Nursing Facility Direct Care Cost Quotient (DCC-Q)
Fiscal Year 2023 Reporting Period

- In October of 2020, the Executive Office of Health and Human Services (EOHHS) implemented the Direct Care Cost Quotient (DCC-Q) as a regulatory requirement to hold facilities financially accountable for prioritizing the support of direct care staff through revenue spent. The requirement applies to all nursing facilities participating in the Massachusetts Medicaid (“MassHealth”) program.
- In accordance with 101 CMR 206.12, the DCC-Q requires facilities to spend at least 75% of total facility revenue on direct care. For every 1% below the 75% DCC-Q threshold, a 0.5% downward adjustment—up to a maximum of 5%—will be applied to the nursing and operating components of the facility’s per diem rate effective the following rate year.
- In the following report, two values are presented:
 - **“Unadjusted”** DCC-Q was calculated by dividing direct care workforce expenses, such as nursing, dietary, restorative therapy, or social worker staff expenses, by the facility’s total revenue, excluding the revenue for non-nursing facility lines of business. User Fee Assessments, certain federal and state payments, certain prescription drug expenses, and certain other ancillary costs related to services provided to Medicare residents were also excluded from the revenue definition.
 - **“Adjusted”** DCC-Q was calculated as Unadjusted, except that it excludes any reported capital grants, other forgivable loans received, or any state/federal relief funds provided to a facility during the reporting period.
