ 22,393,869		9.9%

All Firms Total (including Majority)				\$ 6,397,899		

(*)Note: These summary calculations include Chapter 149A ("CM at Risk" projects) and certain Chapter 25A energy/infrastructure projects which are typically awarded in phases over multiple fiscal years. To accurately report on these contracts, we have used projections of both final prime award amounts, as well as MBE/WBE subcontract awards where the subcontracting is still a work in progress. In all of these special cases, the MBE/WBE subcontract award amounts for each project reflect the actual awards (where available) plus projected subcontract amounts based on the MBE/WBE commitments in the contract signed by the prime. Report 8 in the appendix provides full details on each of these projects, including any projections assumed in these calculations.

Table 3 - No. of MBE/WBE/VBE Firms Receiving Payments - FY 2021 and FY 2022

Total Prime Awards	\$174,334,141	

Note: These summary calculations include Chapter 149A (“CM at Risk” projects) and certain Chapter 25A energy/infrastructure projects which are typically awarded in phases over multiple fiscal years. To accurately report on these contracts, we have used projections of both final prime award amounts, as well as MBE/WBE subcontract awards where the subcontracting is still a work in progress. In all of these special cases, the MBE/WBE subcontract award amounts for each project reflect the actual awards (where available) plus projected subcontract amounts based on the MBE/WBE commitments in the contract signed by the prime.
